ABOUT US

Founded in 1958, Jonard Tools manufactures tools for the Telecom, CATV, Fiber Optic, Home Automation, Security and Alarm, Electrical, and Utility markets. Jonard Tools is the global leader of Fiber Optic tools. We design and engineer customer partnerships to create innovative solutions for industry needs.

New tools are released monthly and are Made For Life® and Guaranteed For Life. Through quality and innovation Jonard Tools aims to move the industry forward and connect the world. Our distribution covers all 50 United States and over 100 countries, our brand names are recognized throughout the world.

OUR STORY

The company was founded by Bernard Osten and Renee Fersen Osten in 1958 and headquartered in New York. Initially the company carried products such as specialty telecom tools, wrenches, adjusters, and alignment tools. As the industry grew, Jonard Tools grew and expanded their product line to over 1,000 products today. Our headquarters is still located in New York with a strong growing global team located around the world.

MOVING FORWARD

We're driven to continually anticipate our customers' changing needs and our dedication to the customer shows in everything we do. We manufacture over 1,000 unique products and ship 98.7% of all orders complete within 24 hours. We develop 2-3 new products each month. With our premium quality control standards and precise production, we feel confident to offer a lifetime guarantee that is unmatched by our competitors.

BUILD YOUR
ULTIMATE TOOLBOX

ORGANIZE YOUR ESSENTIALS:
Keep all your go-to tools in one place.

PRINT IT AS A SHOPPING LIST:
Bring it to your distributor or keep it on hand for field checks.

PLAN AHEAD:
Whether you're budgeting for your next project or gearing up for a certification, this list helps you stay organized and ready.

FORWARD TO YOUR FRIENDS & FAMILY:
For easy gift giving ideas.

TABLE OF CONTENTS

JONARDTOOLS®

FIBER OPTIC TOOLS

Fiber optic cables typically consist of coated optical fiber, buffer tubes, aramid yarn for strength and protection, and an outer jacket. Some cables may also include armor for added protection, steel or FRP strength rods, or just a coated fiber with an extra buffer coating, aramid yarn, and outer jacket. Jonard Tools' fiber optic tools are designed to aid in stripping, prepping, connecting, cleaning, and terminating all these cable designs, as well as many others.

Fiber Optic Strippers

The Jonard fiber optic strippers use preset factory settings so no adjustments are required. This unique design eliminates human error and prevents nicks or scratches from occurring on the optical fibers. Our fiber optic strippers feature the following:

- These tools are made of strong high carbon steel and the blades are ground and hardened for higher durability and longer life
- Ergonomic handle is made of TPR (thermoplastic rubber) for greater comfort
- **JIC-125** and **JIC-175** strips the 250 micron coating down to expose the 125 micron optical fiber
- **JIC-180C** strips the 180 micron coating down to expose the 125 micron optical fiber
- **JIC-275** strips the 600-900 micron buffer coating, and 250 micron coating to expose the 125 micron glass fiber
- **JIC-375** strips the 1.6 mm-3 mm fiber jacket, 600-900 micron buffer coating, and 250 micron coating to expose the 125 micron glass fiber

JONARDTOOLS®

CableSaber™ Armored Strip & Ring - AST-200

The award winning **CableSaber**™ is the ultimate tool for gaining mid-span access to armored or thick jacketed cables 4 to 28.6 mm (0.157" to 1.125") in diameter.

Replacement Blades (Pack of 2): **AST-200RB**
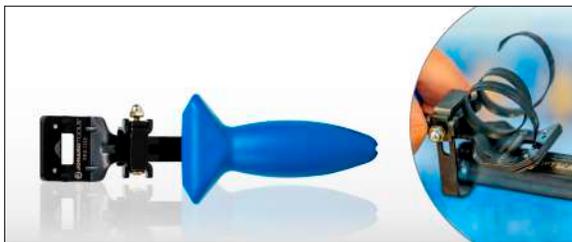

AST-200

CABLING INNOVATORS AWARDS

CableSaber+™ Armored Cable & Fiber Duct Slitter - AST-210

The Jonard Tools **CableSaber+**™ is the ultimate tool for gaining mid-span access to armored or thick jacketed cables 4 to 30.0 mm (0.157" to 1.181") in diameter.

Replacement Blades (Pack of 2): **AST-210RB**

AST-210

RocketRibbon® Cable Shaving Tool, 12-22 mm - RRS-1222

Designed to shave thick jacketed cable, such as Corning's armored and non-armored RocketRibbon® cable, this tool is perfect for making access windows on cables 0.47" to 0.87" (12 to 22 mm) in diameter.

Replacement Blades (Pack of 5): **RRS-1222RB**

RRS-1222

Window Shaving Tool - WST-225

Designed to shave a longitudinal access window in round FTTH riser cables and microducts for mid-span access. This riser slitting tool is perfect for making access windows on cables 8 to 14 mm (0.33" to 0.55") in diameter without damaging the fiber inside.

Replacement Blades (Pack of 25): **RST-RB25**

WST-225

Mid Span Shaving Tool (1.0-3.3 mm) - MS-600

The **MS-600** Mid Span Shaving Tool is designed to provide easy access to optical fibers in outer jackets and loose buffer tubes. With 6 precision grooves to handle various cable sizes, the sleek ergonomic design allows you to open a fiber jacket or buffer tube without damaging the fiber inside.

Replacement Blade Set: **MS-600RB**

MS-600

Round Cable Strip & Ring Tools

The **PATENTED** Round Cable Strip & Ring Tools are designed for fast and precise removal of cable jackets from round cables. Triple action design makes longitudinal cuts for end stripping, spiral cuts for end and mid span stripping, and circular cuts for jacket removal.

SPECS	CST-900	CST-1140	CST-1900	CST-4000
CUT TYPE	Slit, Ring	Slit, Ring	Slit, Ring	Slit, Ring

QR CODE				
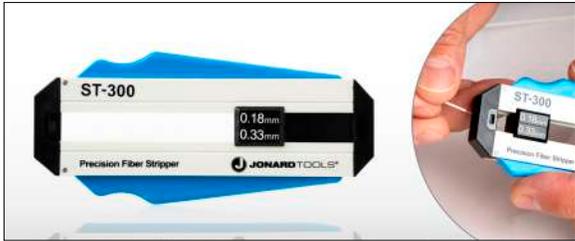

Precision Fiber Optic Stripper (180-330 Micron) - ST-300

Designed for precision fiber optic stripping, this tool is perfect for stripping the 180-330 micron acrylate coating to expose the 125 micron glass fiber of fiber optic cables.

ST-300

Precision Fiber Optic Stripper (600-1100 Micron) - ST-950

Designed for precision fiber optic stripping, this tool is perfect for stripping the 600-1100 micron buffer coating to expose the 250 micron acrylate-coated glass fiber of fiber optic cables.

ST-950

Fiber Drop Cable Strippers

Designed to strip FTTH drop cables, these drop cable strippers strip the outer jacket of drop cables and cuts the strength members to expose the fiber inside.

- Works on cables with FRP or steel strength members
- Removes the outer jacket without damaging or nicking the fiber
- Fiber support is scaled to help determine strip length

FDS-216

FDS-312

FDS-216 - Strips FTTH drop cables sized 1.6 mm by 2.0 mm
FDS-312 - Strips FTTH drop cables sized 3.1 mm by 2.0 mm
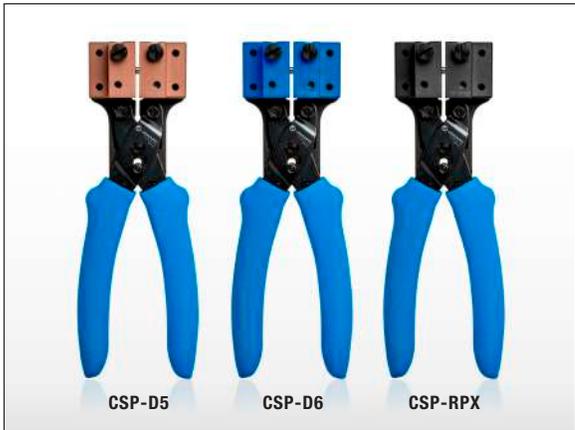

Cable Slitting Pliers

Designed with a spring-loaded ergonomic handle and ultra-sharp blades, these pliers are perfect for slitting open DAC cables and RPX® gel-free ribbon cables to access the fibers inside without damaging them. These cable slitting pliers also feature the following:

- Ultra-sharp blade slits through DAC and RPX® cable jackets with ease
- Blade is fixed to prevent damage to the internal fibers, with no adjustments needed
- Guide blocks hold the cable in place for accurate and precise cable slitting
- Spring-loaded ergonomic handles provide a comfortable grip and reduce hand fatigue
- Set screws on blade block makes it quick and easy to replace the blade

Fiber Slit & Ring Tool for EZ!Fuse™ SC & LC Splice On Connectors - EZSR-23

The **EZSR-23** Fiber Slit & Ring Tool has been specially designed to prepare 2 mm and 3 mm fiber optic cables for connecting with Fitel EZ!Fuse™ SC & LC Splice On Connectors. This tool saves time and makes the connecting process extremely easy by having a ringing dial and slitting channel with preset lengths.

EZSR-23

Cable Slit & Ring Tool - CSR-1575

Designed to slit and ring fiber optic cables from 1.2 mm to 7.5 mm (0.05" to 0.3") in diameter, this cable slit and ring tool is perfect for slitting and ringing cables, buffer tubes, and jackets on fiber optic cables.

Replacement Blade: **CSR-2**

CSR-1575

Compact Cable Slit & Ring Tools

Designed to slit and ring fiber optic cables, these cable slit and ring tools are perfect for slitting and ringing cables, buffer tubes, and jackets on fiber optic cables.

- **CSR-125** For fiber optic cables from 0 to 0.125" in diameter
- **CSR-250** For fiber optic cables from 0.125" to 0.250" in diameter
- **CSR-316** For fiber optic cables from 0.1875" to 0.3125" in diameter

Replacement Blade Set for **CSR-125** & **CSR-250**: **CSR-125RB**

CSR-125

CSR-250

CSR-316

Slit & Ring Tools - JIC-4366 & JIC-4377

The **JIC-4366** Cable Slit & Ring Tool and the **JIC-4377** Fiber Jacket Slit & Ring Tool are used as cable sheath and jacket slitters. Both tools have a ringing blade under the back handle and come with one spare ringing blade and one spare slitting blade.

The **JIC-4377** has a shorter L-shaped steel guide along the slitting blade allowing you to slit the OFS Minicord EZ-Bend and other similar cables.

Replacement Blades for Ring Cut (Pack of 6): **RB-2060/6**
Replacement Blades for Slit Cut (Pack of 6): **RB-2878/6**

JIC-4366

JIC-4377

Riser Slitting Tool - RST-8514

Designed to shave a longitudinal access window in round FTTH riser cables and microducts for mid-span access. This riser slitting tool is perfect for making access windows on cables 8 to 14 mm (0.33" to 0.55") in diameter without damaging the fiber inside.

Replacement Blades (Pack of 25): **RST-RB25**

RST-8514

JONARD TOOLS®

Fiber Optic Drop Cable Slitter - FOD-2000

The Jonard Tools **PATENTED** and award-winning **FOD-2000** Fiber Optic Drop Cable Slitter simplifies the slitting of drop cable jackets at mid span or end sections and is perfect for FTTH technicians working with flat fiber drop cables

Replacement Blades (Pack of 25): **FOD-RB25**

FOD-2000

Fiber Optic Round Cable Slitter - FOR-3000

The Jonard Tools **FOR-3000** Round Cable Slitter is designed to easily and safely open round fiber optic cable jackets from 9 mm to 19 mm in diameter. It is ideal for any FTTH or maintenance technician that needs to work with round fiber optic cables, whether mid span or end-run.

Replacement Blade: **FOR-3000RB1**

FOR-3000

Flat Drop Toner Wire Slitter - WTS-1

Designed to slit the toner wire and webbing off flat drop fiber cables, this toner wire slitter precisely separates the copper toner wire from flat drop cables to make cable preparation quick and easy.

Replacement Blade (Pack of 12): **WTS-1RB/12**

WTS-1

Flat Drop Toner Wire Slitter, Mini LT Flat Drop Cables - WTS-312

Designed to slit the toner wire and webbing off flat drop fiber cables, this toner wire slitter precisely seperates the copper toner wire from flat drop cables to make cable preparation quick and easy.

Replacement Blade (Pack of 12): **WTS-312RB/12**

WTS-312

Ratcheting Duct and Cable Slitters

These ratcheting cable slitters are designed to dismantle heavy-duty cables. The **RCS-25** and **RCS-30** both slit and ring round cables greater than 1" (25 mm) in diameter, and the **RCS-30** can also be used to make window cuts in ducts up to 5 mm thick.

Ratcheting Slitter Comparison

RCS-25 Blade Close-Up

Large guide shoe helps prevent damage to internal cables while slitting and ringing.

RCS-30 Blade Close-Up

Narrow blade shape makes it easy to penetrate thick duct walls.

APPLICATION	Cables	Cables & Ducts
REPLACEMENT BLADES	RCS-25RB	RCS-30RB
QR CODE		

Submariner Cable & Large Duct Slitter - RCS-50

Designed to open the toughest heavy-duty cable and duct jackets, this Cable & Large Duct Slitter is perfect for performing radial and longitudinal cuts on submariner cables, large fiber ducts, or large count telephone cables.

Includes the **H-20** rugged carrying case.

RCS-50

Buffer Tube Ringer (up to 6 mm) - BTR-6

The Jonard Tools **BTR-6** Buffer Tube Ring tool provides quick access to fibers inside buffer tubes up to 6 mm in diameter and will work with buffer tubes with wall thicknesses up to 1 mm. The tool is light and durable with a hardened steel blade for long life and includes a hole for tethering.

BTR-6
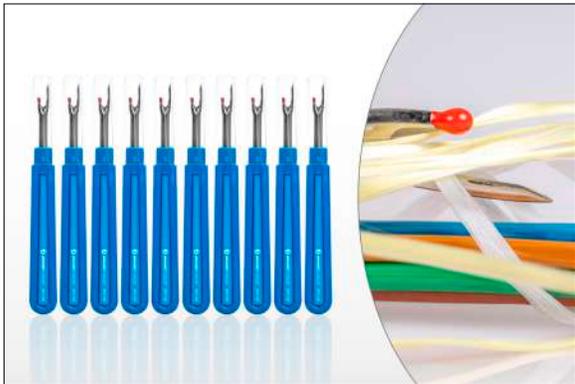

Buffer Tube Binder Ripper Tool, Pack of 10 - BRT-100

Designed to cut through the water blocking binders of buffer tube bundles or other thin ropes and strings, this binder ripper is a must-have tool for any fiber optic cable technician. This binding ripper features the following:

BRT-100

- Long handle for ergonomic grip while cutting through binders
- Super sharp blade cuts through water blocking binders with ease
- Included safety cap prevents accidental damage while stored

Rollable Ribbon Fiber Separator - RFS-100

Designed for use on Rollable or Spyder type ribbon fiber optic cables, this tool is perfect for separating the matrix of fibers in ribbon fiber optic cables quickly and easily.

RFS-100

- Can be used on Rollable or Spyder type ribbon fiber optic cable that contain up to 24 optical fibers each
- Coil spring applies pressure, keeping the fibers safe while being separated

Crimper w/ Fiber Optic Die - UC-8039

Designed for use with FC, ST, SC, LC, SMA, and MT-RJ connectors, this crimper is the perfect tool for crimping fiber optic connector collars.

UC-8039

Kit includes:
Universal Crimper Without Die   Fiber Optic Crimping Die
**UC-8000**   **UCD-2685**

JONARD TOOLS®

Microduct Sheath Slitting Tool - MDS-200

Designed with slim safety heads and high carbon steel blades, thismicroduct sheath slitter is perfect for slitting the sheaths off microduct bundles to access the microducts inside.

MDS-200

- Unique slim head design gets in between microducts easily while preventing accidental nicks and cuts
- High carbon steel blade slices through microduct sheaths with ease
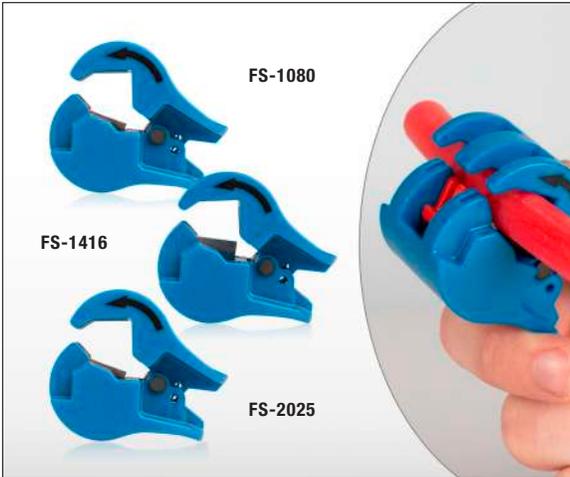

Microduct Scoring Tools, 5-16 mm

FS-1080

FS-1416

FS-2025

The Jonard Tools Microduct Scoring Tools are perfect for scoring and ringing fiber optic microducts without damaging the fibers inside.

FS-1080

- **FS-1080** For scoring & ringing 10/8 and 12/10 fiber optic microducts (1.0 mm - 1.3 mm thick ducts)
  Replacement Blade Cartridge: **FS-1080RB**

FS-1416

- **FS-1416** For scoring & ringing 14/10 and 16/10 fiber optic microducts (1.3 mm - 3.0 mm thick ducts)
  Replacement Blade Cartridge: **FS-1416RB**

- **FS-2025** For scoring & ringing 14/10 and 16/10 fiber optic microducts (2.0 mm - 2.5 mm thick ducts)
  Replacement Blade Cartridge: **FS-2025RB**

FS-2025

Rapid Microduct Deburring Tool - DB-5

Designed to deburr the insides of microduct tubes, this rapid microduct deburring tool is perfect for preparing the inside of fiber optic microduct tubes for termination.

DB-5

- S-shaped blade cleanly deburrs the edges and insides of microduct tubes

Replacement Blades (Pack of 5): **DB-5RB**

360° Rotary Duct & Tube Cutters

Designed to ring large HDPE or other similar fiber optic ducts, these rotary duct and tube cutters are perfect for making circular cuts in large fiber ducts without damaging the fiber inside.

SPECS	RTC-2640	RTC-3652
DUCT DIAMETER	1" - 1.5" (26 mm - 40 mm)	1.4" - 2" (36 mm - 52 mm)

QR CODE		

Tube Cutter 1/4" - 3" (6.3-76 mm) - TC-300

Designed to perform radial cuts on 1/4" to 3" (6.3-76 mm) copper, brass, aluminum and plastic tubes, this tube cutter is perfect for cutting open fiber optic ducts and other tubes without damaging anything inside them.

Replacement Blade: **TC-300RB**

TC-300

Microduct Tube Cutter - MDC-14

Designed to cut microducts cleanly and straight, this microduct cutter is perfect for cutting most microducts including tubing made from PVC, Nylon, PE & MDPE, and other materials up to 14 mm (9/16") in diameter.

MDC-14

Microduct Cutter - MDC-28

Designed to create quick, clean, and straight cuts in fiber ducts up to 28 mm, this duct cutter is perfect for cutting PVC, CPVC, HDPE, and other plastic tubing.

Replacement Blade: **MDC-28RB**

MDC-28

Microduct Cutting Tool - MDC-34

Designed to create quick, clean, and straight cuts in fiber ducts up to 34 mm (1-3/8") in diameter, this duct cutter is perfect for cutting PVC, CPVC, HDPE, and other plastic tubing.

MDC-34

- Slim head design to access to microducts in tight spaces
- Triangular blade provides square and straight cuts by holding the tubing in place
- Spring-loaded jaws make it quick and easy to use
- Carbon steel blade with black oxide finish is durable and easily replaceable
- Safety lock keeps tool close when not in use
- Molded ribbed grips for added comfort and grip

Replacement Blade: **MDC-34RB**

Large Fiber Duct Cutter - MDC-64

Designed to cut large fiber ducts up to 64 mm (2.52") in diameter, this fiber duct cutter is perfect for cutting PVC, CPVC, PE, HDPE, PEX, and other nonmetallic tubing. Length: 9.5" (241.3 mm)

Replacement Blade: **MDC-64RB**

MDC-64

Large Fiber Duct Cutter w/ Extra Long Handles - MDC-125

Built for larger jobs, this cutter handles fiber ducts up to 64 mm (2.52") in diameter with ease. The extra-long handles provide added leverage for cutting through tough PVC, CPVC, PE, HDPE, PEX, and other nonmetallic tubing. For smaller ducts, see our **MDC-64**. Length: 12.5" (31.75 cm)

MDC-125

JONARD TOOLS®

Microduct Slit & Ring Tools

All of our MS Series Mid Span tools are **PATENTED** for their unique design and functionality. These microduct slit and ring tools are designed to provide easy access to optical fibers in microducts, and are perfect for opening ducts without damaging the fibers or microducts inside.

Microduct Slit and Ring Tool Kit, 7-12 mm - MS-D3K

Designed to provide easy access to optical fibers in 7 10 and, 12 mm microducts, this Microduct Slit and Ring Tool Kit is perfect for opening ducts without damaging the fibers or microducts inside.

MS-D3K

- Compact design weighing less than 6 oz with included tethering hole makes it perfect to use in tight spaces or on the go
- Magnetic cartridges can be swapped out easily
- Indicator line on top of the unit indicates the position of the blade for accurate slitting and ringing
- Blades last up to 5,000 slits/cuts
- Comes packaged in a hard plastic case for organized and compact storage

Kit includes:
Microduct Slittling Tool, **MS-D7RB**, **MS-D10RB**, **MS-D12RB**

Microduct Slitting Tool Kit, 7-20 mm - MS-DS3K

Designed to provide easy access to optical fibers in 7, 10, 12, 14, 16, and 20 mm diameter microducts, this Microduct Slitting Tool Kit is perfect for opening ducts without damaging the fibers or microducts inside. This kit also features the following:

MS-DS3K

- Compact design weighing less than 6 oz with included tethering hole makes it perfect to use in tight spaces or on the go
- Magnetic cartridges can be swapped out easily
- Indicator line on top of the unit indicates the position of the blade for accurate slitting and ringing
- Blades last up to 5,000 slits/cuts
- Comes packaged in a hard plastic case for organized and compact storage

Kit includes:
Microduct Slittling Tool, **MS-DS720RB**, **MS-DS1016RB**, **MS-DS1214RB**

YOUR COMPLETE
FIBER OPTIC SOLUTION

FPM-50S	OTDR-1000	OTDR-1500	WFM-100	FPM-50A	VFL-300	OFI-100
Mini Optical Power Meter	Multi-Function OTDR	Professional Multi-Function OTDR	Wireless Fiber Inspection Microscope	Fiber Optic Power Meter	Rugged Visual Fault Locator	Optical Fiber Identifier

Every Fiber Tool. Every Fiber Test. All From Jonard.

