# TRACSTAR® 1200

Fusion capability for 16" OD to 48" OD (450mm — 1200mm) pipe

www.sandale.ca

## **OVERVIEW**

The McElroy **TracStar® 1200** brings larger pipe capability to its line of self-propelled, track-mounted fusion machines. The TracStar 1200 butt fuses pipe from 16" OD to 48" OD (450mm to 1200mm) and can traverse most any terrain.

The self-contained machine features an on-board generator for powering the heater and facer, which is now positioned between the fixed jaws for easier pipe transfer. The carriage can be easily removed for in-ditch use. The engine is available with advanced emission control technology that meets the EPA's latest Tier 4 standards, without the need for diesel exhaust fluid (DEF). An Auto TracStar 1200 is available upon request.

## **FEATURES**

- Patented Centerline Guidance System for equal distribution of force around the joint
- ISO-compliant industrial Teflon-coated heater plates
- Advanced blade design for smooth face and long life
- DataLogger® compatible
- Removable 3- or 4-jaw carriage for in-ditch use
- · Hydraulic outriggers for machine stability and leveling
- Dual hydraulic pipe lifts aid in loading and unloading pipe
- · Serrated jaws and inserts keep pipe from slipping during fusion
- Hydraulic pivoting heater and facer
- Wireless remote driving control
- Dual-speed tracks
- Ergonomic operator platform
- · Redesigned cowling allows easy access for machine maintenance
- Remote engine stop/start capabilities

# **SPECIFICATIONS**

Fuses Pipe Sizes:	16" OD -	48" OD (450mm - 1200mm
MODELS		
CYLINDER FORCE	EMISSIONS COMPLIANCE	PART NUMBER
High	US Tier 4 and EU Stage IIIB Compliant	AT4800101
Medium	Ultra Low Sulfur Diesel Engine	AT4800102
High	EU Stage IIIA Compliant	AT4800103
Medium	High Sulfur Diesel Engine	AT4800104
POWER		
Heater Power:		35,000 Wa
Facer Power:		Hydrau
WEIGHT*	*Machine weights are with fluids full.	Inserts not included in weigh

Machine (Vehicle and Carriage):	14,860 lbs. (6740.4 Kg)
4-Jaw Carriage Configuration:	7,450 lbs. (3379.3 Kg)
3-Jaw Carriage Configuration:	3,680lbs. (1669 Kg)
Facer:	775 lbs. (351.5 Kg)
Heater:	600 lbs. (272.2 Kg)
Lifting Sling:	500 lbs. (226.8 Kg)
HVDD AIII 144	

#### **HYDRAULICS**

Maximum System Pressure:	. 3,000 PSI (207	BAR)
Hydraulic Reservoir Capacity:	23 Gallons (87 I	Liters)

#### ENGINE

EMISSIONS COMPLIANCE	FUEL TYPE	ENGINE TYPE
Tier 4 / Stage IIIB	Ultra Low	74HP (55Kw), 2.8L, 4 Cylinder Turbo,
	Sulfur Diesel	Charge Air Cooled, EGR, DEF not required
Stage IIIA	High Sulfur	72HP (54Kw), 2.8L, 4 Cylinder Turbo,
	Diesel	DEF not required

Fuel Tank Capacity:	23 Gallons (87 Liters)
Operational Tank Capacity:	12 Hours
Starting System:	Electric

#### CHASSIS

Frame:	Welded steel construction
Brake:	Spring-applied, hydraulic-release wheel motors

#### MOBILITY

Tracked:	Rubber crawler tracks
Transportation:	Self-propelled
Vehicle Speed:	Low 1.1 mph/High 1.4 mph
Lifting:	Lift noints and lifting assembly

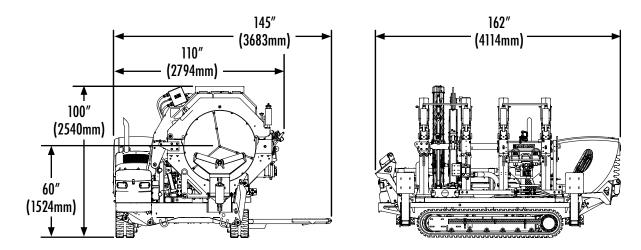

#### INCLUSIONS

The TracStar 1200 includes fusion machine, facer, heater, remote control with rechargeable batteries and lifting assembly. Optional in-ditch kit sold separately. Specifications subject to change without notice.