Multi-Function OTDRs

The perfect all-in-one handheld devices for evaluating FTTx and access network construction.

Optical Power Meters

Measures power using a variety of wavelengths. Perfect for Fiber Technicians and Engineers.

Inspection Microscopes

Offer clear high-resolution images of fiber optic connectors in real time using smart devices.

Duct Reformatting Tool, 3.5-16 mm - DRT-316

Designed to restore the shape of microducts after cutting, this tool ensures a clean, round end for smooth, reliable coupling connections.

DRT-316

- Reforms microducts with inside diameters of 3.5, 4.0, 5.5, 6.0, 8.0, 10.0, 11.4, 12.0, 15.0, and 16.0 mm
- Individual steps with chamfered edges allow easy insertion into microducts with minimal force
- Comfort grip handle provides ergonomic control
- Integrated sharp blade cuts through water-blocking binders with ease
- Included safety cap protects the blade during storage

Cable Shaving Plier Kit for Buffer Tubes - CSHP-1123K

Designed for fast and efficient dismantling of buffer tubes, these cable shaving pliers are the perfect tool for performing midspan or endspan shaves for buffer tubes from 1.1mm - 2.3 mm in diameter.

CSHP-1123K

- Ultra-sharp blade shaves open Corning, Hexatronic, Air Blown, and other buffer tubes to access the fibers inside with ease
- Blades are fixed to prevent damage to internal fibers, no adjustments needed
- Blade cartridges hold the cable in place for accurate and precise microduct shaving
- Spring-loaded ergonomic handles provide a comfortable grip
- Set screws on blade block makes it quick and easy to replace the blade
- Replacement Blades **CSHP-1RB** and Replacement Cartridges **CSHP-11C-23C** sold separately

Kit includes: Cable Shaving Pliers, 1.1 mm - 2.3 mm Blade Cartridges, and (2) Replacement Blades in a Hard Carrying Case
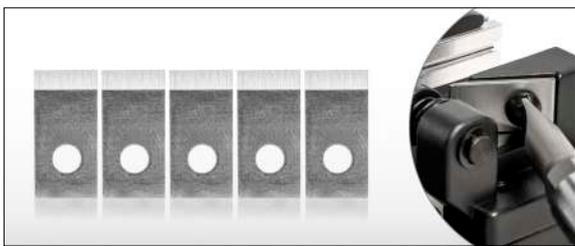

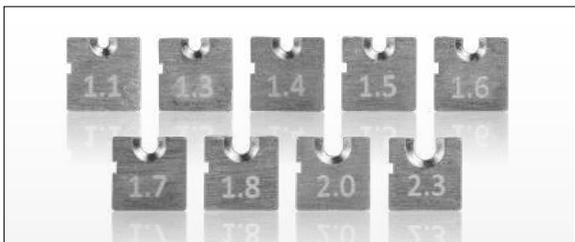

Replacement Blades for Cable Shaving Pliers - CSHP-1RB

Replacement blades for the CSHP Cable Shaving Pliers (Pack of 5).

CSHP-1RB

- Ultra-sharp blade shaves cables with ease
- Blade is fixed to prevent damage to the internal fibers, no adjustments needed
- Cable Shaving Plier Kit **CSHP-1123K** and Replacement Cartridges **CSHP-11C-23C** sold separately

Replacement Cartridges for Cable Shaving Pliers

These precision products are replacement cartridges for the CSHP Cable Shaving Pliers.

- Precision cartridges hold buffer tubes 1.1 - 2.3 mm in diameter
- Made from a lightweight and durable aluminum material for ease of use and long life

Wire & Kevlar® Cutting Shears - JIC-186

The Jonard Tools **JIC-186** Wire and Kevlar® Cutting Shears are designed to cut Kevlar®, cabling insulation, tape, cable ties, and other materials with ease. These cutting shears feature the following:

- High carbon stainless steel blades are heat-treated to HRC 58-60 for longer life and durability

JIC-186

Multi-function Kevlar® & Wire Cutting Shears, 7" - KWC-700

Designed with serrated blades, large cutting notch, non-insulated terminal crimpers, and spring-loaded handles the Jonard Tools **KWC-700** Multi-function Kevlar® & Wire Cutting Shears are the ultimate scissors for any fiber technician or electrician. These cutting shears feature the following:

- Blades made from 4034 Japanese stainless steel for the best cutting performance and long life
- Curved handle design with spring-loaded handles greatly reduce hand and wrist fatigue
- Serrated blade edge grips Kevlar® and other delicate materials firmly while cutting

KWC-700
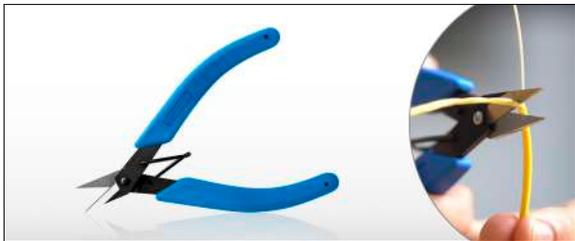

Flush Cut Kevlar® Cutters - JIC-190

The Jonard Tools **JIC-190** Flush Cut Kevlar® Cutters are designed to cut Kevlar®, cabling insulation, tape, cable ties, and other materials flush to the surface.

- Spring-loaded TPR (thermoplastic rubber) handles return to the open position for enhanced ergonomics and reduced hand fatigue

JIC-190

Insulated Cable & Duct Sheathing Knife - KN-200INS

Designed with a curved blade and insulated handle, this cable sheathing knife is the perfect tool for slitting or cutting the sheathing off cables without damaging the conductor insulation inside.

- Ultra sharp, dual-sided blade can cut cable or duct jacket sheath from either side by pushing or pulling the tool through the cable
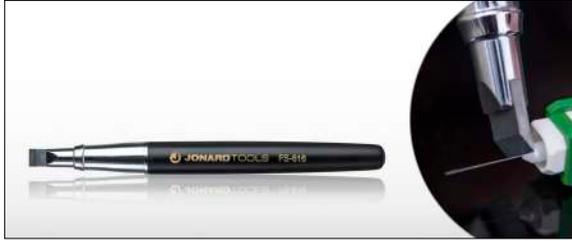

KN-200INS

Insulated Cable Dismantling Knife w/ Blade Guard - KN-300INS

Designed with a blade guard and replaceable straight blade, this insulated cable knife is perfect for cutting around jacketed cables without the risk of accidental cuts and nicks.

Replacement Blades (Pack of 4): **KN-4RB**

KN-300INS

JONARD TOOLS®

Fiber Optic Scribe - FS-616

Designed with a 35° beveled edge and 6 mm wide carbide blade, this fiber optic scribe is the perfect tool for scribing optical fiber.

- Durable anodized aluminum housing provides a comfortable and durable grip
- Ideal for "scratch & pull" technique of scribing fiber

FS-616

Fiber Cleaver - FC-220

Designed to cleave either 900 μm buffered or 250 μm coated fiber, this fiber cleaver's quick and easy three step operation is perfectly suited for mechanical splicing and quick field termination of fiber connectors.

Replacement Carbide Steel Blade: **FC-4**; Replacement Leaf Spring: **FC-65**

FC-220

Precision Fiber Optic Cleaver - FC-500

The Jonard Tools **FC-500** Precision Fiber Cleaver is designed to provide a precise cleave and prepare a fiber to be fusion spliced for 250 μm and 900 μm coated optical fiber.

Replacement Blade: **FC-500RB**

FC-500

One Step Fiber Optic Cleaver w/ Auto-Rotating Blade - FC-600

The Jonard Tools **FC-600** Precision Fiber Cleaveris designed to provide a precise, one step cleave to prepare fiber to be fusion spliced. The one step design automatically cleaves the fiber, rotates the blade, and collects fiber scraps.

Replacement Blade: **FC-600RB**

FC-600

Fiber Connector Tools

The **FCT-100** and **FCT-200** fiber connector tools are perfect for inserting and extracting fiber connectors in high-density patch panels. The unique jaws of the tools were specially designed to easily navigate tight spaces and grasp connectors firmly without damaging them or touching any surrounding connectors.

SPECS	FCT-100	FCT-200
CONNECTOR TYPE	LC, SC-Simplex, SC-Duplex, MU, MT-RJ	LC Simplex, SC Simplex, MU
QR CODE		

V-Groove Cleaning Brush, Metal & Nylon - VGB-100

Designed to clean the built-up acrylate coating in fusion splicer v-grooves, this double-ended brush is the perfect tool to clean and maintain fusion splicers. This brush also features the following:

VGB-100

- Angled stainless steel bristles on one side of the brush scrape any hard-to-clean debris out of v-grooves
- Nylon bristles on the other side of the brush gently push debris out of the way

Safety Glasses - SG-5

Jonard Tools' Safety Glasses are designed for working safely with glass fiber or where eye protection is needed. These glasses also feature the following:

SG-5

- Anti-fogging design allows the lenses to breathe, preventing fog build up
- Soft plastic nose pieces prevent glasses from slipping

Fiber Optic Tweezers, 5" - FTW-5

Jonard Tools' Fiber Optic Tweezers are designed to handle electrical wire, fiber optic cable, and small electronic components without damaging them. These tweezers feature the following:

FTW-5

- Fine point tip with rounded edges for handling delicate components or fiber optic cable

Fiber Optic Eyeloop, X3, X6, X9 Magnification - EYE-369

Designed to magnify optical fibers and other tiny objects, this eyeloop is perfect for any fiber technician.

EYE-369

- Magnification can be set to X3, X6, or X9 levels, perfect for inspecting v-grooves of fusion splicers or fiber end faces

Fiber Optic Work Mat, 22" x 14" - FWM-2214

Jonard Tools' Fiber Optic Work Mat is designed to increase the visibility of fiber scraps while providing a work space for fiber maintenance. This work mat also features the following:

FWM-2214

- Made from a dual-sided black vinyl material which sticks to smooth surfaces on one side, while providing a comfortable work space on the other

Fiber Optic Safety Kit - FSK-5

Featuring our latest and greatest fiber optic safety equipment, this Fiber Safety Kit provides the essential gear needed to safely prepare or repair fiber optic cables.

FSK-5

Includes:
- **FDC-66** Fiber Scraps Disposal Can
- **FTW-5** Fiber Optic Tweezers, 5"
- **FW-5** Fiber Wipes, Wet (Pack of 5)
- **FWM-2214** Fiber Optic Polishing Work Mat, 22" x 14"
- **SG-5** Safety Glasses
- **H-22** Rugged Carrying Case with Straps

JONARD TOOLS®

Fiber Optic Power Meters

Jonard Tools manufactures a large range of fiber optic testers specifically designed for the fiber optics industry. Various adapter options are available to test all types of fiber connectors.

FPM-50A – FIBER OPTIC POWER METER, PG. 31

Fiber Power Meter w/ Data Storage & SM/MM Optical Light Source Kit - FPL-5050

This tool kit provides everything you need to measure power and provide a stable light source for fiber optic cable testing.

FPL-5050

Kit includes:
- **FPM-50A - Fiber Optic Power Meter** to measure wavelengths from 800-1650 nm, with a mere 0.01dB resolution
- **FLS-50 - Fiber Optic Light Source** to provide either 1310 nm or 1550 nm wavelengths for a stable light source for singlemode fiber measurements
- **H-22** Rugged Carrying Case w/ Straps
- (3) AA Batteries each (required for operation)
- (2) Cleaning Swabs each
- FC Adapter, LC Adapter, and SC Adapters
- Instruction Manuals

Fiber Power Meter & Optical Light Source Kit (-50 to +26 dBm, Singlemode) - FPL-5555

This tool kit provides everything you need to measure power and provide a stable light source for fiber optic cable testing.

FPL-5555

Kit includes:
- **FPM-55 - Fiber Optic Power Meter** for measuring wavelengths from 800-1650 nm, with a mere 0.01dB resolution
- **FLS-55 - Fiber Optic Light Source** for providing a stable light source at 850/1300 nm for multimode or 1310/1550 nm wavelengths singlemode fiber measurements
- **H-22** Rugged Carrying Case w/ Straps
- (3) AA Batteries each (required for operation)
- (2) Cleaning Swabs each
- FC Adapter, LC Adapter, and SC Adapters
- Instruction Manuals

Replacement Adapters for Optical Light Sources and Fiber Optic Power Meters

FTTH Prep Kit w/ Power Meter - TK-185 & TK-185PON

These FTTH Prep Kits with Power Meter offer cleaning and preparation products for use on 1.25 mm and 2.5 mm connector end-faces and bulkhead adapters. **TK-185** includes **FPM-50A** and **TK-185PON** includes **PON-50**.

TK-185

TK-185PON

Each kit includes:
- **DW-90** Dry Wipes for Cleaning Fiber
- **FC-500** Precision Fiber Cleaver
- **FCC-250** Fiber Connector Cleaner, 2.5 mm
- **FDC-66** Fiber Scraps Disposal Can
- **FDS-312** Fiber Drop Cable Stripper
- **JIC-186** Wire & Kevlar® Cutting Shears
- **JIC-375** Fiber Optic Stripper, Three Hole
- **H-22** Rugged Carrying Case with Straps
- **VFL-150** Visual Fault Locator Kit

Optical Fiber Identifier - OFI-50

OFI-50

Designed to quickly identify the direction of transmitted fiber and display the relative core power without damaging the fiber, this fiber identifier is the perfect tool for identifying fiber in network systems without disrupting the network.

- Easy-to-use one key operation
- The display shows you the relative core power clearly
- Durable metal housing provides long life and durability
- LED indicator lets you know when the battery is running low

Kit includes: Fiber Identifier, 3 mm, 2 mm, 900 nm (0.90 mm), and 250 nm (0.25 mm) Adapters, Sunshade, (1) 9V Battery, and Carrying Pouch

Advanced Optical Fiber Identifier w/ Power Meter & VFL - OFI-100

OFI-100

Designed to quickly identify the direction of light being transmitted in the fiber and display the relative core power without damaging the fiber. This fiber identifier is the perfect tool for identifying fiber in network systems without disrupting the network and includes a built-in VFL and Power Meter for convenience.

- LCD clearly displays the relative core power, signal direction, and battery life
- Protective rubber sleeve prevents damage from accidental drops

Visual Fault Locator Kits

VFL-150

VFL-300

VFL-150   VFL-300

Works on FC, SC, ST connectors and will work on LC connectors when used with the included adapter. Distance up to 5 km (3.1 miles).

VFL-150 Includes:
- **VFL-25** Visual Fault Locator
- **VFL-25125** FC to LC Adapter
- (2) AAA Batteries and Case

VFL-300 Includes:
- **VFL-300** Visual Fault Locator
- **VFL-25125** FC to LC Adapter
- (2) AA Batteries and Carrying Pouch

Thermal Strippers

Designed to thermomechanically remove coatings from optical fibers, these Thermal Strippers are perfect for stripping extremely difficult or baked-on coatings with ease. These thermal strippers also features the following:

- Adjustable heater up to 200° C, with the ability to remove some fluoroacrylate undercoatings using high temperature
- Adjustable temperature and time settings allow it to adapt to a wide range of acrylate coatings and cladding sizes

TSAB-40 - Thermal Stripper, Adjustable Blade
Supports optical fibers with cladding diameters from 30 µm to 1000 µm, with buffer diameters up to 1200 µm, including 250 µm, 400 µm, and 900 µm coated fibers

TSAB-40

TSFB-125 - Thermal Stripper, Fixed Blade
Supports optical fibers with cladding diameter of 125 µm, with buffer diameters from 250 µm to 900 µm, including 250 µm, 400 µm, and 900 µm coated fibers

TSFB-125

Thermal Stripper Platform & Universal Clamp

For Fitel, Fujikura and Ericsson fiber holders use the corresponding platforms. For LDF and all others without fiber holders use the Jonard Tools Universal Clamp.

SPECS	TSPF-125	TSUC-40
DESCRIPTION	Platform for Thermal Stripper Holders, Fitel/Fujikura	Universal Clamp for Thermal Strippers
QR CODE		

TFS-100 - Thermal Stripper, Ribbon or Simplex Fiber

The Jonard Tools **TFS-100** portable wireless thermal stripper is designed to strip the jacket off single fiber and up to 12-strand ribbon fiber cable. With an outstanding heating time of 4 seconds, and a rugged aluminum housing, this is the perfect thermal stripper for on-the-go use

SPARC™ Fire Fusion Splicers

The Jonard Tools Sparc™ Fusion Splicers ensure impeccable fiber splicing precision, reliability, and efficiency. Engineered for fiber optic professionals, they combine rapid splicing times with cutting-edge features, offering a seamless and dependable splicing experience even in challenging environments. They also offer higher visibility in dark settings, intuitive full touch screens for an enhanced user experience and on-board memory, all housed in a water-resistant rugged design.

ACCESSORIES

Each SPARC™ Fusion Splicer includes:

CWP-125 Cotton Swabs, Pack of 12
FC-SC Cleaver Set Screw
FSP-SC Splicer Set Screw
FDC-66 Fiber Scraps Disposal Can
FSP-ADP-65JH SPARC™ AC Adapter
FSP-ADP-PC SPARC™ Power Cable
FSP-DC Data Transfer USB Cable
FSP-FT Fiber Tray
FSP-FTP Fiber Tray Shoulder Strap
FSP-SFH Splicing Fiber Holder (x2)

FSP-SOC SPARC™ SOC Holder
FSP-STP SPARC™ Shoulder Strap
FW-5 Fiber Wipes, Pack of 5 (x2)
H-2000 SPARC™ Carrying Case
JIC-186 Wire & Kevlar® Cutting Shears
JIC-375 Fiber Optic Stripper, 3 Hole
PSI-15 Quick Sleever®
(SPCO-1 & SPCL-1 only)
TFS-100 Handheld Thermal Stripper
(SPRI-1 only)

SPARC™ Linc Splice On Connectors

Designed for easy fusion splicing these SC/APC Splice On Connectors provide a seamless and low-loss connection for single-mode fiber applications. Engineered for quick installation without compromising performance, they are ideal for FTTH (Fiber to the Home), data centers, and telecommunications networks.

SPARC™ Rapid Linc Mechanical Connectors

These connectors provide a reliable and efficient solution for connectorizing 250 µm and 900 µm coated fibers. These connectors are ideal for quick field installations, offering a simple, tool-free setup that saves time and enhances productivity.

JONARDTOOLS®

Multi-Function OTDR - OTDR-1000

OTDR-1000

Jonard Tools' Mini Pro OTDR is the perfect all-in-one handheld device for evaluating FTTx and access network construction and maintenance, identifying fiber breakpoints, measuring cable length, and calculating relative optical power losses.

- 8 essential functions for fiber optic and network cable testing. Features OTDR mapping to assess termination quality and locate faults, an event map with loss values, optical power meter (OPM) for power measurement, visual fault locator (VFL) for fault detection, optical light source (OLS) for stable wavelengths, network cable length measurement up to 100m, cable tracker for tracing, and RJ45 sequence tester for CAT-5/5E and CAT-6/6E continuity
- Bright 3.5" color LCD screen makes it quick and easy to evaluate data
- Rubberized hard plastic case is shock-proof and drop-proof for maximum durability
- 600 MB internal storage with MicroSD/TF card slot for additional memory
- Built-in rechargeable lithium ion battery provides power on-the-go
- Includes FC, SC, and LC (PC/UPC) OTDR adapters for fiber optic cables

Multi-Function Touchscreen OTDR, 1310/1550 nm, 28/26 dB - OTDR-1100

OTDR-1100

This Professional Multi-Function OTDR is the perfect all-in-one handheld device for evaluating FTTx and access network construction and maintenance, identifying fiber breakpoints, measuring cable length, and calculating relative optical power losses.

- Includes 10 different functions for testing fiber and 3 for testing network cables: Auto OTDR, Expert OTDR, Event Map, ONU Verification, Multicore Test, Downstream XGPON Power Meter, Light Source, Power Meter, VFL, and Microscope modules for fiber and RJ45 Sequence, Cable Length, and Cable Tracing
- Large, bright 4.3" color LCD touch screen makes it quick and easy to evaluate data
- More accurate testing with a 28/26 dB Dynamic Range
- All-inclusive fiber testing functions, such as light source, power meter, and VFL simplify the fiber testing process

Professional Multi-Function OTDR, 1310/1550 nm - OTDR-1500

OTDR-1500

The Jonard Tools Professional Multi-Function OTDR is the perfect all-in-one handheld device for evaluating FTTx and access network construction and maintenance, identifying fiber breakpoints, measuring cable length, and calculating relative optical power losses.

- 5 different functions for testing: 1310/1550 nm OTDR, 1310/1550 nm Light Source, Power Meter, Visual Fault Locator, and Help modules
- Large, bright 7" color LCD touch screen makes it quick and easy to evaluate data
- More accurate testing with a 32/30 dB Dynamic Range
- Features Dual Wavelength Testing (see both 1310 & 1550 wavelengths simultaneously)
- Includes FC/APC & SC/APC OTDR adapters, LC/UPC adapter for OPM

Professional Multi-Function OTDR, 1310/1550/1650 nm - OTDR-1650

OTDR-1650

This Professional Multi-Function OTDR is the perfect all-in-one handheld device for evaluating FTTx and access network construction and maintenance, identifying fiber breakpoints, measuring cable length, and calculating relative optical power losses. It can also be used on live 1310/1550 nm fiber networks using its 1650 nm outerband wavelength.

- Includes 5 different functions for testing: 1310/1550/1650 nm OTDR, 1310/1550/1650 nm Light Source, Power Meter, Visual Fault Locator, and Help modules
- Large, bright 7" color LCD touch screen makes it quick and easy to evaluate data
- More accurate testing with a 36/36/36 dB Dynamic Range
- Features Dual Wavelength Testing (see both 1310 & 1550 wavelengths simultaneously)

Singlemode Fiber Optic Launch Boxes

Designed with unique compact housings and 20-1000 meters of fiber, these launch cables are perfect for eliminating dead zones in reflectometric tests using an OTDR.

- Compact housing and shoulder strap make them ideal for field use
- Available in a variety of connector pairings for versatility (see chart below for details)
- Polishing types are color coded for quick and easy identification
- Convenient magnet on bottom of housing allows quick mounting to fiber racks
- Fiber lengths are optimized for most OTDR testing applications

JONARDTOOLS®

Universal Fiber Connector Cleaner - FCC-300

Featuring **PATENT-PENDING** Slide-Guide™ technology that provides stable and consistent cleaning performance, the **FCC-300** Universal Fiber Connector Cleaner is the perfect tool for cleaning a large variety of fiber connectors.

FCC-300

- Compact, hand-sized unit can be used for over 500 cleanings

Fiber Connector Cleaners

Designed to provide exceptional cleaning performance by cleaning connectors beyond the critical fiber core area and cleaning deep into the contact area of a bulkhead adapter or connectors on fiber optic cables. The tethered dust cap provides protection for the micro fiber cleaning fabric and is an adapter for connector end face cleaning.

- Features a **PATENTED** 360° Rotational Tip for extra wide cleaning
- Slide-Guide™ non-slip micro tape feeder guarantees consistent cleaning
- Dual rotational tip and one-push operation makes cleaning ferrule end-faces quick and easy
- Flip-open cap makes it easy to insert connectors for cleaning

SPECS	FCC-120	FCC-125	FCC-250
DESCRIPTION	Fiber Connector Cleaner MPO	Fiber Connector Cleaner 1.25 mm	Fiber Connector Cleaner 2.5 mm

Fiber End-Face Ferrule Cleaners, Angled Head

Fiber End-Face Ferrule Cleaners are designed to provide exceptional cleaning performance on fiber optic connectors. They clean ferrules in recessed fiber optic adapters or individual connectors. These ferrule cleaning tools feature an adjustable angled head, which is perfect for getting into hard-to-reach places at any angle up to 45°. These tools also feature the following:

- Adjustable angled head (up to 45°) for getting into hard-to-reach places
- Flip-open cap makes it easy to insert connectors for cleaning
- **FCCN-125** cleans 1.25 mm ferrules in recessed fiber optic adapters or individual LC or MU connectors
- **FCCN-250** cleans 2.5 mm ferrules in recessed fiber optic adapters or individual FC, SC, or ST connectors

Slim Fiber Connector Cleaner, MPO 12 Core - FCCS-120

The Jonard Tools **FCCS-120** Slim Fiber Connector Cleaner is designed to provide exceptional cleaning performance for MPO and MTP 8, 12 & 12x2 (24) core fiber connectors. Ideal for use in data centers, telecom rooms, fiber panels, and other high-density fiber environments, this compact cleaner uses ultra-fine microfiber to remove dust, oil, and debris without scratching or damaging the connector endface. Perfect for both plug and port cleaning, especially in tight or hard-to-reach areas.

FCCS-120

FCCS-160 Slim Fiber Connector Cleaner, MPO 16 Core - FCCS-160

The Jonard Tools **FCCS-160** Slim Fiber Connector Cleaner is designed to provide exceptional cleaning performance for MPO and MTP 16 and 16x2 (32) core fiber connectors. Ideal for use in data centers, telecom rooms, fiber panels, and other high-density fiber environments, this compact cleaner uses ultra-fine microfiber to remove dust, oil, and debris without scratching or damaging the connector endface. Perfect for both plug and port cleaning, especially in tight or hard-to-reach areas.

FCCS-160

Slim Fiber Connector Cleaner, 1.25 mm - FCCS-125

Engineered to deliver top-tier cleaning performance in a compact, lightweight design. Effectively removes dust, grease, and debris from 1.25 mm fiber optic connectors over 1200 times.

FCCS-125

- Field optimized design with a slim footprint for easy access in tight spaces, with built-in attachment storage and a strap for secure handling
- ESD-safe housing and cleaning cloth provides more than 1200 swipes per cleaner

Slim Fiber Connector Cleaner, 2.50 mm - FCCS-250

Engineered to deliver top-tier cleaning performance in a compact, lightweight design. Effectively removes dust, grease, and debris from 2.50 mm fiber optic connectors over 1200 times.

FCCS-250

- Field optimized design with a slim footprint for easy access in tight spaces, with built-in attachment storage and a strap for secure handling
- ESD-safe housing and cleaning cloth provides more than 1200 swipes per cleaner
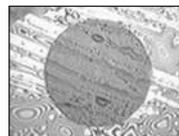

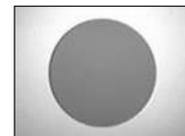

Fiber Inspection Microscopes

Fiber inspection microscopes have a focus wheel and feature 2.5 mm and 1.25 mm adapters for use on most fiber connectors. The achromatic lens offers excellent imaging and integrated laser filters for safety (not intended for use with illuminated fibers). Coaxial illumination provides a clear view of connector face and fiber.

JONARD TOOLS®

Wireless Fiber Inspection Microscope - WFM-100

This portable Wi-Fi end-face probe provides clear high-resolution images of fiber optic connector ferrules in real time on a smart mobile device or tablet.

WFM-100

- Inspects male and female PC/UPC SC, ST, FC, and LC fiber connectors and ports using the 5 included adapters
- One press auto analyze function automatically generates and records a Pass/Fail report
- 200x magnification and high resolution camera provide a crystal clear image directly on your smart device

Includes: Wireless Fiber Scope, 2.5 mm FC/SC/ST Male Adapter, 2.5 mm FC/SC/ST Female Adapter, 1.25 mm LC Male Adapter, 1.25 mm LC Female Adapter, USB-C Cable, Charger, Instruction Manual, and Carrying Case

Wireless Fiber Inspection Microscope w/ APC Adapters - WFM-110

This portable Wi-Fi end-face probe provides clear high-resolution images of fiber optic connector ferrules in real time on a smart mobile device or tablet.

WFM-110

- Inspects male and female APC SC, ST, FC, and LC fiber connectors and ports using the 4 included adapters
- One press auto analyze function automatically generates and records a Pass/Fail report
- 200x magnification and high resolution camera provide a crystal clear image directly on your smart device

Includes: Wireless Fiber Scope, 2.5 mm FC/SC/ST APC Male Adapter, 1.25 mm LC Male APC Adapter, 2.5 mm SC/FC APC Female Adapter, 1.25 mm LC APC Female Adapter, USB-C Cable, Charger, Instruction Manual, and Carrying Case

QuickSleever® - PSI-15

An award winning design to make loading protection sleeves onto fiber quick and easy, the **PSI-15 QuickSleever®** tool is perfect for aligning fiber to the holes of protection sleeves and is a real timesaver.

- Conical fiber feed surface guides fiber directly to protection sleeve

PSI-15

Fluid Dispenser for 220 mL Fiber Cleaning - FD-220

FD-220

Designed to store and dispense cleaning fluids, such as isopropyl alcohol, to clean the end-faces of fiber optic cables.

Fiber Optic Cleaning Fluid - FCF-3

FCF-3

This quick-drying, nonflammable cleaning fluid is perfect for cleaning bare fiber, connector end-faces, and electronic components.

Dry Wipes (Pack of 90) - DW-90

DW-90

Made from a lint-free polyester fabric packaged in a convenient dispenser, these fiber optic wipes are perfect for cleaning bare fiber, connector end-faces, and electronic components.

Fiber Scraps Disposal Can - FDC-66

FDC-66

This can allows safe disposal of cleaved fiber ends. The twist lock cover locks scraps in the disposal can for safe and easy disposal.

Fiber Wipes (Pack of 50) - FW-50

Alcohol Wipes made with premium quality Isopropyl alcohol.

- Excellent cleaner for optical surfaces, glass fibers, and connector end faces
- Fast evaporating, residue-free solvent
- Mild, non-abrasive solvent
- Compatible with most plastics, glass and metals

FW-50

Cotton Swabs (Pack of 125)

Made with lint-free cotton, these cotton swabs are perfect for cleaning dirt, dust, and debris from the V-groove of your fusion splicer. These cotton swabs are available with pointed or rounded tips.

- Perfect for cleaning fusion splicers' or other test devices' optical elements
- Lint-free to prevent contamination of optical components

CWP-125 - Pointed Tips (Pack of 125)
CWR-125 - Rounded Tips (Pack of 125)

CWP-125

CWR-125

Fiber Cleaning Kit - TK-283

The Jonard Tools **TK-283** Fiber Cleaning Kit provides all the tools needed for cleaning fiber connector end faces. This kit is a must have for any fiber optic technician.

TK-283

Kit includes:
- **DW-90** Dry Wipes for Cleaning Fiber
- **FCF-3** Nonflammable Fiber Cleaning Fluid
- **H-20** Rugged Carrying Case
- **JIC-186** Wire & Kevlar® Cutting Shears
- **JIC-375** Fiber Optic Stripper, Three Hole

Fusion Splicer Cleaning Kit - TK-285

This kit is the perfect kit for removing the dust, dirt, debris, and silica deposits generated by fusion splicers from V-grooves.

TK-285

Kit includes:
- **CWP-125 & CWR-125** Pointed & Rounded Cotton Swabs, Pack of 125
- **DW-90** Dry Wipes for Cleaning Fiber
- **EYE-369** Fiber Optic Eyeloop, X3, X6, X9 Magnification
- **FCF-3** Nonflammable Fiber Cleaning Fluid
- **FL-2000** LED Flashlight with Zoom Lens
- **H-20** Rugged Carrying Case
- **VGB-100** V-Groove Cleaning Brush, Metal & Nylon

Fiber Optic Cleaning Kit+ - TK-287

The **TK-287** Fiber Optic Connector Cleaning Kit+ offers cleaning products for use on connector end-faces and bulkhead adapters.

TK-287

Kit includes:
- **DW-90** Dry Wipes for Cleaning Fiber
- **FCC-120** Fiber Connector Cleaner, MPO
- **FCC-125** Fiber Connector Cleaner, 1.25 mm
- **FCC-250** Fiber Connector Cleaner, 2.5 mm
- **FCC-300** Universal Fiber Connector Cleaner
- **FCF-3** Nonflammable Fiber Cleaning Fluid
- **H-20** Rugged Carrying Case

Fiber Optic Prep & Clean Training Kit - TK-615

Featuring our most popular fiber optic tools, this tool kit provides a large array of tools needed to access and prepare fiber optic cables for termination.

TK-615

Kit includes:
- **BLONGNOSE** Long Nose General Use Pliers
- **BTR-6** Buffer Tube Ringer (up to 6 mm)
- **CST-1900** Round Cable Strip & Ring Tool
- **DW-90** Dry Wipes for Cleaning Fiber
- **FCF-3** Nonflammable Fiber Cleaning Fluid
- **FDC-66** Fiber Scraps Disposal Can
- **FIM-200** Fiber Inspection Microscope 200x Magnification
- **FTW-5** Fiber Optic Tweezers, 5"
- **FWM-2214** Fiber Optic Polishing Work Mat, 22" x 14"
- **H-60** Molded 2 Pocket Tool Pouch
- **H-90** Rugged 21 Pocket Tool Case
- **JIC-375** Fiber Optic Stripper, Three Hole
- **JIC-186** Wire & Kevlar® Cutting Shears
- **KN-7** Ergonomic Cable Splicing Knife
- **MDC-28** Microduct Cutter
- **VFL-150** Visual Fault Locator Kit

Fiber Optic Training Box - FTB-1

The **FTB-1** is a compact and practical tool designed to help fiber optic technicians gain hands-on experience with real-world scenarios. It features built-in loss events, including a macrobend and a damaged fiber optic cable, to simulate common issues in the field. With a 1 km fiber link containing a mid-point fault, technicians can practice OTDR setup, testing, and troubleshooting. The additional fiber spools allow for fusion splicing exercises and loss testing to develop essential fiber optic skills.

FTB-1

Kit includes:
- Cleave and splice fiber optic cables using a cleaver and fusion splicer
- Inspect and clean connectors and bulkheads with a video inspection probe and cleaning tools
- Identify fiber faults efficiently with a visual fault locator
- Measure fiber loss accurately with optical power meters and light sources
- Operate an OTDR in Auto or Manual modes to measure fiber length and loss
- Encased in a durable and compact case for easy storage and transportation

CATV/COAX TOOLS

CATV is short for Community Antenna Television, now known as Cable TV, which is transmitted via coaxial cables (COAX). COAX cables transmit radio frequency signals using an electromagnetic field carried through the tubular cable. These cables consist of an inner conductor, insulation, conducting shield, and outer sheath jacket. The spacing within the cables must be consistent in order to transmit the signals, and our tools ensure proper methods that will not damage these cables in any way.

UST-125 – COAX STRIPPING TOOL FOR RG59, RG6, RG7, RG11 CABLES WITH CABLE STOP. PG. 56

UST-100 SERIES

UST-500 SERIES

COAX Stripping Tools

The UST Series creates a two step strip on a multitude of cables (and the **UST-175** provides a three step strip). These tools include a Velcro® strip for folding back the braided shield of the cable. Blade cartridges are interchangeable and last over 5,000 strips.

COAX Stub End Strippers

The CSS Series tools are coaxial cable strippers specifically designed to strip a stub end of a COAX cable in a wall outlet box, which eliminates the need to run new cable, saving time and money. Each CSS tool provides a two step strip of an RG59/6 cable to a specific braid length and center conductor length (shown in the chart below). The built-in strip stop ensures the strip lengths are consistent.

Easy to use:
Squeeze handles to open jaws and insert cable, release to close jaws, rotate like a screwdriver and remove. Tool will not cut the braid or score the center conductor.

Blade cartridges are easily changed and replaced.

COAX Cable Kit - TKRG-64

The Jonard Tools **TK-RG64** Complete COAX Cable Kit provides an array of tools needed to access and prepare coaxial cables for termination.

TKRG-64

Kit includes:
- **CAT-16** Cable Cutter is perfect for cutting COAX and twisted pair network cables quickly and easily
- **CST-92** Coaxial Cable Stripper for stripping RG59, RG6, RG6 Tri & Quad shield, N48, RG7, and RG11
- **CTF-180M** Compression Tool compresses long F connectors for RG59 and RG6 COAX cables
- **RG6-10** Universal F Connectors for coaxial cable termination (Pack of 10)

Compression Tools

Many different fittings are used to terminate RG6 and RG59 COAX cables. Jonard offers compression tools to work with all types of (BNC, PPC, Beldon, and more). See jonard.com for a list of all compatible connectors.

CT-200 - Universal Compression Tool designed for use on most F connectors (RG59, RG6, & RG11), BNC connectors (RG59 & RG6) and RCA connectors (RG59 & RG6).

CTF-200 - Compression tool with a fixed design for use on the longer style F connectors (such as PPC® EXXLWS Aquatight connector, EX-XL and other similar length connectors).

CTF-200CG - Compression tool with a fixed design for use on Corning Gilbert connectors. Tool also works with brands such as PPC & Thomas Betts.

CTF-230 - This dual compression tool is two tools in one, combing the features of the **CTF-200** and the **CTF-300**. It is designed for use on either short or long F connectors (such as PPC EX6 and PPC EX6XL), and also works on most RG11 connectors. The green ring side of the plunger is for the "short" PPC EX6 style.

CTF-300 - Compression tool with a fixed design for use on the shorter style F connectors (such as PPC Aquatight Connector EX or shorter connectors and other similar length connectors).

CTF-360XL - Designed to hold and compress connectors requiring a full 360 degree support. Perfect tool for long F connectors for RG59/6 cables and for RG7/11 cables.

360° Compression Tool - RG59 and RG6 Connectors - CTF-180

The Jonard Tools 360° Compression Tool is designed for use on both short and long style F connectors. The tool is ideal for installing CATV network cables.

Compatible Connectors: PCT or other brand short and long style F connectors

CTF-180

360° Compression Tool for Short RG6 & RG11 Style F Connectors - CTF-360

Using specially designed jaws to hold connectors in place while compressing, this **PATENTED CTF-360** is designed to hold and compress connectors requiring a full 360° support. Perfect tool for short F connectors for RG59/6 cables and F connectors for RG7/11 cables.

CTF-360

Web Slitter & Shaving Tool - WSS-4625

Designed to slit and shave the webbing off messengered hardline COAX cables and figure 8 fiber cables, the Jonard Tools **WSS-4625** Web Slitter and Shaver is the perfect tool for working with aerial messenger cables ranging from 0.400" to 0.625" in diameter.

Replacement Blade Cartridge: **WSS-4625RB**

WSS-4625

COAX Cable Gripping Tool - CG-100

Designed to grip RG59, RG6, RG7, and RG11 cables, this COAX cable gripping tool facilitates the stripping, slitting, splicing, and other functions of coaxial cables.

CG-100

- Soft rubber material conforms to the shape of the cable to grip it tightly
- Compact shape and belt loop hole make it convenient for storage and transport

RG6 Connectors

Designed for RG6/6 Quad COAX cable for quick and easy termination of cables for satellite, cable TV, and cable modems. These connectors have a large hex nut for quick and easy install and a 360° cable gripping sleeve and watertight "O-ring" to keep connections secure.

RG6-10 Connectors (Pack of 10)
RG6-50 Connectors (Pack of 50)

RG6-10

RG6-50

BNC Connectors

Designed for use with most major brands of RG6 cable, these BNC connectors are perfect for terminating cables for CCTV or other video applications quickly and easily.

CLOSE-UP OF ANGLED HEAD

Torque Wrenches

The full head Torque Wrenches behave like traditional open end wrenches. These wrenches help prevent over tightening. An audible click tells you the F connector has been torqued to the proper torque requirement.

These wrenches all have angled heads, sized for 1/2", 7/16", 9/16", 11 mm, 22 mm applications, and are designed with an ergonomic cushioned handle for user comfort and protection. These wrenches work in tightening mode only.

Note: Speed Head wrenches are designed to act like a ratcheting wrench, skipping over corners of nuts/bolts (allowing for continuous turning).

TTCG-6270-9 Locking Terminator Tool 9"

TTCG-6270-5

TTCG-6270-9

Trap & Security Combo Tool - TTS-716

Two tools in one, the **TTS-716** combines a trap wrench with a security sleeve tool to make it the perfect combo tool for all standard traps and all sizes of security sleeves. This combo tool features:

- Security wrench fits all metal 7/16" hex "F" fittings
- 2 prong termination style

TTS-716

Terminator Tool for PPLT-75 & PPLT-LR - TT-PPLTT4

This terminator tool is designed for use with PPLT Series locking terminators, specifically the **PPLT-75** and **PPLT-LR**. Specially designed to overcome problems of theft and tool breakage. Ideal 0.218" plunger diameter is sized to accommodate PPLT locking terminators. Aluminum body for high strength and durability and belt loop included for convenience.

TT-PPLTT4

Barrel Lock Plunger Key - TTB-6

The Jonard Tools **TTB-6** Barrel Lock Plunger Key is designed to unlock Channell LK03029817 and Highfield 93180775-S CATV barrel locks quickly and easily. It only works with these 2 types of locks with inside diameters from 0.176" to 0.196".

This key may also fit other locks used in the electric, gas and water utilities. **Know your lock size before purchasing**.

TTB-6

Barrel Lock Plunger Key Size #6 - TTBW-158

Specifically designed to unlock Highfield 93180128 and 93180124 locks, this #6 key is able to unlock utility box locks with inside diameters of 0.158".

TTBW-158

- Made from High Carbon alloy steel for heavy-duty use
- Smooth plunger operation and heavy-duty spring designed for high strength and durability

Outer Conductor Flaring Tool - FT-2075

The Jonard Tools **FT-2075** Outer Conductor Flaring Tool is specially designed to flare outer conductors on Eupen 7168, A7168, and CommScope CA519 75 Ohm corrugated copper cable.

FT-2075

- Ergonomic screwdriver-like handle for more comfortable gripping and easier flaring
- Made of high carbon steel with a black oxide finish for maximum durability

Flaring & Insertion Tool - FT-6

The Jonard Tools **FT-6** Flaring & Insertion Tool is designed to facilitate the expansion of the cable jacket. This flaring tool spreads the COAX cable jacket, which allows easy insertion of F connectors.

FT-6

- Perfect for use on polyethylene jacketed, plenum, tri-shield, and quad-shield RG6 cables

Crimper with COAX Die - UC-8012

Designed for use with RG-59/RG-6 CATV crimp type F connectors, this crimper is the perfect tool for crimping COAX connector collars.

UC-8012

Kit includes:
UC-8000 Universal Crimper Without Die
UCD-2045 COAX Crimping Die

Star Keys & Star Key Slam Lock Sets

The **SSK-716** can wrench is specifically designed to work with all of our SSK Series Keys. The **SSK-716** can wrench has two 7/16" hex sockets 1-1/2" deep on either end and can be used to open enclosures that require a 7/16" socket.

The **SKF-800** is a fixed star key can wrench is a double-sided star key can wrench, fixed with an LG pattern on one side and an LB pattern on the other. It is perfect for opening outdoor pedestals whose locks have LB or LG patterns.

P Key For Self Lock Pedestal Lock - TTK-225

The Jonard Tools P Key (also known as a skeleton key) is designed to work with Channell locks and other similar pedestal locks. It can be used on many popular pedestals and opens most heavy duty spring-lock cabinets.

- Made of high quality brass for increased durability

TTK-225

Pocket Continuity Tester & Toner - PT-100

Designed to identify cables in an MDU and detect troublesome short circuits, this pocket continuity tester and toner is perfect for testing cables up to 5,000 ft (1,500 m) on the go.

Replacement Speaker for Pocket Toner: **PT-350** Piezo Speaker

PT-100

Pocket Continuity Tester & Toner w/ Voltage Protection - PT-300

Designed to identify cables in an MDU and detect troublesome short circuits, this pocket continuity tester and toner is perfect for testing cables up to 5,000 ft (1,500 m) on the go. Features manual ON/OFF switch & voltage protected up to 52V.

Replacement Speaker for Pocket Toner: **PT-350** Piezo Speaker

ON/OFF SWITCH

PT-300

Cable Mapper Pro - CM-100

Designed for finding and identifying up to 8 COAX and network cables in main cable boxes, this cable mapper and toner is the perfect tool for use on cables for CATV, network installations, satellite installations, telephone systems, audio-video equipment, CCTV, and security & alarm installations.

Kit includes:
Cable Mapper/Tester/Toner, 8 COAX Identifiers, 8 Network Cable Identifiers, 2 Data Patch Cords, Coax Patch Cord, Network Cable Remote, Rugged Nylon Case, 2 AA Batteries, and an Instruction Sheet

CM-100

Modular Cable Tester for RJ45, RJ12, RJ11 Cables - MCT-468

Designed to test the continuity of RJ45, RJ12, and RJ11 connectorized cables, this cable tester checks and troubleshoots pin connections in network and telecom cables. This modular cable tester features the following:

- Tests for opens, shorts, and miswiring of RJ45, RJ12, and RJ11 terminated cables
- Full LED indication lights on both main and remote unit
- Automatically starts testing when switched on
- Can slow down testing procedure using "S" switch to better see each test
- Includes nylon carrying case and (1) 9V battery

MCT-468

Cable Tester Tone & Probe Kit+ w/ ABN - TETP-901

Designed to identify, trace, and test the continuity of BNC & F connectorized COAX cables, network cables using RJ45 connectors, and telephone lines using 6P2C/4P2C plugs. This multi-function cable tester tone and probe kit is the perfect kit for any Voice Data Video (VDV) professional.

TETP-901

Kit includes:

TEP-200 Tone Tracing Probe+
- Remote terminator can be used to test network cables with ease
- Provides tone via RJ45 and BNC connectors or test clips

TET-700BC Cable Tester & Toner+ w/ ABN
- Plastic probe tip prevents accidental shorts
- LED light provides a visual indication of signal strength

TET-6 Accessory Kit for Cable Testers & Toners+

TETP-700BC – CABLE TESTER & TONER+ WITH ABN, PG. 71

Compact BNC Connector Tool - RBNC-3

Designed to provide easy access to BNC connectors, this 2.25" BNC Connector Tool is perfect for installing or removing BNC connectors in high-density locations. This tool features the following:

- Compact design allows you to reach connectors in hard-to-reach places
- Knurled handle provides a secure grip while using the tool
- Steel loop can easily attach to a carabiner or key ring

RBNC-3
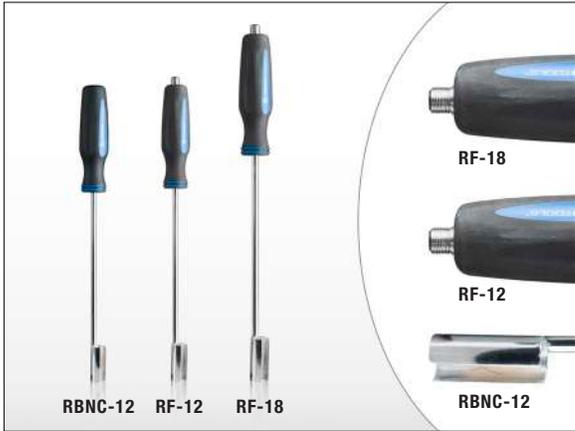

Connector Tools

The **RBNC-12** is designed to install or remove BNC connectors in high density locations. The **RF-12** and **RF-18** perform the same function but for F connectors and feature an insertion device on the back of the handle to aid in making connections.

- Ergonomically designed handle provides increased comfort and leverage
- Made from high-quality materials for maximum durability and long life

RBNC-12 - 12" long
RF-12 - 12" long
RF-18 - 18" long

Extra Force F Connector Tool, 12" - RFX-12

Designed with a nut on the base of the handle and a short head with a heavy duty weld, this 12" F Connector Tool is perfect for installing or removing rusted or corroded F connectors in high-density locations.

- Short head design allows it to grasp connectors in high density locations where cables may be twisted or bent

RFX-12

Security Shield Tools

- **SST-716** Security Shield Tool 7/16" & **SST-716AT** Security ShieldTool Water Tight are used with 7/16" hex shielded F connectors. Design includes extended 7/16" shank for ease of use with Torque Wrenches in security shield applications. Black oxide finish. Knurled handle for secure gripping and includes a steel loop for turning leverage and carrying.

- **SST-916** is designed to be used on 9/16" hex shielded F connectors (RG11), this security shield tool is perfect for use with torque wrenches to lock security shields onto connectors. Knurled handle for secure gripping. Steel loop included for better leverage and easy storage. Shaft length 1.625".

Low Torque Termination Tool - TT-812

Designed to tighten F connectors, this **PATENTED** indoor torque tool is perfect for connecting COAX connectors to consumer electronic devices with the proper amount of torque every time.

- Small and compact for getting into tight spaces: 1-3/8" tall and 7/8" diameter
- Helps prevent signal loss, ingress / egress

TT-812

CABLE INSTALLATION

Adjustable Round Hole Cutter, 2.2"-10" - AHC-10

AHC-10

The Jonard Tools **AHC-10** adjustable hole cutter is designed for cutting round holes in ceilings, walls, and floors and is the perfect tool for installing recessed speakers, lighting, or other round objects.

- Can be used with any variable-speed drill
- Includes rugged carry case

Replacement Blades (Pack of 2): **AHC-10RB**

Adjustable Round Hole Cutter w/ Vacuum Port, 2.2" - 8.6" - AHC-19

AHC-19

Designed for cutting round holes in ceilings, walls, and floors without making a mess, the **AHC-19** is the perfect tool for installing recessed speakers, lighting, or other round objects. This adjustable hole cutter features the following:

- Can be hooked up to vacuums, with 2.5" (63.5 mm) diameter hose nozzles, to suck up debris as you go
- Cuts plywood, sheetrock, plasterboard, and acrylic sheet up to 1-1/16" (27 mm) thick
- Cutting depth is adjustable via hex locknut and compression spring
- Cuts hole sizes from 2.2" to 8.6" (56 mm to 218.44 mm) in diameter
- Polycarbonate transparent dust shield collects dust and prevents chips from flying into eyes while cutting
- Rubber gasket provides surface protection against damage, tight seal against flat surfaces, and prevents fallout from debris
- Compression spring absorbs vibrations while cutting
- Can be used with any variable-speed drill
- Power drill and vacuum not included with hole cutter

Includes: 1 Cover, 1 Adjustable Hole Cutter, 1 Vacuum Port, 1 Cap, 1 Nut, 1 Set of Replacement Blades, 1 Hex Key, and a Rugged Carry Case

Replacement Blades (Pack of 2): **AHC-19RB**

Telescoping Poles

Designed to provide more control and accuracy than the competitors, these telescoping poles are perfect for installing or retrieving cables in drop ceilings or other hard to reach places. Includes: C & K hooks (to help grab/push cables), adapter (to replace the platform for navigating tight spaces), and small carrying pouch.

RDT-12K Length: 12'   **RDT-18K** Length: 18'   Accessory Replacement Kit for RDT-18K: **RDT-3RH**

RDT-12K   **RDT-18K**

WiSpy® - Multipurpose Wireless Inspection Camera and Cable Pulling Tool - CF-200

The WiSpy® professional and durable inspection camera is ideal for any hard-to-see inspections.

CF-200

Kit includes:
- **CFP-60V** FreeTelescoping Pole
- **CWB-11** Free Cell Phone Wrist Band
- 8 Adapters & USB Charger, Gooseneck and Rigid Fishing Extenders, Hook & Magnet, Spare O-rings
- Protective EVA Carrying Case and Instruction Manual

Telescoping Pole, 5' - CFP-60

Designed to extend a full 5 feet (1.52 meters) while providing exceptional control and accuracy, this telescoping pole is perfect for holding the **CF-200** camera or installing and retrieving cables in drop ceilings or other hard to reach places.

CFP-60

- Made from aluminum for maximum rigidity and light weight

Magtime™ Magnetic Cable Holders
MF-25/10 (Pack of 10) & MF-25/25 (Pack of 25)

Made of neodymium (a rare earth magnet), these cable holders quickly and easily allow the technician to install cables without any drilling, screwing or nailing required. These powerful magnets can hold a substantial number of cables based on the size chosen. Hang wires in high places from the ground using a telescopic pole with the cable pole adapter.

MF-25/10

MF-25/25
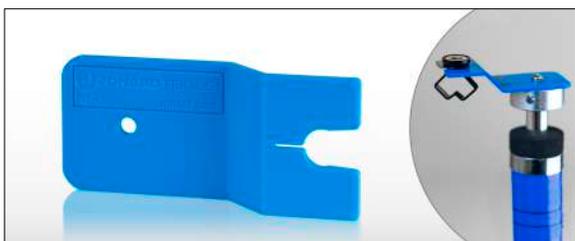

Magtime™ Cable Pole Bracket - MF-45

The **MF-45** is the **RDT-18K** Telescopic Pole adapter to be used with the MAGTIME series of magnetic cable holders to place in locations typically requiring a ladder or other lifting device. The **MF-45** is made from Tough ABS plastic and is flexible to allow for ease of use and rugged enough to withstand accidentally being dropped from heights over 10'.

MF-45

Pulley for Low Voltage Electrical, Network, and COAX Cables (Pack of 2) - CP-475

The **CP-475** is a set of two cable pulleys designed to help install electrical, COAX, network, and other various low voltage cables. With their swivel snap hooks, deep grooves, and anti-friction bearings, these pulleys keeps cables aligned with the direction of the pull, preventing snags and kinks.

CP-475

- Holds up to 20 CAT5/6 network cables
- Swivel snap hook installs easily and keeps pulley aligned with direction of pull to prevent kinks

Cable Comb® Cable Organizing Tool - CCB-25

Neatly bundle your cables! Jonard Tools' Cable Comb® Cable Organizing Tool substantially reduces the amount of time it takes to straighten, organize, and lash multiple cables together with ease.

CCB-25

- Compatible with any cables or wires up to 1/4" (6.35 mm) in diameter, such as: Coaxial (not RG6 Quad), Plenum, Control, CAT5/5E/6 Network, Speaker, and Alarm Cables and Wires
- Holds up to 24 cables (0.25" in diameter)
- Unique design allows individual cables to be loaded into the orange inner hub at any point during use without the need to find and thread the cable ends
- Cables can also be removed at any point during use by sliding the blue outer collar back and removing them through the large opening of the collar

Cable Comb® Cable Organizing Tool CAT6A/CAT7 - CCB-34

Neatly bundle your cables! Jonard Tools' Cable Comb® Cable Organizing Tool Set substantially reduces the amount of time it takes to straighten, organize, and lash multiple cables together with ease. This Cable Comb® also features the following:

CCB-34

- Holds up to 24 CAT6A, CAT7, or other similar sized cables
- Compatible with any cables or wires up to 0.36" (9.14 mm) in diameter, such as: Coaxial (not RG6 Quad), Plenum, Control, CAT5/5E/6/6A/7 Network, Speaker, and Alarm Cables and Wires
- Unique design allows individual cables to be loaded into the green inner hub at any point during use without the need to find and thread the cable ends

Cable Comb® Cable Organizing Tool Set - CCB-2534

Neatly bundle your cables! Jonard Tools' Cable Comb® Cable Organizing Tool Set substantially reduces the amount of time it takes to straighten, organize, and lash multiple cables together with ease.

CCB-2534

- Holds up to 24 cables
- Unique design allows individual cables to be loaded into the orange/green inner hub at any point during use without the need to find and thread the cable ends

Set includes:
CCBR-5 Cable Comb® Outer Ring (Blue)
CCBH-25 Cable Comb® Inner Hub (Orange)
CCBH-34 Cable Comb® Inner Hub (Green)

Hook and Loop Cable Tie Strap, 8" x 1/2" (Pack of 100) - CTS-812/100

CTS-812/100

Secure your cable bundles with ease using Jonard Tools Hook and Loop Cable Straps! Aperfect solution for keeping your cables organized and tidy.

- 8" length by 1/2" width is the ideal size for a variety of applications
- Crafted from thick high-quality plastic material, these straps are designed to withstand daily use and provide long-lasting durability
- Hook and loop design allows for easy adjustment and reusability, making it simple to add or remove cables from your bundles as needed
- Simply wrap the strap around your cable bundle and fasten it securely with the hook and loop closure. No tools required!

Cable Funnel Drop Ceiling Protector - CPF-215

CPF-215

Designed to prevent the snaring or snagging of cables in drop ceilings, this tool is perfect for protecting cables and ceiling grids while pulling cable. This tool also features the following:

- Protects any type of cable from being damaged while being pulled through a drop ceiling
- Prevents ceilings from being twisted or marred while cable is pulled
- Made from a smooth plastic material to minimize friction and make cable pulling easy
- Side slit and removal fin make removal quick and easy
- Works with standard 1" ceiling grids

Fish Tapes

Designed for easier payout and rewind, these Fish Tapes Reels are perfect for pulling wire or cables through conduit, walls, or under carpets.

SPECS	FTS-50	FTS-240
DESCRIPTION	Fish Tape, 50 Feet	Fish Tape, 240 Feet
DIMENSIONS	1/8" (3.2 mm) wide x 1/16" (1.6 mm) thick x 50 feet (15.2 m)	1/8" (3.2 mm) wide x 1/16" (1.6 mm) thick x 240 feet (73.2 m)

Fiberglass Fish Tape Rodders - FTF-1125 & FTF-1150

FTF-1125

FTF-1150

The **FTF-1125** & **FTF-1150** have been designed to be the ultimate non-conductive fish tape dispensers and winders. With a built-in handle, fastening and anchoring system, center compartment, and two furling systems, these fish tape systems are perfect for pulling wire or cables through conduit, walls, or under carpets.

- Tape is made from a non-conductive nylon-coated fiberglass rod for ultimate flexibility and durability
- Cases are made from a high impact plastic material for durability

Each includes: Reel, 100-150 ft Fiberglass Fish Tape, Standard Flexible Head, Super Flexible Head, Rolling Flexible Head, Single Pulling Loop, (2) Standard Pulling Eyelets, Wide Puling Eyelet, Female-Female Join Adapter, and (2) Screw Terminals

Coated Fiberglass Rodder, 3/16" x 300' - ROD-3316

Lightweight and portable, this rodder unit is perfect for running conduit cable or wire through or along conduit drops as well as home drops from the hand-hole box to a building.

ROD-3316

- Lightweight and compact design for easy transport
- Made with a non-conductive fiberglass core with a yellow nylon coating for high visibility and flexibility
- Nylon coating on rod resists harsh environments and provides a low friction surface for easier pulling either horizontally or vertically
- Drag brake for controlling pay out speed and triangular stand for stability
- Compatible with any conduit 3/4" or larger
- Includes: **ROD-3316AK** – Accessory Kit
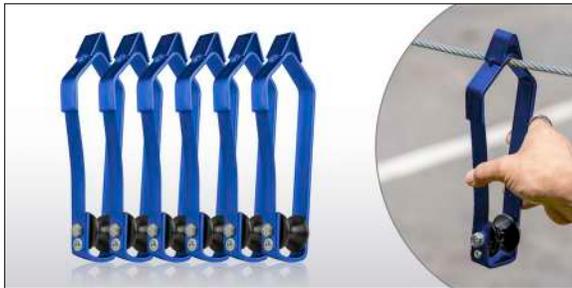

Cable Roller for Cables up to 1" Diameter (Pack of 6) - CR-150/6

Designed to work on cables up to 1" diameter. The **CR-150/6** is simple and easy to use for pulling cable in overlash construction.

CR-150/6

- Rugged design and built to last
- Supports cables up to 1" in diameter including fiber optic cable
- Cable roller design helps prevent snagging and catching
- Snaps over strand cable to install quick and easy for overlash construction
- Cable roller made from durable nylon plastic

Dual Cable Roller for Cables up to 1" Diameter (Pack of 4) - CR-210/4

Designed to work with two cables up to 1" diameter each. The **CR-210/4** is simple and easy to use for pulling cable in overlash construction.

CR-210/4

- Supports cables up to 1" in diameter including fiber optic cable
- Cable roller design helps prevent snagging and catching
- Snaps over strand cable to install quick and easy for overlash construction
- Roller made from durable nylon plastic
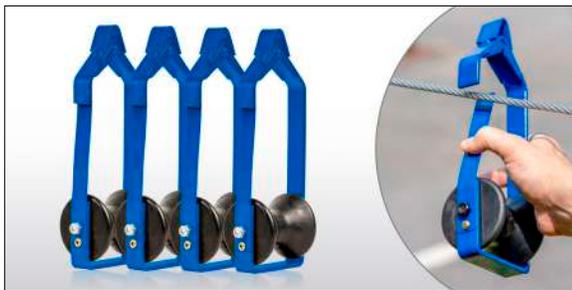

Cable Roller for Cables up to 3" Diameter (Pack of 4) - CR-300/4

Designed to work on cables up to 3" diameter. The **CR-300/4** is simple and easy to use for pulling cable in overlash construction.

CR-300/4

- Rugged design and built to last
- Supports cables up to 3" in diameter including fiber optic cable
- Cable roller design helps prevent snagging and catching
- Snaps over strand cable to install quick and easy for overlash construction
- Roller made from durable nylon plastic

Heavy Duty Spring Roll™ Cable Roller - CR-399

The Jonard Tools' Spring Roll™ Cable Roller is engineered for efficient cable pulling, securely holding cables up to 3" in diameter. Its spring-loading design, compatible with layup sticks, allows for quick slap-on installation and easy snap-off removal, making cable handling fast and convenient. Built for durability with a high-visibility design, the Spring Roll™ Cable Roller is ideal for telecommunications and electrical applications, simplifying both setup and breakdown in demanding environments.

CR-399

Electrical Knockout Kit - WBK-100

The Jonard Tools **WBK-100** Electrical Panel Knockout Kit is designed to open knockouts from electrical panels without damaging the panel or cutting holes in the drywall quickly and easily.

WBK-100

Kit includes:
(1) panel buddy and (1) modified screwdriver

HDMI Cable Tester - HDMI-100

Designed to test HDMI and Mini HDMI cables with ease, this HDMI Cable Tester is the perfect tool for evaluating HDMI cables that may have shorts, open circuits, or have wire pairs in the wrong order. This HDMI tester features the following:

HDMI-100

- Perfect for use on 1.2V, 1.3V, 1.4V, 2.0V HDMI or Mini HDMI cables
- Scan mode allows you to see each individual connection being tested
- Full Display mode shows all of the tested connections at once
- Remote can be detached from the main unit, allowing you to quickly and easily test HDMI cables that are installed or very long
- Auto-shutdown function after 10 minutes helps preserve battery life
- Includes (1) 9V battery required for operation

Heavy Duty Cable Tie Gun, 3/16" - CTG-1000

Designed with an all metal construction, this cable tie gun is perfect for cutting standard and heavy-duty cable ties flush, preventing sharp edges from occurring. This cable tie gun also features the following:

CTG-1000

- Cuts cable ties and zip ties up to 3/16" (4.76 mm) wide flush to the surface
- Tension adjustment knob with 4 tension levels (0-3) to prevent excess tightening on cables
- Automatically flush cuts cable ties when the set tension is reached
- Made from precision engineered parts for smooth operation
- Ergonomic handle design makes it comfortable and easy to use

Cable Tie Holder, 1.5" - CTH-15

Designed to hold zip ties and cable ties, this cable tie holder is perfect for quickly fastening bundles of cables while keeping them within reach. This cable tie holder also features the following:

CTH-15

- Spring-loaded design automatically bundles cable ties tightly, keeping them neat and organized
- Included carabiner makes this easy to attach to a belt or keyring
- Plastic material is glow-in-the-dark to be able to see it in dark spaces
- Rubber ring prevents zip ties from slipping or falling out
- Large 1.50" opening holds plastic zip ties, heavy-duty, metal zip ties, and other cable ties ranging from 4" to 24" (10 cm to 61 cm) in length

MAGNETRIEVER®

Kits include:
24" or 36" Flexible Magnetic Retriever
MRS-BC10 12' Ball Chain with 3/4" Stop Ring
MRS-RH20 Expandable Retriever Hook
Eyelet Retriever (**MRS-36** only)
Storage Pouch

MagneTriever® - MRS-24

The **MRS-24** - MagneTriever® is the ideal tool to effortlessly fish wires through walls.

MRS-24

MagneTriever® Pro - MRS-36

The **MRS-36** - MagneTriever® Pro is the professional tool to effortlessly fish wires through walls using its 36" magnetic retriever, bullet nose, and reinforced 12' ball chain.

MRS-36

Magnamole Magnetic Cable Guide Kit - MM-800

Quickly threads wire and cable through cavity walls and void spaces. Threads at an angle and safely through other wire and cable obstacles. Saves time, saves money, and sharply reduces the risk of accidents.

MM-800

Kit includes:
1 Magnetic Rod (17"), 2 Magnetic Extensions (14"), 5 Magnetic Caps, Storage Pouch

4 Piece Glow Rod Attachment Replacement Kit+ - RDG-RP4A

This product is the attachment head replacement kit for the **RDG-15A** and **RDG-30A** Glow Rod Kits.

Kit contains: Ball Chain, Eyelet, Hook, and **RDG-FLW** WhiskLite®

RDG-RP4A

WhiskLight® - RDG-FLW

Designed to illuminate dark areas and guide glow rods through acoustical ceilings or crawl spaces, the WhiskLight® is the perfect flashlight or whisk attachment head for glow rods and fish sticks.

- Holes in the whisk allow you to attach wires and cables easily
- Super-bright LED illuminates dark areas for greater visibility

RDG-FLW

Reference Point Locator - MP-800

Designed with a precise signal transmitter and locator, this Reference Point Locator pinpoints the exact location to drill or cut through a wall, so no more guesswork.

MP-800

Kit includes:
Transmitter, Receiver, 2 9V Batteries, Tack Adhesive, Instruction Sheet, Carrying Case

Steel Cable Caddies

Made of 7/8" (22 mm) diameter tubular steel, these sturdy cable caddies facilitate the transportation and storage of spooled products in a wide range of spool sizes and feature the following:

- Folding mechanism for easy storage
- Sturdy steel construction with dual leg chains for increased stability and longer life
- Portable and compact design to make it easy to store and move around job sites
- Able to hold cable reels weighing up to 100 lb (45.4 kg)
- Easy setup by just placing cable caddy on the floor, removing the cotter pin, and loading the reel
- Slip-resistant rubber feet to prevent the caddy from slipping while also protecting floors from damage

Cable Caddy Hand Truck - CCHT-166

CCHT-166

The Jonard Tools **CCHT-166** Cable Caddy keeps cable spools organized and easily accessible on a portable hand truck. This caddy facilitates the transportation and storage of different spooled products. This cable caddy also features the following:

- 43" height is perfect for manuevering cable reels without needing to bend
- Extendable handle allows the caddy to lay down for horizontal cable pulling capabilities
- Large rugged 7" wheels provide grip on a variety of different surfaces
- Constructed from 1" diameter steel tubes to support cable reels up to 300 lb (136 kg)
- Includes 6 removable rods to hold different numbers and different sizes of cable reels

Cable Reel Dispenser, 10" Diameter - CRD-10

Designed to hold cable and wire reels up to 700 lb (318 kg), this cable reel dispenser is perfect for winding or unwinding cables from small- to mid-sized cable reels.

CRD-10

- Unique tabs of the cable drum allow it to be mounted to a cable reel via screws
- Compact and portable design makes it easy to store and move around job sites
- Center rods for holding cable reels can be stored underneath the dispenser, making it even more compact and portable
- Holds any diameter cable reels up to 700 lb (318 kg), even if the reels are broken themselves
- Rubber feet provide a non-slip and secure grip while winding or unwinding cables
- Large lip around the drum prevents cables from getting stuck or snared

Low Voltage Electrical Box Cutter, Single Gang - EBC-363

The Jonard Tools **EBC-363** Low Voltage Electrical Wall Box Cutter is designed for cutting a precision hole for low voltage single gang boxes in drywall. This electrical wall box cutter features the following:

EBC-363

- Easily cuts drywall in just seconds to make installation of low voltage mounting brackets quick and easy
- Needs to be used with an oscillating multi-tool (sold separately)
- Made of stamped steel for high durability and long life
- Cuts a rectangular hole with dimensions 2-1/4" wide x 3-5/8" high
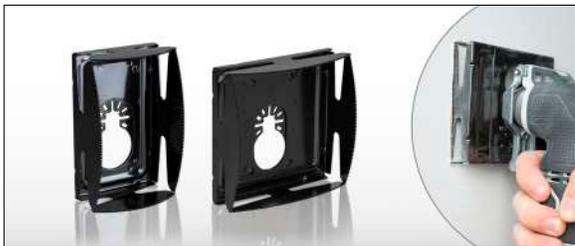

Electrical Wall Box Cutters

Cuts drywall in seconds making installation of electrical boxes fast and easy. The **EBC-400** cuts a 2-3/8" x 3-3/4" hole for single gang boxes and the **EBC-800** cuts a 4" x 3-3/4" hole for double gang boxes.

EBC-400

Available Kits:
- **EBW-412** kit includes the **WTL-12** and **EBC-400**
- **EBW-812** kit includes the **WTL-12** and **EBC-800**

EBC-800
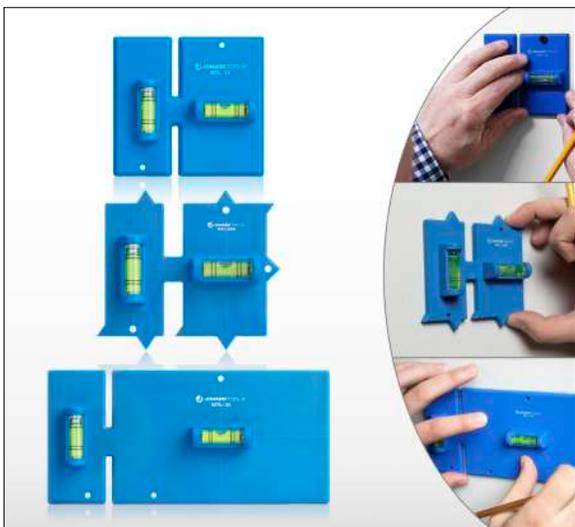

Wall Templates & Levels

Designed specifically for cutting out old work boxes, these template levels are perfect for ensuring the boxes are level every time.

Auger, Bellhanger, Combination & High Speed Steel Drill Bits

Designed to drill through metal, wood and masonry walls for installing computer, security, phone, and cable small wire systems, these drill bits eliminate the need to carry multiple drill bits with you, perfect for any installer. These drill bit also features the following:

- Aggressive tips drill through metal, wood, masonry, and other similar materials
- Holes on the bit head and chuck allow for pulling of wires after drilling
- Black oxide coated shaft and powder coated blue for greater rigidity, durability, and rust resistance

Multi-Function Magnetic Chip Catcher Ring - MMR-2

Designed to efficiently catch metallic chips when drilling into metal enclosure boxes, this tool is essential for capturing metal debris to maintain a clean workspace.

MMR-2

- Powerful magnets stick to metal enclosure boxes and effectively hold metallic chips while drilling, preventing them from scattering over workspaces
- Built-in inner cup allows disposal of metallic chips without handling them
- Large 2.08" (52.8 mm) inside diameter makes this compatible with metal drill bits up to 3/8" in diameter

Folding Flex Drill Bit Guide - DBG-75

Designed to control and guide flexible drill bits in walls or other compact spaces, this foldable drill bit guide is the perfect tool to use with long flexible drill bits.

DBG-75

- Guide extends 7.5" (19 cm) long to support long and extra long flex drill bits.
- Folds to 10.6" (27 cm) long for compact storage

Metal Cable Sewing Needle - JIC-287

The Jonard Tools **JIC-287** Cable Sewing Needle is designed to harness or lace multiple lead bundles quickly and easily.

JIC-287

- Curved notched sewing needle made from durable spring steel
- Anodized aluminum handle for long life and durability

Replacement Needles (Pack of 6): **RB-287/6**
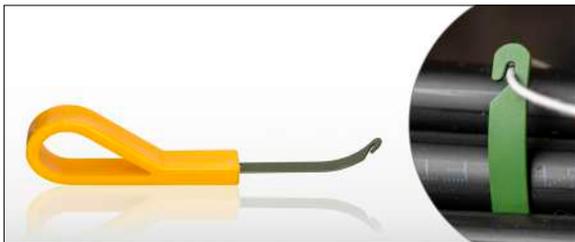

Insulated Cable Sewing Needle - JIC-3209

The Jonard Tools **JIC-3209** Cable Sewing Insulated Needle is designed to harness or lace multiple lead bundles quickly and easily. Overall length 5-1/2".

JIC-3209

- Curved notched sewing needle harnesses or laces multiple lead bundles
- Made from durable spring steel with xylan insulated coating
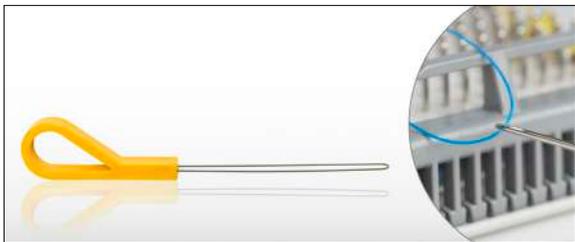

Insulated Wire Loop Puller, 4-1/2" - JIC-2257

The Jonard Tools **JIC-2257** Insulated Wire Loop Puller facilitates pulling wire through terminal blocks, rings on main frames, or fanning strip holes. Loop is 4-1/2" long. Overall length 8".

JIC-2257

- Fully insulated to prevent accidental shorts and damage to electronic components
- Used in the Jonard Tools **WWK-CO** Wire Wrap Kit
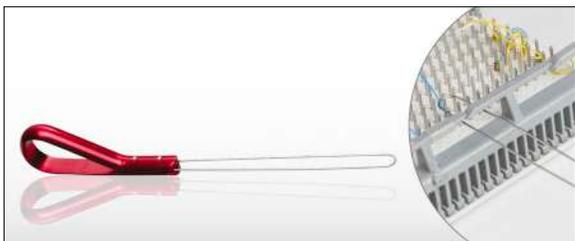

Metal Wire Loop Puller, 4-1/2" - JIC-2257M

The Jonard Tools **JIC-2257M** Metal Wire Loop Puller facilitates pulling wire through terminal blocks, rings on main frames, or fanning strip holes. Loop is 4-1/2" long. Overall length 8-1/2".

JIC-2257M

- Durable red anodized aluminum handle is comfortable and easy to hold

Replacement Loops (Pack of 6): **RB-2257/6**
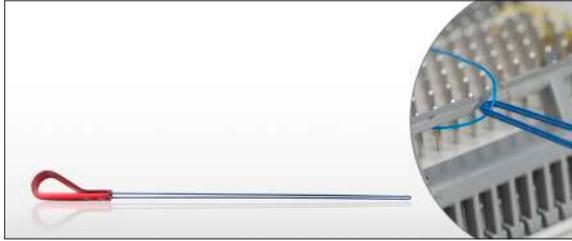

JONARDTOOLS®

Metal Wire Loop Puller, 12" Long - JIC-2257M-12

The Jonard Tools **JIC-2257M-12** Metal Wire Loop Puller facilitates pulling wire through terminal blocks, rings on main frames, or fanning strip holes. Loop is 12" long. Overall length 15".

JIC-2257M-12

- Loop is crimped for a more narrow profile and is easier to use in tight terminal blocks
- Coated with blue xylan to prevent shorts and electrical shocks
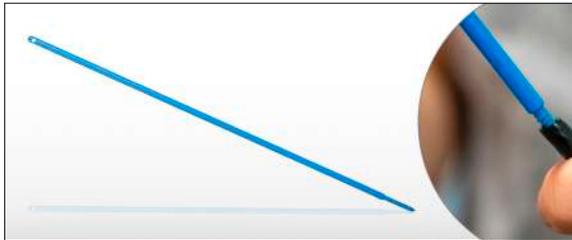

Cable Pulling Rod, 12" - CPR-12

Designed to pull cables or wires through walls, floors, and ceilings, this cable pulling rod is perfect for pulling cable without requiring sheath stripping. This rod also features the following:

CPR-12

- Pushes wires through old holes that could be partially blocked
- Stiff rod makes it easy to manipulate wire and cable through walls

Cable Pulling Kit - TK-605

This comprehensive cable management kit includes everything you need to keep cables organized and protected. Featuring Hook and Loop Cable Tie Straps for secure bundling, a Cable Comb® set for neat organization, a Ceiling Protector to safeguard cables, and a Pulley for easy cable installation, this kit ensures efficient and professional cable handling. It's perfect for electricians, installers, and technicians on the go.

TK-605

Kit includes:
- **CCB-2534** Cable Comb Organizing Tool Set - CAT5E, 6, 7
- **CP-475** Pulley Set for Low Voltage Electrical, Network & COAX Cables
- **CPF-215** Cable & Drop Ceiling Protector
- **CTS-812/100** Hook and Loop Cable Tie Strap, 8" x 1/2" (Pack of 100)
- **H-22** Rugged Nylon Carry Case
- **JH12-25** 3/4" Standard J Hook, Size 12 (Pack of 25)

Standard J Hooks

Designed for heavy-duty hanging applications, these **J Hooks** provide stress-free cable support while keeping your cable bundles neat and organized.

- Bendable tab for securing cables
- UL® listed and complies with NEC® and TIA requirements for structured cabling systems

Pull Line Blower for 3/4" to 2" (18-50 mm) Conduit - PLB-1000

PLB-1000

Designed to blow or suck pull line through 3/4" to 2" (18 to 50 mm) conduit for cable pulling, this pull line blower is perfect for running wire or cable through conduits multiple times a day. With its unique design, it makes short work of bends and kinks in conduit, saving a huge amount of time compared to mule tape or jet line. This pull line blower also features the following:

- Blows or sucks pull line without the need for a compressor
- For all commercial and residential pipe work with internal diameters from 3/4" to 2" (18 to 50 mm)
- Lightweight and ergonomic for superior accessibility, even in confined spaces
- Works great on flexible conduit
- Saves a tremendous amount of time compared to fish tapes or rodders

Replacement Pull Line (900 m): **PLB-1000PL**

Kit includes:
- **PLB-1000** Pull Line Blower (aka Stringing Gun)
- 2 Pull Line Rolls (Ø 1 mm, tensile strength approx. 24 kg, length approx. 900 m)
- 1 Suction Device

- 1 Components Set A: 2 joints 1/2" reducer 19/12 mm plus nozzle int. Ø 9.5 mm
- 1 Components Set B: 3 joint 3/4" nozzle int. Ø 16 mm plus nozzle int. Ø 19 mm
- 1 Special Nozzle Black for int. Ø from 25 to 50 mm

- 1 Special Nozzle with 90° angle, Ø ext. 12 mm
- 3 Beads (round) of Ø 11mm
- 3 Beads (round) of Ø 13mm
- 3 Beads (round) of Ø 16mm
- Operating Manual

Drywall Jab Saw, 6" - DWS-6

DWS-6

Heavy duty 6" saw for cutting wallboard, plywood, drywall, sheetrock and plastic.

- Razor-sharp blade is made from High Carbon Steel and Triple Bevel Teeth for fast, precise and safe cuts, in both push and pull directions.

Overall Length: 12-1/4" (31.12 cm)

JONARDTOOLS®

TriggerTack™ Insulated Cable Stapler - STG-100

STG-100

The **TriggerTack™** is engineered to securely fasten various types of low voltage wire and cable, including RG6, RG59, CAT5, telephone wire, speaker wire, thermostat wire, rope, and more. Made with a stainless steel construction and a powder coat finish, the **TriggerTack™** boasts exceptional durability while resisting wear and tear. Its advanced features include front and back staple guides, an adjustable depth drive, effortless drop-in loading, and a reliable jam-resistant mechanism, ensuring consistent and flawless stapling. When using this tacker, rest assured that the insulated, UL listed fasteners will not crimp.

- The **TriggerTack™** handles low voltage wires up to 5/16 inch in diameter (8 mm), making it a versatile choice for a range of applications.
- The **TriggerTack™** is designed for compatibility with Jonard UL Listed Insulated Cable Staples **STG-14I**, **STG-56I**, and **STG-1456I**, as well as Arrow T59 type staples.
- Trigger actuated mode, switch with dial, allows preloading the staple by squeezing the handle, positioning the tacker over your work surface or wire/cable using the guides, and triggering the stapling action with a squeeze.
- Adjust the fastener depth with the switch controlled, depth adjuster.
- Ergonomic handle for precise control and improved grip.

TriggerTack™ 1/4" x 5/16" Insulated Cable Staples (Pack of 300) - STG-1456I

STG-1456I

Jonard Tools No. 19 1/4" by 5/16" black insulated cable staples are genuine Jonard fasteners, designed for use with the **STG-100 TriggerTack™** wire and cable tacker.

- Each box has 300 pieces and is ideal for installing COAX RG59 Quad or RG6 wire. Also perfect for Ethernet cables, telephone wires, TV cable, computer cable, intercom cable and security systems

---

TriggerTack™ 1/4" x 1/4" Insulated Cable Staples (Pack of 300) - STG-14I

STG-14I

Jonard Tools No. 19 1/4" by 1/4" clear insulated cable staples are genuine Jonard fasteners, designed for use with the **STG-100 TriggerTack™** wire and cable tacker.

- Each box has 300 pieces and is ideal for installing security wire (18/4), telephone wire 24/8), thermostat wire (18/2, 18/5, 18/8), and Ethernet CAT5 voice and data cable

---

TriggerTack™ 5/16" x 5/16" Insulated Cable Staples (Pack of 300) - STG-56I

STG-56I

Jonard Tools No. 19 5/16" by 5/16" clear insulated cable staples are genuine Jonard fasteners, designed for use with the **STG-100 TriggerTack™** wire and cable tacker.

- Each box has 300 pieces and is ideal for installing COAX RG59 Quad or RG6 wire. Also perfect for Ethernet cables, telephone wires, TV cable, computer cable, intercom cable and security systems

JONARD TOOLS®

SOLAR

ACM-1500DC – SOLAR CLAMP METER CAT III 1500V, PG. 89

Solar+ Clamp Meter CAT III 1500V - ACM-1500DC

ACM-1500DC

Elevate your high voltage DC work with the **ACM-1500DC** CAT III 1500 V True-RMS Clamp Meter. This versatile device is tailor-made for professionals working in solar arrays, wind power farms, electric railways, data centers, and uninterruptible power supplies.

- Measures up to 2500 V DC and 999.9 A DC or AC through its slim tip clamp jaws
- CAT IV 600V, CAT III 1500V, Class 2, Double Insulation Safety Rating to protect from electrical shocks
- Jaw opening is perfect for cables, such as solar cables, whose conductors are a maximum of 1.38" (35 mm) in diameter
- IP 65 rating for dust and water resistance for ultimate protection while working outdoors

Solar Maximum Power Point Tracking Power Meter - SPM-800

SPM-800

The Jonard **SPM-800** is a high-precision solar Maximum Power Point Tracking meter designed to accurately measure voltage, current, and power. Built for durability with a user-friendly interface, it ensures reliable monitoring in any environment, making it an essential tool for verifying the energy efficiency of solar panels in both residential and commercial solar installations.

- Features a clear, easy-to-read LCD display with intuitive controls, making it simple to operate and interpret data in real-time
- Compatible with a wide range of solar panels using MC4 leads, making it a versatile tool for both residential and commercial solar installation
- Designed with built-in safety protections, such as over-voltage, over-current, and reverse polarity protection, to ensure safe operation during testing

Solar Panel Crimpers - SPC-MC4 & SPC-MC4L

Designed to crimp MC4 connectors onto 14, 12, or 10 AWG (2.5, 4.0, 6.0, 10 mm²) solar panel wire, these solar panel crimpers are the perfect tools for installing and maintaining solar panel connectors. **SPC-MC4** includes MC4 Die and **SPC-MC4L** includes Locator and MC4 Die. These crimpers feature the following:

SPC-MC4

SPC-MC4L

- Parallel jaws with adjustable pressure-regulating gear and self-locking design crimp solar panel connectors perfectly every time
- Built-in ratchet makes crimping quick and easy
- Made of hardened carbon steel with a black oxide finish for strength and durability
- Dual component grip provides greater comfort and ergonomics
- Able to crimp MC3 connectors using an MC3 die (**SPD-MC3**), sold separately

Solar Panel MC3 Crimper Die
SPD-MC3

Solar Panel MC4 Crimper Die
SPD-MC4

SPECS	SPD-MC3	SPD-MC4
DESCRIPTION	Solar Panel MC3 Crimper Die	Solar Panel MC4 Crimper Die
CONNECTOR TYPE	MC3 Connectors	MC4 Connectors
DIMENSIONS	1.28" x 1.40" x 0.391" (32.5 mm x 35.7 mm x 9.91 mm)	1.28" x 1.40" x 0.391" (32.5 mm x 35.7 mm x 9.91 mm)

Solar Panel Crimper Locator for MC4 Dies - SPL-MC4

This is the replacement locator for **SPC-MC4L**. This locator is used to hold MC4 connectors in place during crimping, making it quick and easy to crimp solar panel wires onto MC4 connectors.

SPL-MC4

- 2 Holes for holding 2.5 / 4 / 6 and 10 mm² MC4 connectors
- Spring-loaded clip design holds connectors in place while crimping
- Compatible with **SPC-MC4L** and **SPC-MC4** (4 / 6 mm² MC4 connectors only)

Solar Panel Spanners for MC4 Connectors (Pack of 2) - SPS-2

Designed to lock and unlock MC4 connectors for termination or removal, these solar panel spanners are ideal for solar panel installers when terminating or replacing a new MC4 solar panel connector.

SPS-2

Automatic Wire Stripper and Cutter, Solar - WS-614

The Jonard Tools Automatic Wire Stripper and Cutter, Solar was designed with solar technicians in mind. This wire stripping and cutting tool features the following:

WS-614

- Easily strips PV solar wire 6-12 AWG solid wire and 8-14 AWG stranded wire, can remove up to 1" of insulation in a one-step operation
- Precision machined stripping holes ensure clean insulation removal without nicking conductors in a single motion
- Stripping blades are made of high durability SK5 steel
- Built-in cutting blades make it easy and convenient to cut and prep wire
- Rugged and precise design with die-cast body and durable coated finish
- Gripping and stripping jaws grab, hold, and strip wire with one squeeze of the handle

![Jonard Tools logo]

Solar Panel MC3 & MC4 Crimping Tool Kit
w/ Insulated Screwdrivers - SPK-100

SPK-100

The Jonard Tools **SPK-100** Solar Panel Crimping Tool Kit is designed to facilitate the installation and maintenance of solar panels. It includes a variety of tools to make installing and maintaining solar panels quick and easy.

Kit includes:
- **INS-475** Cabinet Slotted Insulated Screwdriver, 1/8" x 3"
- **INS-2100** Phillips Insuated Screwdriver, #2 x 4"
- **JIC-625** Copper COAX & Network Cable Cutter
- **SPC-MC4** Solar Panel Crimper with Included MC4 Die
- **SPD-MC3** Solar Panel MC3 Crimper Die
- **SPS-2** Solar Panel Spanners for MC4 Connectors (Pack of 2)
- **TKC-110** Rugged 11 Pocket Tool Case
- **WS-822** Wire Stripper & Cutter, 8-22 AWG

Solar Essentials Kit - TK-96

TK-96

The Solar Essentials Kit is your comprehensive solution for efficient and effective solar installations. Designed by seasoned solar installer Brandan Sirrine, famously known as the "Solar Goat" online. He has curated this kit to include the essential tools he uses daily for accessing electrical boxes and terminating conductors.

Kit includes:
- **H-20** Rugged Carrying Case
- **INS-475** Cabinet Slotted Insulated Screwdriver, 1/8" x 3"
- **SD-61** 6-in-1 Multi-Bit Screwdriver with Phillips and Slotted Bits
- **SPC-MC4** Solar Panel Crimper with Included MC4 Die
- **UKN-3** Heavy Duty Utility Knife
- **WSS-612** Stainless Steel Curved Wire Stripper, 6-12 AWG

HAND TOOLS

Jonard Tools has engineered premium hand tools since 1958. All our tools are designed to provide industry solutions and undergo quality testing to ensure our Made For Life® lifetime warranties.

CONTENTS

JIC-3026 – CURVED LONG NOSE PLIERS, JIC-2288 – DIAGONAL CUTTING PLIERS, PG. 95, WRC-14 – WIRE ROPE AND CABLE CUTTER, PG. 101

All Jonard pliers are heat treated and made of chrome vanadium or high carbon alloy steel for increased strength and precision cutting. These ultra durable pliers have machine cut edges to provide exceptionally smooth action and are made to exceed ASME/ANSI standards.

PLIERS

JIC-63050 – CABLE CUTTER; JIC-683 – SIDE CUT PLIERS; JIC-453 – SEMI-FLUSH CUT PLIERS; JIC-2755 – FLUSH CUT PLIERS, PG. 96

Copper COAX & Network Cable Cutter - JIC-625

Jonard's cable cutters are made of chrome vanadium steel and are heat treated for maximum strength and durability.

- Ideally used for soft copper coax and network cables and able to cut solid, stranded, and flexible cables up to 6 AWG

Jaw Thickness: 0.4" (10.2 mm), Overall Length: 6" (16.51 cm)

JIC-625

COAX Cable Cutter Steel - JIC-725

A plier designed specifically for coax cables with a steel center conductor. This plier has been tested (over 25,000 cuts) on cables with steel centers, and specifically CCSC (copper clad steel center) conductor cables without degradation to the cutting blades. Plier will also cut many other cable types.

Jaw Thickness: 1/4" (6.35 mm), Overall Length: 6-1/4" (158.75 mm)

JIC-725

3/4" COAX Cable Cutter - JIC-750

Designed to cleanly cut up to 3/4" hard line coaxial cable and larger fiber cables without compressed or frayed ends.

- Eliminates cable distortion during prep by functioning like a tube cutter
- Ergonomically designed handle with dipped plastic grip for greater comfort and torque

JIC-750

1" COAX Cable Cutter - JIC-755

Designed to cut up to 1" coaxial cable. This tool works like a tube cutter to eliminate cable deformation during cable preparation. Tool provides precision one-handed cutting action. Not designed for ACSR or other steel cables.

Cable Diameter: 1" (25.4 mm), Overall Length: 8-1/4" (209 mm)

JIC-755

High Leverage Diagonal Cutting Pliers, 8" - JIC-2288

Crafted for heavy-duty wire cutting and use for the most demanding applications, precision machined cutting edges provide exceptionally smooth action.

Jaw Length: 7/8" (22.2 mm), Overall Length: 8-1/4" (210 mm)

JIC-2288

High Leverage Diagonal Cutting Pliers, Angled Head, 8" - JIC-2488

Crafted with a 13° angled head for heavy-duty wire cutting in confined spaces. Use for the most demanding applications, precision machined cutting edges provide exceptionally smooth action.

Jaw Length: 13/16" (20.6 mm), Overall Length: 8" (203 mm)

JIC-2488
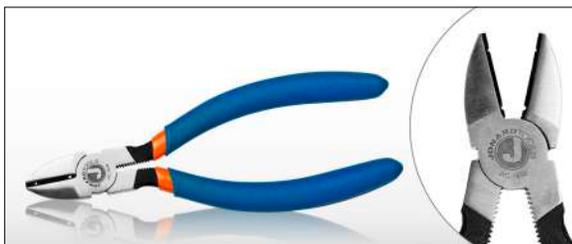

Telecom Diagonal Cutting Pliers, 6-1/4" - JIC-7858

Tapered nose diagonal cutting pliers with standard bevel knives with .030" and .045" skinning holes, with crusher used for multi-purpose wire work, with two V-shaped stripping notches.

Jaw Length: 7/8" (22.2 mm), Overall Length: 6-1/4" (158 mm)

JIC-7858
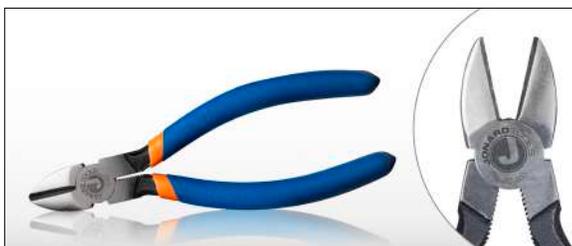

Diagonal Tapered Nose Cutting Pliers, 6-1/4" - JIC-600

Tapered nose diagonal cutting pliers with standard bevel knives. Includes crusher for multi-purpose wire work. The handles are 6-1/4" long. Made to exceed ASME/ANSI standards.

Jaw Length: 7/8" (22.2 mm), Overall Length: 6-1/4" (158 mm)

JIC-600

Diagonal Crushing Slitting Pliers - DIABVNOTCH

Used for cutting soft copper conductors. Has a "V" shaped notch between jaws, near the joint, for crushing the flameproof type of insulation on distributing frame wire. Also provides a "W" shaped notch on the pliers jaws for slitting textile insulation.

Jaw Length: 3/4" (19.1 mm), Overall Length: 5-1/8" (130 mm)

DIABVNOTCH

Diagonal General Use Pliers - DIAGB5

Jonard's diagonal cutting pliers are made of polished chrome vanadium steel and are heat-treated for maximum strength and durability. The induction-hardened cutting edge to provides a clean cut every time.

Jaw Length: 3/4" (19.1 mm), Overall Length: 5-1/8" (130 mm)

DIAGB5

HAND TOOLS
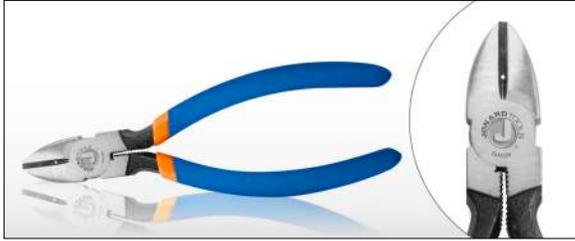

Diagonal Stripping Pliers - DIAGB6

Tapered nose diagonal cutting pliers with standard bevel knives with one .045" hole, crusher used for multipurpose wire work, and two V shaped stripping notches.

Jaw Length: 7/8" (22.2 mm), Overall Length: 6-1/2" (158 mm)

DIAGB6
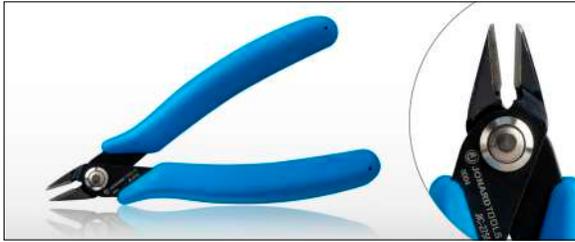

Flush Cut Pliers - JIC-2755

Made of high carbon steel, this lightweight flush cutter can be used on wire up to 18 AWG while minimizing fly-off. Cantilevered spring automatically opens the plier, and the head fits easily in confined work areas.

Jaw Length: 1/2" (12.7 mm), Overall Length: 5" (127 mm)

JIC-2755
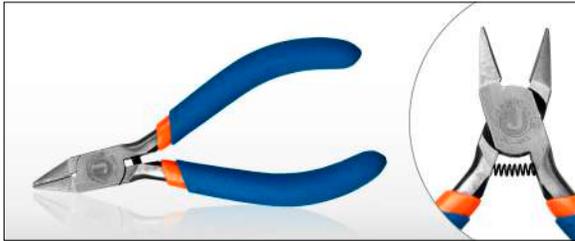

Semi-Flush Cut Pliers - JIC-453

A close cutting pliers used to trim conductors from the 710 connector modules without leaving exposed conductors. Ideal for close trimming of gates and sprue on injection molded plastic parts. Jaw design aids in use in confined areas.

Jaw Length: 5/8" (15.9 mm), Overall Length: 4-1/2" (114 mm)

JIC-453

9" Curved Jaw Cable Cutter - JIC-63020

High leverage design for superior cutting ability. The curved jaws provide superior holding for a cleaner and more concentric cut. Tool is for cutting aluminum and soft copper and not for use on steel or ACSR type cables. The shear type jaws cuts up to 100-pair cables (24 AWG). Lock has a unique feature where lock is released by squeezing handles together.

Jaw Length: 1" (25.4 mm), Overall Length: 9" (228 mm)

JIC-63020

High Leverage Cable Cutter - JIC-63050

High leverage design for superior cutting ability. Designed with a shear-type jaw for cutting aluminum and soft copper. Not for use on steel or ACSR type cables. Cuts up to 100-pair cables (24 AWG).

Jaw Length: 1-3/8" (34.93 mm), Overall Length: 9-1/4" (234 mm)

JIC-63050

Lineman's Side Cut Pliers - JIC-683

Designed for heavy duty use in construction and maintenance work. These pliers are high leverage for cutting bolts, nails, and many gauges of wire including high-strength wire. Cutting edges cut clean and remain sharp. The cushioned-grip, comfortable handles are approximately .07" thick.

Cutter Length: 13/16" (20.64 mm), Overall Length: 9-1/2" (241 mm)

JIC-683

Lineman's Pliers w/ Fish Tape Puller & Crimper - JIC-685

Designed for heavy duty use in construction and maintenance work. These pliers are high leverage for cutting bolts, nails, and many gauges of wire including high-strength wire. Fish tape pulling feature easily pulls 1/8" or 1/4" steel fish tape without damaging the tape. Built in crimper feature works best on non-insulated connectors, lugs and terminals. Cushioned grip, comfortable handles are coated to approximately .07" thick.

JIC-685

Connector-Crimper Pliers - JIC-891

Designed to press UR/UY/UG, 709 series connectors, crimping "B" type connectors, and AMP Tel-Splice connectors. Utilized on combinations of plastic and pulp insulated 19, 22, 24 and 26 gauge copper conductors as well as 20 gauge plastic insulated copper steel wire.

Jaw Length: 1" (25.4 mm), Overall Length: 5-3/16" (131 mm)

JIC-891

Long Nose Switchboard Pliers - JIC-203

Pliers are for general use looping, bending and cutting. Grips small wires and parts and reaches into tight spaces. Jaws are knurled, serrated and have side cutting blades. Two stripping holes for 19 and 22 AWG wire. Cushion gripped handles.

Overall Length: 6-7/8" (174 mm)

JIC-203

Telecom Long Nose Pliers - JIC-21257

These long nose pliers has side cutting blades, a crushing slot, one .030" stripping hole, and a thin knurled nose to facilitate handling of the wire at the central office terminals. The comfortable handles are cushion gripped.

Jaw Length: 1-7/8" (47.63 mm), Overall Length: 6-7/8" (174 mm)

JIC-21257

Combo Crimper, Long Nose Pliers - JIC-22148

Five tools in one. Combines the functionality of a long nose plier with a crimper, stripper, cutter, and crusher. Crimper works for UR/UY/UG, AMP tel splice connectors, 709 series connectors, and crimping "B" type connectors. Stripping hole is .030".

Jaw Length: 1-7/8" (47.63 mm), Overall Length: 6-7/8" (174 mm)

JIC-22148
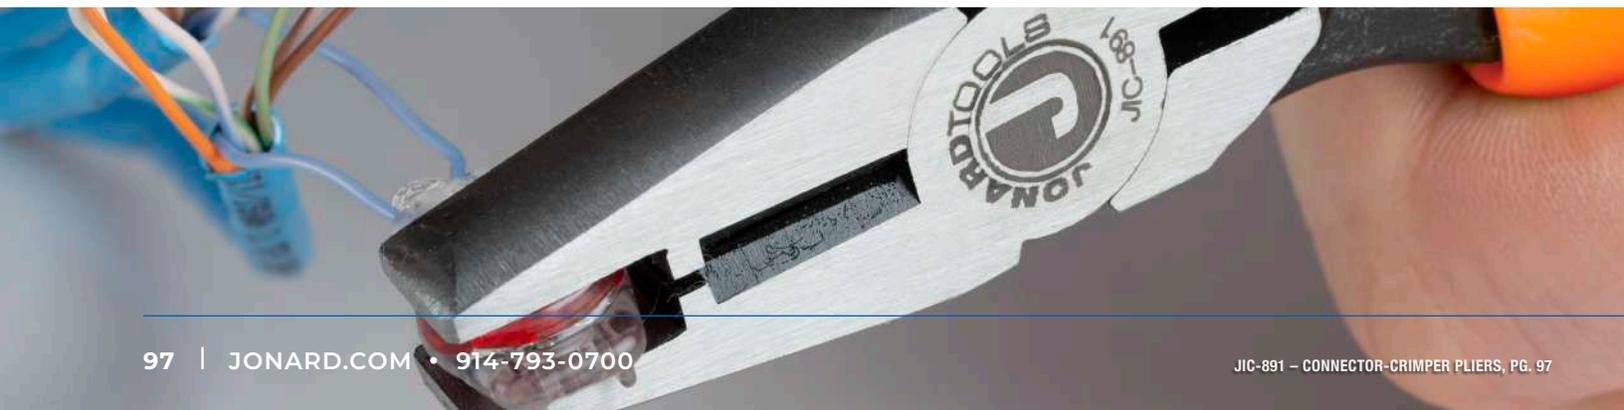

Long Nose and Side Cutting Pliers - JIC-842

Pliers are for general use looping, bending and cutting. Grips small wires and parts and reaches into tight spaces. Jaws are knurled, serrated and have side cutting blades. Cushion gripped handle.

Jaw Length: 1-7/8" (47.63 mm), Overall Length: 6-3/4" (171 mm)

JIC-842

Long Nose General Use Pliers - BLONGNOSE

Jonard's long nose pliers are made of ultra strong tool steel and are heat treated for maximum strength and durability. Slim chain nose design for working in confined areas and knurled jaws ensure tight grip every time. Ergonomically designed handle with dipped plastic grip for greater comfort and torque.

Jaw Length: 2" (50.8 mm), Overall Length: 6-7/8" (174 mm)

BLONGNOSE

Long Nose Gripping Pressing Pliers - ELONGNOSE

Long nose pliers for gripping and pressing. Inner surface of the jaws are knurled near the end to facilitate gripping wire, binding post nuts etc. Aluminum oxide insulation coating on the outside nose surface. The inside gripping jaws are provided with mated grooves near the joint for use in pressing .032/.035" brass sleeves. One stripping hole .054" diameter.

Jaw Length: 1-7/8" (47.63 mm), Overall Length: 6-7/8" (174 mm)

ELONGNOSE

Short Nose B Type Plier - BSHORTNOSE

Intended for use in skinning 22-24 AWG wire and crushing insulation in nose slot. The front portion of the jaws is narrowed, and a portion of the inner face of one jaw is relieved to skin insulation from wire. The inner surface of the jaws are serrated to facilitate gripping wire.

Jaw Length: 1-1/2" (38.10 mm), Overall Length: 6-1/2" (165 mm)

BSHORTNOSE

L3 Type Cut Crush Strip Pliers - KS21257L3

Side cutting edges, crushing slot, 0.030" stripping hole for 22 AWG wire, and thin knurled nose to facilitate handling of wire while working on terminals. Side-cutting blades on jaw cut wire with ease. Dipped plastic grip hamdle for greater comfort and torque.

Jaw Length: 1-1/2" (38.1 mm), Overall Length: 6-1/2" (165 mm)

KS21257L3

Heat Coil Pliers - PLS-5

Designed for installing and extracting heat coils, fuses and other cylindrical shaped components. The thin nosed jaw allows easy access to tight restricted areas. Ergonomically designed handle with dipped plastic grip for greater comfort and torque

Jaw Length: 1-13/16" (46 mm), Overall Length: 5" (127 mm)

PLS-5

![Jonard Tools logo]

Slip Joint Side Cut Pliers - BCOMB

For heavy-duty use. Machined gripping teeth on jaws to provide non-slip grip. Two jaw positions with smooth, positive interlock between halves for comfort and versatility. Side-cutting blades on jaws cut wire with ease. Ergonomically designed handle with dipped plastic grip for greater comfort and torque

Number of Positions: 2, Overall Length: 7-5/8" (194 mm)

BCOMB

Curved Needle Nose Pliers - JIC-3385

Nose is bent 60° for maximum visibility. Used in confined areas for bending and forming fine wire. Inside jaws and jaw edges are polished to prevent nicking the wire. Plier has a spring loaded ergonomic design with cushion gripped handle..

Bend Angle: 60°, Overall Length: 5-1/2" (139 mm)

JIC-3385

Flat Nose Pliers - FNP-165

The **FNP-165** is precision-made for working with semi-conductive materials. It features drop-forged high carbon steel jaws that are induction hardened and tempered for strength and long-lasting performance. The wide, smooth nose provides a firm grip and precise control without damaging delicate surfaces. Its extended reach makes it easy to access tight spaces. Ergonomic dual compound thermoplastic handles provide slip resistance and comfort during prolonged use.

FNP-165

Deltec® Cable Tie Strap Tensioning & Cutting Tool - CTT-05

The perfect tool for installing Deltec® cable tie straps, or other straps up from 0.183" - 0.500" in width, for outdoor cable support and management.

- Spring loaded head tensions large cable tie straps to make cable bundles secure

CTT-05

Flush Cutting Pliers for Large Cable Ties, 6.5" - CTG-500

Designed to flush cut plastic objects, this flush cut plier is perfect for cutting large cable ties (up to 0.50" wide), Delta straps, Deltec® cable support systems, flashing, or other plastic parts.

- Induction-hardened cutting edge provides a clean cut every time

CTG-500

Single-Ear Hose Clamp Pliers, Straight Jaw - ECP-100

Designed to crimp single-ear clamps, these ear crimp pliers are perfect for crimping single-ear clamps, as well as clamps on CV boots, cooler and fuel lines, air pressure systems, and compressors. Featuring a jaw width of 1.56 inches, the slim head allows access in tight spaces while preventing damage to press points on ear clamps.

ECP-100

Pump Pliers

Manufactured with a secure tongue and groove design for a non-slip grip (even under heavy pressure). Made from high quality tool steel, with a smooth positive interlock between halves.

Quick Flip Retaining Ring Pliers - RRP-1

RRP-1

Designed to quickly flip between internal and external retaining ring removal, these pliers are ideal for removing retaining rings in automotive parts, machinery, electronics, and other applications.

- Tips can be replaced for different sizes using the included hex key

Includes: Retaining Ring Removal Pliers,Straight and 90° Tips, and Hex Key

MegaShears, Ultimate Cutting Tool - SHM-85

SHM-85

Designed with Japanese Stainless Steel blades, adjustable cutting width and tension control, the **MegaShears** are the ultimate cutting tool. These shears are perfect for electricians, installers, and utility technicians needing clean, powerful cuts across a wide range of materials.

- Adjustable-range cutting capabilities with spring loaded handles for optimized control across a wide range of materials

Tabbing Shears - TS-850

TS-850

Jonard's Tabbing Shears are made of chrome vanadium steel and are heat treated for maximum strength and durability. These tabbing shears feature the following:

- Precision ground cutting blades for easier cutting

Overall Length: 8-1/2" (216 mm)

Electric Lug and Terminal Crimper - TCC-1416

Designed to prep electrical cables, this Electrical Lug and Terminal Crimper is perfect for cutting and stripping wires, and crimping insulated and non-insulated lugs and terminals. This crimper features the following:

TCC-1416

- Strips16-22 AWG (0.6 to 1.3 mm) electrical wires
- Ergonomic spring-loaded comfort grip handles reduce hand fatigue

Ratcheting Cable Cutters - RC-500 & RC-600

These Ratcheting Cable Cutters are designed to cleanly cut copper and aluminum power cables, telecom cables, and other similarly sized multi-conductor cables.

RC-500

RC-600

- Made of heat-treated carbon steel with induction-hardened cutting edges for maximum strength and durability
- Unique design allows you to hold and cut cables quickly and easily
- Spring-loaded mechanism on handles for automatic opening
- Ergonomically designed handle with cushioned rubber grip for greater comfort and leverage
- This cable cutter is not designed for use on ACSR or other steel cables

Ratcheting Cable Cutter - RC-336ACSR

Designed for heavy-duty use, this cable cutter is designed to cut 336 MCM (170 mm²) ACSR, 400 MCM (202 mm²) copper, or 600 MCM (304 mm²) aluminum cables, and most cables up to 30 mm in diameter.

RC-336ACSR

Maximum Cut Capacity: 1-3/4" (4.4 cm), Overall Length: 12" (30.5 cm)

Wire Rope and Cable Cutter - WRC-14

The Jonard Tools **WRC-14** Wire Rope & Cable Cutter is ideal for cutting soft and hard wire rope, spring wire, and copper/aluminum cable.

WRC-14

Material	Max. Wire Rope Size
Soft Wire Rope	1/4" (6 mm)
Hard Wire Rope	3/16" (5 mm)
Spring Wire	3/32" (2.4 mm)
Copper/Aluminum Cable	3/16" (5 mm)

Compact Cable Cutter - JIC-500

Designed with ultra-sharp dual curved blades and compact size, this network cable cutter is perfect for cutting twisted pair network cables quickly and easily.

JIC-500

- Ultra-sharp blades cut completely through network cables, including the pesky nylon rip cords
- Curved blade design minimizes cable deformation, ensuring consistent impedence when connectorizing the cable
- Large jaw opening allows you to cut network or copper cables up to 0.50" (12.7 mm) in diameter
- Made from stamped steel with a black oxide coating to provide ultimate sharpness and durability

Adjustable Wrenches with Extra Wide Jaws

Jonard's Adjustable Wrenches are made from high carbon steel and are heat treated for maximum strength and durability.

SPECS	AW-4	AW-6	AW-8	AW-10	AW-12	AW-15	AW-18

3 Piece Adjustable Wrench Set - 6", 8", 10" w/ Extra Wide Jaws - AW-6810

AW-6810

Jonard's adjustable wrenches are made of chrome vanadium steel with a chrome plated finish.Forged and heat treated for maximum strength.

Kit includes: AW-6, **AW-8**, and **AW-10** (6", 8" & 10" Adjustable Wrenches with Extra Wide Jaws)

Adjustable Hex Wrench, 6-13 mm & 1/4"-9/16" - AHW-600

AHW-600

Designed with adjustable metric and SAE hex heads, this hex wrench is perfect for loosening or fastening various sizes of hexagonal nuts, bolts, and other hardware.

- Works on multiple types of fasteners including 6-point, 12-point, square, E-Torx, triangle, and most other similar hardware

Pocket Ratchet Wrench, 8-13 mm - PRW-813

PRW-813

Designed for use in tight spaces, this Finger Ratcheting Wrench is perfect for use on dashboards, door panels, engine bays, and anywhere else with limited access. This wrench is also built with specially designed sockets for use on Imperial, Metric, Star, and Square nuts and bolts, making it highly versatile for any situation.

Fuse Puller - FP-600

FP-600

Designed for installing and extracting fuses from line amplifiers and other cylindrical shaped components including heat coils. The thin nosed jaws allow for easy access to tight restricted areas. Works great on automotive mini fuses that are packed tight. Handle is cushion gripped.

Jaw Length: 1-13/16" (46 mm), Overall Length: 5" (127 mm)

The Jonard Slotted, Phillips and Robertson Screwdrivers are made of special alloy steel for exceptional strength, long life and are corrosion resistant. Soft rubber handles offer comfort and greater torque. The end of the handles are marked to identify the tool's size, and the tips are magnetic. Meets and exceeds applicable ASME/ANSI specifications.

SCREWDRIVERS

4-in-1 Mini All-Purpose Screwdriver (Pack of 10) - S-41/10

The Jonard Tools **S-41** screwdriver is a mini multi-bit screwdriver made for everyday use. It can be configured to 4 types of driving heads: #0 & #00 Phillips Head, 1/8" & 1/16" Cabinet Slotted Head. Conveniently shaped like a pen with a clip, holds 2 screwdriver bits, and is perfect for small connectors on alarm panels and alarm boxes.

S-41/10

4-in-1 Multi-bit Pocket Precision Screwdriver - SD-41

Designed with four standard non-magnetic tips, this 4-in-1 precision screwdriver is perfect for use on electronics and small equipment. Includes #0 and #00 Phillips tips as well as 1/8" (3.2 mm) and 3/32" (2.4 mm) cabinet slotted tips.

SD-41

- Rotatable swivel cap on top gives you maximum precision and control
- Interchangeable shaft for quick bit changes

Precision Screwdriver Phillips #00 x 60mm (Pack of 10) - SD-00/10

This precision screwdriver has a #00 Phillips tip and a 3 mm diameter by 60 mm long shaft. Shaft is made from SU11 steel. The handle is made from polypropylene and thermoplastic rubber for added comfort with a swivel at the end for ease of use. Tips are magnetic.

SD-00/10

Overall Length: 6" (152 mm)

Precision Screwdriver Slotted 2mm x 60mm (Pack of 10) - SD-080/10

This precision screwdriver has a slotted tip 2 mm wide and a 3 mm diameter by 60 mm long shaft. Shaft is made from SU11 steel. The handle is made from polypropylene and thermoplastic rubber for added comfort with a swivel at the end for ease of use. Tips are magnetic.

SD-080/10

Overall Length: 6" (152 mm)

Phillips #00 & Cabinet-Tip Slotted Precision Screwdriver Set - SDKP-2

Magnetized tips hold fasteners in place while inserting or removing them. Rotatable swivel on end of handles make them easy to use.

SDKP-2

Includes:
- **SD-00** Phillips Precision Screwdriver, #00 x 60 mm
- **SD-080** Cabinet Slotted Precision Screwdriver, 2 mm x 60 mm

Phillips Screwdriver, #3 x 24" - SD-243

Designed to reach diodes in the back of rectifiers, this 24" extra long #3 Phillips Screwdriver is made with a chrome vanadium steel shank and black oxide finish for exceptional strength and long life. Internal shank flanges to prevent the handle from slipping

SD-243

Overall Length: 27" (685 mm)

8 Piece Screwdriver Set - SDK-8

These magnetic-tipped screwdrivers are made with an S2 steel shank and a chrome finish for exceptional strength and long life. The shafts are corrosion resistant, and the soft rubber handles offer user comfort with greater torque.

SDK-8

Set includes:

- **SDP-1** Screwdriver Phillips #1 x 3"
- **SDP-2** Screwdriver Phillips #2 x 4"
- **SDP-3** Screwdriver Phillips #3 x 6"
- **SDSP-2** Screwdriver Phillips #2 Stubby
- **SDSC-14** Screwdriver Slotted 1/4" Stubby
- **SDC-144** Screwdriver Slotted 1/4" x 4"
- **SDC-3163** Screwdriver Slotted 3/16" x 3"
- **SDC-5166** Screwdriver Slotted 5/16" x 6"

6-in-1 Multi-Bit Screwdriver w/ Phillips & Slotted Bits - SD-61

The Jonard Tools 6-in-1 Multi-Bit Screwdriver eliminates the need for multiple tools in your belt by combining versatility and convenience. This tool can be configured to 6 types of driving heads and also includes 1/4" and 5/16" nut driver sockets for added functionality.

SD-61

Includes: SD-RB1 Phillips Bit #1, Slot 3/16", **SD-RB2** Phillips Bit #2, Slot 9/32"; **SD-RB12**; Replacement Bit Set includes: **SD-RB1** & **SD-RB2**

6-in-1 Robertson Screwdriver - SD-1223

The Jonard Tools 6-in-1 Multi-Bit Robertson Screwdriver eliminates the need for multiple tools in your belt. This tool can be configured to 6 types of driving heads. Can be used for Phillips, Robertson, and slotted fasteners plus nuts and bolts as it includes 2 screwdriving bits and shaft is used as a nut driver

SD-1223

Includes: #2 Phillips Head & 9/32" Cabinet Slotted Head, S1 & S2 Robertson Head, 5/16" & 1/4" Nut Driver Head

2 Piece Stubby Screwdriver Set - SDS-142

Jonard's Stubby Cushion Gripped Screwdrivers are made with an S2 steel shank with a chrome finish for exceptional strength and long life.

Overall Length: 3 1/2" (89 mm) each

SDS-142

Includes: SDSP-2 Phillips Screwdriver, #2 X 1.5" & **SDSC-14** Cabinet Slotted Stubby Screwdriver, 1/4" x 1.5"

15-in-1 Ratcheting Screwdriver w/ Security Bits - RSDS-151

The **RSDS-151** is the perfect security screwdriver for any tradesman by eliminating the need for multiple tools. It also has a ratcheting head, which makes it quick and easy to fasten or unlock tamper proof screws.

RSDS-151

Includes: Includes 1/8", 9/64", 5/32", and 3/16" hex pin bits, 6-8, 10-12 spanner bits, and 10-15, 20-25, 27-30 torx pin bits

Magnetizer & Demagnetizer Tool - MAG-100

Using powerful Rare-Earth magnets, this magnetizer is perfect for magnetizing or demagnetizing screwdrivers, tweezers, tool bits, nut drivers, or other metal tools. This magnetizer also features the following:

- Converts any metal tool into a magnetic retriever, great for picking up screws, nuts, and other small metal objects
- Wide openings allow a variety of tools and objects to be magnetized
- Compact and rugged design makes it perfect for any toolbag or toolcase

MAG-100

LED Flashlight w/ Zoom Lens - FL-2000

Powered by a single AA alkaline battery, this high strength LED flashlight is perfect for illuminating dark places and features the following:

FL-2000

- Ultra-bright 120 lumen LED can be easily adjusted by simple in-and-out movement and the zoom lens can focus the light to hone in on a specific area, or zoom out to flood the area with light
- Rugged aluminum housing with clip-on lanyard keeps this flashlight secure
- Simple push-button operation
- Beam is adjustable to meet the working environment
- Zoom in for a narrow beam and zoom out for a wide light
- High quality flashlight powered by a single AA battery (included)

Burnishers

Designed for use on relay contacts, this pocket burnisher is the perfect tool for removing the oxide layer from the precious metals of relay contacts. These burnishers feature the following:

- Blade length and rigidity is adjustable by varying the depth of the blade in the chuck
- Plastic housing allows it to be used on live contacts without any shocks or shorts
- Removes the oxide layer or corrosion off contacts without leaving filings or debris

Pocket Burnisher **PB-7** Shown

REPLACEMENT BLADES/RODS		B-3R/25 (Pack of 25)	B-7/25 (Pack of 25)

Contact Burnishers

Plastic insulated handles for working on live contacts. Available in four styles for fine, extra sensitive, general purpose and industrial use.

CONTACT BURNISHERS

JONARD P/N	DESCRIPTION
OB-1/3	Relay Contact Burnisher Files, Fine (Pack of 3)
OB-1/12	Relay Contact Burnisher Files, Fine (Pack of 12)
OB-2/12	Relay Contact Burnisher Files, Extra Sensitive (Pack of 12)
OB-3/12	Relay Contact Burnisher Files, General Purpose (Pack of 12)
OB-4/12	Relay Contact Burnisher Files, Industrial (Pack of 12)

ELECTRICAL

ACM-1000 – 1000A DIGITAL CLAMP METER, PG. 110

1000A Digital Clamp Meter - ACM-1000

Clamp Meter with automatically ranging true root mean squared (TRMS) technology for increased accuracy measuring up to 1000A and 1000V. This product features the following:

ACM-1000

- Test leads measure AC/DC voltage, resistance, continuity, frequency and capacitance and tests diodes
- CAT IV 600V, CAT III 1000V, Class 2, double insulation safety rating
- 45mm clamp opening for a wide range of applications
- Unique design with grooved housing for superior grip
- Non-contact voltage tester integrated into the clamp
- Includes (3) AAA batteries required for operation

Automatic Intelligent Digital Multimeter - AMM-600

Intelligent, auto-function volt meter is capable of gauging both the required range and the required function based on the test lead input, providing the simplest experience and the most accurate results. Simply plug in the leads and connect to your test subject and let the **AMM-600** take the guess work out of testing.

AMM-600

- Tests AC and DC voltage, resistance, capacitance, frequency, diode, duty cycle, continuity, live testing, and non-contact voltage detection (NCV)
- Provides maximum/minimum/average readings, relative measurements
- CAT IV 600V, Class 2, Double insulation safety rating
- Backlit display for low light, and highlight environments
- Unique design with grooved housing for superior grip
- Includes hard carrying case

JONARDTOOLS®

WCT-700 Underground Wire Tracer & Circuit Finder

ALL-IN-ONE
Cable Tracing Solution!

✓ **7 Signal Models**
✓ **3 Signal Strengths**

7 ft

CODE 5 LEVEL

WCT-700

START STOP

Trace a 1000 Ft. Long Cable Up To 7 ft Underground Within a 6" Radius!

(Works on Live Or Dead Wires)

MADE FOR LIFE
GUARANTEED FOR LIFE

Underground Wire Tracer and Circuit Finder - WCT-700

Perfect for tracing cables up to 7' underground, locating breaks, or tracing a circuit back to the breaker; the **WCT-700** is an all in one solution for any cable tracing task.

- Trace a cable up to 7' underground and 1000' long
- Manually adjustable sensitivity allows finding a cable down to 6" radius
- Dual backlit LCD screens with both audible and visual signal strength readouts make finding wires and and cables a breeze.
- Works on live or dead wires, with a CAT3 600V rating and a live voltage readout
- 7 signal modes and 3 signal strengths make locating breaks fast and easy

WCT-700

GFCI Outlet Tester - GFC-1

The GFCI Tester detects the most common wiring problems in standard and GFCI receptacles.

- Works on GFCI outlets and confirms operation of the ground fault protective device
- Durable, hard shell built to withstand a 6.6-foot (2m) drop
- Nominal Voltage: 110/125V AC at 50/60Hz in 3-wire outlet
- Easy to read lights make determining faults a breeze
- Built in GFCI trip tests outlet protection

GFC-1

Circuit Breaker Finder w/ GFCI Tester - CBF-100

Perfect for tracing outlets back to the breaker, identifying wiring errors, and testing GFCI outlets; the **CBF-100** is an all-in-one solution for any troubleshooting task.

- Trace an outlet back to its individual breaker.
- Manually adjustable sensitivity allows finding a breaker quick and easy
- Easy to read lights make determining faults a breeze
- Durable, hard shell built to withstand a 6.6-foot (2m) drop
- Nominal Voltage: 110/125V AC at 50/60Hz in 3-wire outlet
- Works on GFCI outlets and confirms operation of the ground fault protective device

CBF-100

Non-Contact Dual Range Voltage Detector Pen, 24-1000VAC & 90-1000VAC w/ LED Flashlight - VT-1100

Designed to identify the presence of AC voltage in outlets, switches, circuit breakers, fuses, wires, and cables, this voltage tester is the perfect tool for verifying low and high voltage in live circuits.

- Low Voltage Detection between 24 to 1000 VAC
- High Voltage Detection between 90 to 1000 VAC

VT-1100

Insulated Tools & Kits

Perfect for Tech Professionals and Electricians, these pliers and screwdrivers are tested to 10,000 VAC and rate to 1,000 VAC live use. They are VDE approved, made from 60 CRV (chrome vanadium steel) for strength and durability and insulated to IEC 60900 Standards. Lifetime mechanical warranty and one year insulation warranty.

Insulated 7 Piece Screwdriver Kit - TK-70INS

Jonard's 7 Piece Insulated Screwdriver Kit is the perfect kit for tech professionals and electricians. It contains 7 screwdrivers: 3 Phillips Head and 4 Cabinet Slotted Head screwdrivers, all packaged in a convenient rugged tool case.

TK-70INS

Kit includes:
- **INS-180** Phillips Insulated Screwdriver, #1 x 3"
- **INS-2100** Phillips Insulated Screwdriver, #2 x 4"
- **INS-3150** Phillips Insulated Screwdriver, #3 x 6"
- **INS-4100** Cabinet Slotted Insulated Screwdriver, 5/32" x 4"
- **INS-475** Cabinet Slotted Insulated Screwdriver, 1/8" x 3"
- **INS-6150** Cabinet Slotted Insulated Screwdriver, 1/4" x 6"
- **INS-8175** Cabinet Slotted Insulated Screwdriver, 5/16" x 7"
- **TKC-70** Rugged 7 Pocket Tool Case

INS-8175 INS-3150 INS-6150 INS-2100 INS-4100 INS-180 INS-475

Insulated Screwdrivers

Jonard's Insulated Screwdrivers are made of heat treated chrome vanadium steel with a black oxide finish for maximum strength and durability. They are insulated to keep you safe from potentially hazardous voltages. These screwdrivers feature the following:

- Meets and exceeds IEC 60900, ASTM F1505-01, and VDE standards for high voltage protection
- Tested to 10,000 VAC and rated to 1,000 VAC live use
- Ergonomic dual-colored TPE cushion grip handle provides greater comfort and torque
- Narrow insulated shaft provides access in hard-to-reach locations
- Black oxide finished magnetic tip to prevent corrosion and magnetized to hold fasteners for easy removal and installation

Insulated 11 Piece Tool Kit - TK-110INS

TK-110INS

Jonard's 11 Piece Insulated Tool Kit is the perfect kit for tech professionals and electricians. It contains 11 tools: 7 screwdrivers, 3 pliers, and 1 wire stripper, all packaged in a convenient rugged tool case. These tools are made of heat treated chrome vanadium steel for maximum strength and durability. The tools tested to 10,000 VAC andrated to 1,000 VAC live use.

Kit includes:
- **INP-1072** Insulated Lineman's Combo Pliers, 7 1/2"
- **INP-2065** Insulated Long Nose Pliers, 6 1/2"
- **INP-3062** Insulated Diagonal Pliers, 6 1/4"
- **INP-4065** Insulated Wire Stripper, 6 1/2"
- **INS-180** Phillips Insulated Screwdriver, #1 x 3"
- **INS-2100** Phillips Insulated Screwdriver, #2 x 4"
- **INS-3150** Phillips Insulated Screwdriver, #3 x 6"
- **INS-4100** Cabinet Slotted Insulated Screwdriver, 5/32" x 4"

- **INS-8175** Cabinet Slotted Insulated Screwdriver, 5/16" x 7"
- **TKC-110** Rugged 11 Pocket Tool Case
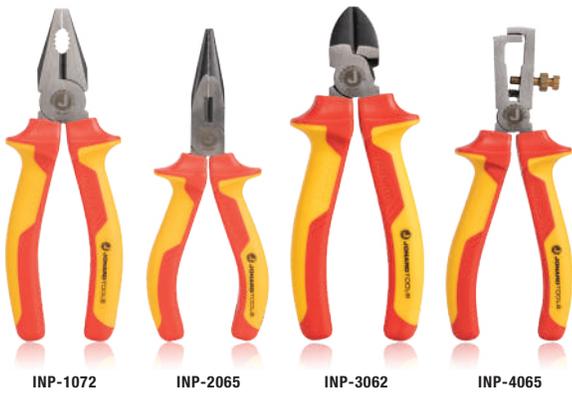

Insulated Pliers & Wire Stripper

Jonard's Insulated Pliers and Wire Stripper are made of chrome vanadium steel with induction hardened cutting edges and are heat treated for maximum strength and durability. These tools feature the following:

- Induction hardened cutting edges
- High leverage design enables superior cutting performance
- Guards are integrated into the soft TPE handles to prevent contact with conductive parts
- The **INP-4065** Wire Stripper works on various types of wire (single conductor or stranded) from 8-30 AWG

Insulated Fuse Puller - FP-600INS

FP-600INS

Jonard's Fuse Pullers are made of heat treated chrome vanadium steel for maximum strength and durability and feature the following:

- Knurled jaws allow fuses to be removed without being damaged
- Fully insulated grips are VDE approved to IEC 60900 standards up to 1000V

Overall Length: 6-3/4" (171 mm)

ELECTRICAL

Insulated 19 Piece Metric Socket Set - INSS-19M

The **INSS-19M** Insulated Socket Set features 15 sockets (6-20 mm), 3 extensions, and a 72-tooth ratchet designed to meet the needs of any application. Rigorously tested for protection up to 1000V with dual color insulation for confident protection. This product features the following:

INSS-19M

- Fully insulated and built for professionals, every component is tested and certified according to DIN EN 60900 (VDE 0682-201):2013-04; EN 60900:2012 standards (Certificate No. 40032700 by the VDE Testing and Certification Institute, 2023)
- Sockets and extensions are manufactured from chrome vanadium and then coated twice to ensure long-life
- Deluxe, laminated foam, and blow molded polyethylene storage case ensures VDE tools stay, organized and protected
- High contrast marking for easy identification
- Dual color injection molded insulation provides easy identification when insulation is compromised

Kit includes:
- **1 Ratchet** Fully insulated 72-tooth 3/8" drive ratchet with quick release
- **3 Extensions** 3", 6" and 10"
- **15 Sockets** Sizes: 6-20 mm

UTILITY (VOLTLIFE™)

Jonard Tools is leading the charge in modernizing utility tools. Across our line, we're building the future of the trade with tools that are stronger, more precise, and made to last. For years, we've worked to design tools that defy the toughest expectations. The UTST-1860 600V–35kV Utility Cable Jacket and Insulation Stripper is one example of how tools should raise the standard of utility work. It's complete with an ergonomic design and features a SOP bar, handle, and hard-shell case - the ultimate all-in-one solution.

CONTENTS

UTST-1860 – UTILITY CABLE JACKET AND INSULATION STRIPPER, PG. 126

VOLT⚡LIFE™
Next Gen. Line Strong.

UTST-1860

UTILITY CABLE JACKET AND INSULATION STRIPPER

Wide Cable Range
Adjustable from 0.5" to 2.5" Diameter

Why it Stands Out:

ADJUSTABLE BLADE DEPTH
Ensures precise, controlled insulation removal every time

USER-FRIENDLY
Toggles between ring and spiral cuts instantly for efficiency

INTUITIVE DESIGN
Removable handle & strip stop rod for tight spaces and consistent strip lengths

LIGHTWEIGHT & DURABLE
Minimizes fatigue while built to withstand demanding job sites

Why it's Superior:

- A single tool to handle different cable sizes and insulation types.
- Versatile removal methods for precision and flexibility.
- Stable & ergonomic removable handle and strip stop provide firm positioning and reduce fatigue.
- Lifetime Warranty

FIND OUT MORE
THE UTST-1860

UTIC-1632

CABLE INSULATION CHAMFERING TOOL

Fits Cables from 0.65" to 1.875" (16.5 to 47.6 mm) in Diameter
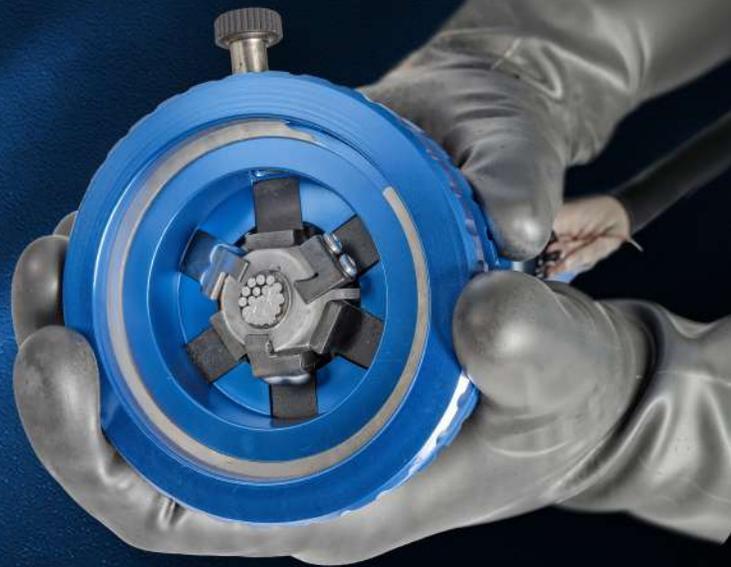

Why it Stands Out:

PRECISION CHAMFERING
Consistently clean 45° bevels, reducing insulation or conductor damage

THREE-BLADE DESIGN
Improves stability and efficiency, producing uniform chamfers without slippage

EASY MAINTENANCE
Easy blade adjustment and replacement without requiring specialized tools

DURABLE MATERIALS
Blue anodized housing and black oxide-coated blades for long-term performance

Why it's Superior:

- **Multiple Blades:** More cutting edges for faster, cleaner stripping.
- **Handles a wide variety of cables** without tool changes.
- **Compact Design:** Easy to handle and maneuver in tight spaces.
- **Lifetime Warranty**

UTSS-1641

MEDIUM VOLTAGE UTILITY CABLE SEMICON STRIPPER

Fits Cables from 0.63" to 1.161" (16 to 41 mm) in Diameter

FIND OUT **MORE** THE UTSS-1641

VOLT LIFE

Why it Stands Out:

PRECISION BLADE DEPTH
Ensures accurate, controlled stripping for consistent results.

VERSATILE CUTTING
Performs longitudinal, radial, and spiral cuts for flexible stripping

VICE-LIKE GRIP
Spring-loaded system provides firm positioning, control, and alignment

COMPACT & ERGONOMIC
Optimized for ease of use in medium-voltage applications without excessive fatigue

Why it's Superior:

- Works across wide range of cable sizes, no extra tools needed.
- Ultimate Precision: 0.003" adjustable blade with spring-loaded grip.
- Mid-span, end-strip, multiple removal methods in one tool.
- Lifetime Warranty

UTQC-1263

UTILITY CABLE QUICK CLAMP

Fits Cables from 0.5" to 2.5" (12.7 to 63.5 mm) in Diameter

FIND OUT MORE
THE UTQC-1263

Why it Stands Out:

ADJUSTABLE CLAMP
Secure and reliable hold for consistent results

QUICK SETUP & RELEASE
Fast attachment, adjustment, and removal for efficiency

ERGONOMIC HANDLE
Comfortable grip reduces hand strain during repetitive use

RUGGED CONSTRUCTION
Durable anodized aluminum for long-lasting performance

Why it's Superior:

- Accommodates more cable sizes and setups than similar tools.
- Adjustable placement allows faster, more precise operation.
- Ergonomic handle reduces strain during long jobs, with durable anodized blue finish for visibility and long-lasting performance.
- Lifetime Warranty

RLW-1

HIGH LEVERAGE RATCHETING LINEMAN'S WRENCH

Compatible with 3/4", 1", 1-1/8" square hardware

FIND OUT **MORE** THE RLW-1

Why it Stands Out:

2-IN-1 TOOL
Combines a claw hammer and ratcheting wrench to cut tool load

FASTER WORK
Bolt-through design and quick-reverse ratchet saves time on installs

FOR COMFORT & LEVERAGE
Handle delivers ergonomic comfort grip & extra torque

SECURE STRIKES
Milled hammer face grips hardware, even in wet conditions

Why it's Superior:

- Bolt-through, claw end, and hammer face, all in one.
- Full wrap-around, dual-material comfort handle with high leverage.
- Time Saver: No need to switch between multiple tools.
- Lifetime Warranty

RLW-6

6-IN-1 RATCHETING LINEMAN'S WRENCH

Compatible with 3/4", 13/16", 1", 1-1/8" square hardware and 9/16" and 3/4" 12 pt. hex hardware

FIND OUT MORE
THE RLW-6

Why it Stands Out:

HIGH-LEVERAGE HANDLE
Ergonomic comfort grip provides extra torque for heavy-duty applications

INTEGRATED HAMMER
Built-in striking surface for seating hardware without carrying a separate hammer

DURABLE CONSTRUCTION
Forged high-carbon steel with chrome finish resists wear and corrosion

MULTI-FUNCTIONAL
Works with both square and hex hardware, reducing the need to switch tools

Why it's Superior:

- Handles more hardware sizes with built-in hammer and bolt-through design.
- Wrap-around comfort grip with high leverage makes overhead work easier.
- Forged steel construction for outdoor conditions.
- Lifetime Warranty

MADE FOR LIFE®

UTILITY

600V 35kV Utility Cable Jacket and Insulation Stripper - UTST-1860

UTST-1860

The **UTST-1860** is the ultimate adjustable stripping solution for utility professionals, engineered with precision, durability, and safety at its core. Designed for both mid-span and end stripping jackets and insulation on primary and secondary utility cables, this tool eliminates guesswork, increases efficiency, and replaces outdated methods with confidence.

Includes: Utility Cable Jacket and Insulation Stripper, Removable Handle, Removable Strip Stop Bar, and Hard Case

Medium Voltage Utility Cable Semicon Stripper - UTSS-1641

UTSS-1641

Designed for precision and ease of use, the **UTSS-1641** Cable Stripper is the ideal tool for stripping the peelable semiconductive layer of medium voltage (MV) cables. With the ability to perform longitudinal, radial, and spiral cuts, this tool ensures clean and accurate stripping while maintaining the integrity of the underlying insulation.

- Suitable for cables with diameters from Ø 16-41 mm and insulation thicknesses up to 2 mm
- Allows for longitudinal, helical, and circular cuts for versatility in stripping applications

Utility Cable Insulation Chamfering Tool - UTIC-1632

UTIC-1632

The Jonard Tools **UTIC-1632** is engineered to be the ultimate tool for ease and safety when chamfering high voltage cable insulation. Featuring a blue anodized surface for increased durability, this tool incorporates a three-blade design to improve chamfering efficiency.

- Uses three specially designed blades for efficient chamfering, improving tool performance and stability
- Easily adjusts to fit cables from 0.65" to 1.875" (16.5 to 47.6 mm) in diameter for chamfering the XLPE insulation
- Includes features like an easy blade adjustment and replacement mechanism to maintain sharpness and efficiency without the need for specialized tools

Utility Cable Quick Clamp - UTQC-1263

UTQC-1263

The Jonard Tools **UTQC-1263** allows for quick and precise clamping on high voltage electrical cables from 1/2" to 2-1/2" in diameter. Made of corrosion resistant anodized aluminum, and oxide treated steel, it acts as a reliable clamp for stop cuts with our **UTSS-1641**.

- Adjustable clamp prevents over-stripping and ensures consistent results
- Easily attaches and releases for efficient setup, adjustments, and removal during cable preparation
- Its compact size make it easy to carry and use in tight spaces, enhancing its usability on various job sites

SALES@JONARD.COM | **126**

High Leverage Ratcheting Lineman's Wrench - RLW-1

The **RLW-1** is built for common square utility hardware, combining a high-leverage ratcheting design with a milled head hammer and integrated claw for prying nails and staples. This all-in-one tool reduces your tool load and boosts efficiency for overhead utility work and pole line construction.

RLW-1

6-in-1 High Leverage Ratcheting Lineman's Wrench – RLW-6

The **RLW-6** is a versatile all-in-one tool designed for overhead utility work, pole line construction, and maintenance tasks. Its design allows professionals to reduce tool load while improving efficiency. Directional switches enable quick and easy reversal of ratcheting direction and built-in hammer provides a striking surface for seating hardware or components into place.

RLW-6

Longitudinal Ratcheting Cable Sheath Slitter - RCS-4

Designed for fast and efficient dismantling of electrical and fiber cables, this ratcheting cable slitter is the perfect tool for slitting open round cables less than 0.98" (25 mm) in diameter.

Includes: Ratcheting Cable Slitter, Electrical Cable Guide, Fiber Cable Guide, Hex Key, and Carrying Case

RCS-4

Ratcheting Duct and Cable Slitters

These ratcheting cable slitters are designed to dismantle heavy-duty cables. The **RCS-25** and **RCS-30** both slit and ring round cables greater than 1" (25 mm) in diameter, and the **RCS-30** can also be used to make window cuts in ducts up to 5 mm thick.

SPECS	RCS-25	RCS-30

Ratcheting Slitter Comparison

Submariner Cable & Large Duct Slitter - RCS-50

Designed to open the toughest heavy-duty cable and duct jackets, this Cable & Large Duct Slitter is perfect for performing radial and longitudinal cuts on submariner cables, large fiber ducts, or large count telephone cables.

Replacement Blade: **RCS-50RB**

RCS-50

CableSaber™ Armored Strip & Ring - AST-200

The award winning **CableSaber**™ is the ultimate tool for gaining mid-span access to armored or thick jacketed cables 4 mm to 28.6 mm (0.157" to 1.125") in diameter.

Replacement Blades (Pack of 2): **AST-200RB**

AST-200

CableSaber+™ Armored Cable & Fiber Duct Slitter - AST-210

The Jonard Tools **CableSaber+**™ is the ultimate tool for gaining mid-span access to armored or thick jacketed cables 4 mm to 30.0 mm (0.157" to 1.181") in diameter.

Replacement Blades (Pack of 2): **AST-210RB**

AST-210

Round Cable Strip & Ring Tools

The **PATENTED CST-1900** and **CST-4000** Round Cable Strip & Ring Tools are designed for fast and precise removal of cable jackets from round cables. Triple action design makes longitudinal cuts for end stripping, spiral cuts for end and mid span stripping, and circular cuts for jacket removal.

SPECS	CST-1900	CST-4000
CUT TYPE	Slit & Ring	Slit & Ring
CABLE DIAMETER	3/16" - 1-1/8" (4.5 mm-29 mm)	3/4" - 1-5/8" (19 mm-40 mm)
QR CODE		

Round Cable Strip & Ring Tool for Cables 4.5-29 mm in Diameter - CST-1140

The **CST-1140** Round Cable Strip & Ring Tool is designed for fast and precise removal of cable jackets from round cables that are 3/16" to 1-1/8" (4.5 mm to 29 mm) in diameter.

Replacement Blades (Pack of 3): **CST-1140RB**

CST-1140

Cable Slit & Ring Tool - JIC-4366

Designed to slit and ring many types of tight buffers, loose tube buffers, breakout cables, and other types of jacketed fiber cables, this tool is perfect for any fiber technician.

JIC-4366

- The slitter blade is located at the top of the tool, has 1/4" of the blade exposed, and is held in place by the 3/4" L-shaped steel guide
- The ringer portion of the tool is located on the back of the handle and uses a spring steel cable holder to hold the cable in place.
- Includes one spare ringing and one spare slitting blade

Replacement Blades for Ring Cut (Pack of 6): **RB-2060/6**
Replacement Blades for Slit Cut (Pack of 6): **RB-2878/6**

UTILITY

Precision Cable Strippers

The **CST-25** is designed to slit and ring hard outer sheathes on cables and plastic tubes, and the **CST-28** is designed to slit and ring cables and plastic tubes. These are the perfect tools for opening cables and ducts.

Flat Nose Pliers - FNP-165

FNP-165

The **FNP-165** is precision-made for working with semi-conductive materials. It features drop-forged high carbon steel jaws that are induction hardened and tempered for strength and long-lasting performance. The wide, smooth nose provides a firm grip and precise control without damaging delicate surfaces. Its extended reach makes it easy to access tight spaces. Ergonomic dual compound thermoplastic handles provide slip resistance and comfort during prolonged use.

9" Curved Jaw Cable Cutter - JIC-63020

JIC-63020

High leverage design for superior cutting ability. The curved jaws provide superior holding for a cleaner and more concentric cut. Tool is for cutting aluminum and soft copper and not for use on steel or ACSR type cables. The shear type jaws cuts up to 100-pair cables (24 AWG). Lock has a unique feature where lock is released by squeezing handles together.

Jaw Length: 1" (25.4 mm), Overall Length: 9" (228 mm)

High Leverage Cable Cutter - JIC-63050

JIC-63050

High leverage design for superior cutting ability. Designed with a shear-type jaw for cutting aluminum and soft copper. Not for use on steel or ACSR type cables. Cuts up to 100-pair cables (24 AWG).

Jaw Length: 1-3/8" (34.93 mm), Overall Length: 9-1/4" (234 mm)

Ratcheting Cable Cutters - RC-500 & RC-600

RC-500

RC-600

These Ratcheting Cable Cutters are designed to cleanly cut copper and aluminum power cables, telecom cables, and other similarly sized multi-conductor cables.

- Made of heat-treated carbon steel with induction-hardened cutting edges for maximum strength and durability
- Unique design allows you to hold and cut cables quickly and easily
- Spring-loaded mechanism on handles for automatic opening
- Ergonomically designed handle with cushioned rubber grip for greater comfort and leverage
- This cable cutter is not designed for use on ACSR or other steel cables

UTILITY

Open Jaw Ratcheting Cable Cutter - RCO-600

The **RCO-600** Open Jaw Ratcheting Cable Cutter is engineered for fast and efficient cutting of large-diameter copper and aluminum cables. Designed with a front-loading open jaw, it provides easy access to cables in tight or confined. The ratcheting mechanism delivers maximum leverage with minimal hand force for smooth and controlled operation.

RCO-600

Ratcheting Cable Cutter - RC-336ACSR

Designed for heavy-duty use, this cable cutter is designed to cut 336 MCM (170 mm²) ACSR, 400 MCM (202 mm²) copper, or 600 MCM (304 mm²) aluminum cables, and most cables up to 30 mm in diameter.

Maximum Cut Capacity: 1-3/4" (4.4 cm), Overall Length: 12" (30.5 cm)

RC-336ACSR

Ergonomic Cable Splicing Knife - KN-7

Designed with an extremely sharp cutlery steel blade, this cable splicing knife is perfect for cutting through some of the strongest types of cables including many types of insulation.

KN-7

- Short 1-3/4" blade with 6-1/4" handle for better control and reduced hand fatigue
- Coping blade is made from high strength cutlery steel and is tempered to maintain its edge with repeated use

Insulated Cable & Duct Sheathing Knife - KN-200INS

Designed with a curved blade and insulated handle, this cable sheathing knife is the perfect tool for slitting or cutting the sheathing off cables without damaging the conductor insulation inside.

KN-200INS

- Ultra sharp, dual-sided blade can cut cable or duct jacket sheath from either side by pushing or pulling the tool through the cable

Insulated Cable Dismantling Knife w/Blade Guard - KN-300INS

Designed with a blade guard and replaceable straight blade, this insulated cable knife is perfect for cutting around jacketed cables without the risk of accidental cuts and nicks.

KN-300INS

- Ultra-sharp stainless steel blades slice through jackets of cables and can be replaced when worn out

MegaShears, Ultimate Cutting Tool - SHM-85

Designed with Japanese Stainless Steel blades, adjustable cutting width and tension control, the **MegaShears** are the ultimate cutting tool. These shears are perfect for electricians, installers, and utility technicians needing clean, powerful cuts across a wide range of materials.

SHM-85

- Adjustable-range cutting capabilities with spring loaded handles for optimized control across a wide range of materials
- Wire cutter notch built into blade to cut wires up to 2mm thick

UTILITY

Electrician's Scissors - ES-1964

Designed for heavy duty use, these electrician's scissors are made of chrome vanadium steel and reinforced with a special hardening process for greater durability and cutting performance.

- One blade has a serrated edge that holds wire in place for cleaner cuts
- Scissor-run design is perfect for cutting Kevlar® and wire
- Scraper and file located on back of blade for convenience

ES-1964

Splicer's Kit - TK-400

Featuring an ergonomic cable splicing knife and electrician's scissors in a comfortable leather pouch, the **TK-400** Splicer's Kit is the perfect compact tool kit for cable splicing needs.

Kit includes:
- **ES-1964** Electrician's Scissors
  Scissor-run design is perfect for cutting Kevlar® and wire
- **H-40** Leather 2 Pocket Tool Pouch
  Leather 2 Pocket Tool Pouch
- **KN-7** Ergonomic Cable Splicing Knife
  Short 1-3/4" blade with 6-1/4" handle for better control

TK-400

Lineman's Side Cut Pliers - JIC-683

Designed for heavy duty use in construction and maintenance work. These pliers are high leverage for cutting bolts, nails, and many gauges of wire including high-strength wire. Cutting edges cut clean and remain sharp. The cushioned-grip, comfortable handles are approximately .07" thick.

Cutter Length: 13/16" (20.64 mm), Overall Length: 9-1/2" (241 mm)

JIC-683

Lineman's Pliers w/ Fish Tape Puller & Crimper - JIC-685

Designed for heavy duty use in construction and maintenance work. These pliers are high leverage for cutting bolts, nails, and many gauges of wire including high-strength wire. Fish tape pulling feature easily pulls 1/8" or 1/4" steel fish tape without damaging the tape. Built in crimper feature works best on non-insulated connectors, lugs and terminals. Cushioned grip, comfortable handles are coated to approximately .07" thick.

JIC-685

High Leverage Diagonal Cutting Pliers, 8" - JIC-2288

Crafted for heavy-duty wire cutting and use for the most demanding applications, precision machined cutting edges provide exceptionally smooth action.

Jaw Length: 7/8" (22.2 mm), Overall Length: 8-1/4" (210 mm)

JIC-2288

UTILITY

High Leverage Diagonal Cutting Pliers, Angled Head, 8" - JIC-2488

Crafted with a 13° angled head for heavy-duty wire cutting in confined spaces. Use for the most demanding applications, precision machined cutting edges provide exceptionally smooth action.

Jaw Length: 13/16" (20.6 mm), Overall Length: 8" (203 mm)

JIC-2488

Telecom Diagonal Cutting Pliers, 6-1/4" - JIC-7858

Tapered nose diagonal cutting pliers with standard bevel knives with .030" and .045" skinning holes, with crusher used for multi-purpose wire work, with two V-shaped stripping notches.

Jaw Length: 7/8" (22.2 mm), Overall Length: 6-1/4" (158 mm)

JIC-7858

Slip Joint Side Cut Pliers - BCOMB

Jonard's slip joint pliers are made of carbon steel with a black phosphate finish and are heat treated for maximum strength and durability. These slip joint pliers feature the following:

BCOMB

- Machined gripping teeth on jaws to provide non-slip grip
- Two jaw positions with smooth, positive interlock between halves for comfort and versatility

Pump Pliers w/ Automatic Adjustment

Designed to automatically adjust to differently sized workpieces, these **PATENTED** pump pliers are perfect for a wide range of applications in telecom, plumbing, automotive work, construction, and more.

SPECS	PPA-7	PPA-10
DESCRIPTION	Pump Pliers with Auto Adjustment	Pump Pliers with Auto Adjustment
MAX JAW OPENING	1.75" (44.5 mm)	2" (50.8 mm)
LENGTH	7" (178 mm)	10" (254 mm)

3 Piece Adjustable Wrench Set - 6", 8", 10" w/ Extra Wide Jaws - AW-6810

AW-6810

Jonard's adjustable wrenches are made of chrome vanadium steel with a chrome plated finish.Forged and heat treated for maximum strength.

- Ergonomically designed vinyl-dipped wide handles for greater comfort
- English and Metric scales on each side of the wrench to allow for faster adjustments

Set includes: AW-6, **AW-8**, and **AW-10** (6", 8" & 10" Adjustable Wrenches with Extra Wide Jaws)

Lineman's B Wrench - JIC-650

JIC-650

Designed with two open-ended wrench heads and an oval hole for turning pole steps, this lineman's wrench is perfect for telecom and datacom work applications.

- Large end of the wrench accommodates 5/8" and 3/4" bolts to NEMA standards
- Small end of the wrench accommodates 3/8" bolts, 1/2" bolts, and 1/2" drive screw heads to NEMA standards

Slotted Screwdrivers

Jonard's Slotted Screwdrivers are made with an S2 steel shank and a chrome finish for exceptional strength and long life.

Phillips Screwdriver, #2 x 4" - SDP-2

Jonard's Phillips Screwdrivers are made with an S2 steel shank with a chrome finish for exceptional strength and long life.

- Internal shank flanges to prevent the handle from slipping
- Black oxide finished tip to prevent corrosion and magnetized to hold fasteners for easy removal and installation
- Ergonomically designed handle for greater comfort and torque

SDP-2

Robertson Screwdriver, #2 x 4"- SDR-24

Jonard's Robertson Screwdrivers are made with an S2 steel shank with a chrome finish for exceptional strength and long life.

- Internal shank flanges to prevent the handle from slipping
- Black oxide finished tip to prevent corrosion and magnetized to hold fasteners for easy removal and installation
- Ergonomically designed handle for greater comfort and torque

SDR-24

UTILITY

Insulated Screwdrivers

Jonard's Insulated Screwdrivers are made of heat treated chrome vanadium steel with a black oxide finish for maximum strength and durability. They are insulated to keep you safe from potentially hazardous voltages. These screwdrivers feature the following:

- Meets and exceeds IEC 60900, ASTM F1505-01, and VDE standards for high voltage protection
- Tested to 10,000 VAC and rated to 1,000 VAC live use
- Ergonomic dual-colored TPE cushion grip handle provides greater comfort and torque
- Narrow insulated shaft provides access in hard-to-reach locations
- Black oxide finished magnetic tip to prevent corrosion and magnetized to hold fasteners for easy removal and installation

QR CODE				

Insulated Lineman's Combo Pliers, 7-1/2"- INP-1072

Jonard's Insulated Pliers are made of chrome vanadium steel with induction hardened cutting edges and are heat treated for maximum strength and durability.

INP-1072

- High leverage design enables superior cutting performance
- Guards are integrated into the soft TPE handles to prevent contact with conductive parts

Insulated 7 Piece Screwdriver Kit - TK-70INS

Jonard's 7 Piece Insulated Screwdriver Kit is the perfect kit for electricians and tech professionals, all packaged in a convenient rugged tool case.

TK-70INS

Kit includes:
- **INS-180** Phillips Insulated Screwdriver, #1 x 3"
- **INS-2100** Phillips Insulated Screwdriver, #2 x 4"
- **INS-3150** Phillips Insulated Screwdriver, #3 x 6"
- **INS-4100** Cabinet Slotted Insulated Screwdriver, 5/32" x 4"
- **INS-475** Cabinet Slotted Insulated Screwdriver, 1/8" x 3"
- **INS-6150** Cabinet Slotted Insulated Screwdriver, 1/4" x 6"
- **INS-8175** Cabinet Slotted Insulated Screwdriver, 5/16" x 7"
- **TKC-70** Rugged 7 Pocket Tool Case

Insulated 11 Piece Tool Kit - TK-110INS

Perfect for tech professionals and electricians. It contains 11 tools all packaged in a convenient rugged tool case. These tools are made of heat treated chrome vanadium steel for maximum strength and durability. Tested to 10,000 VAC and rated to 1,000 VAC live use.

TK-110INS

Kit includes:
- **INP-1072** Insulated Lineman's Combo Pliers, 7-1/2"
- **INP-2065** Insulated Long Nose Pliers, 6-1/2"
- **INP-3062** Insulated Diagonal Pliers, 6-1/4"
- **INP-4065** Insulated Wire Stripper, 6-1/2"
- **INS-180** Phillips Insulated Screwdriver, #1 x 3"
- **INS-2100** Phillips Insulated Screwdriver, #2 x 4"
- **INS-3150** Phillips Insulated Screwdriver, #3 x 6"
- **INS-4100** Cabinet Slotted Insulated Screwdriver, 5/32" x 4"
- **INS-475** Cabinet Slotted Insulated Screwdriver, 1/8" x 3"
- **INS-6150** Cabinet Slotted Insulated Screwdriver, 1/4" x 6"
- **INS-8175** Cabinet Slotted Insulated Screwdriver, 5/16" x 7"
- **TKC-110** Rugged 11 Pocket Tool Case

PRODUCT of the Year

Mammoth Insta-Lock Tape Measure, 25' - TM-25

Designed with high impact housing and a convenient auto-locking mechanism, this tape measure is perfect for any jobsite. The high impact housing protects it from falls and other damage, while the auto-locking mechanism automatically holds the blade in place.

TM-25

- 25 feet of reach to get measurements from far distances
- 1" wide blade makes this great for hard-to-reach places
- Convenient belt clip for on-the-go use

Solis™ Rechargeable Tactical Flashlight - SOL-F1

Jonard's answer to darkness comes in this sleek, versatile, and compact powerhouse! Delivering a piercing beam of light from its ruggedly engineered housing, this is the tactical flashlight that will have you bidding farewell to traditional flashlights forever!

- Zoomable head design allows for adjustable beam intensity, for various lighting needs
- At full zoom a crosshair indicator appears for perfect sighting

SOL-F1

Solis™ Rechargeable LED Flex Headlight - SOL-H1

Crafted with top-grade silicone, the **SOL-H1** is the epitome of flexibility. With the ability to be operated completely hands free, this multi-functional headlamp illuminates a new path in personal lighting. Ths headlight also features the following:

- Dual functionality with wide beam and spotlight features
- The wide beam of the **SOL-H1** illuminates in a wide, 230° beam angle for extreme visibility and coverage

SOL-H1

Solis™ Ultra Bright Jobsite LED Headlamp - SOL-H2

Setting the standard for jobsite hands-free lighting, Jonard Tools' **SOL-H2** redefines versatility and comfort. It does its job reliably so you can do yours better. This flashlight features the following:

- Once activated, a motion sensor can turn the light on or off by simply waving your hand in front of it
- Ultra-bright LEDs provide up to 300 lm of brightness, illuminating even the darkest locations

SOL-H2

Solis™ Utility Truck Light - SOL-T1

This remote-controlled LED truck light with built-in rechargeable Li-ion battery is a rugged and versatile lighting solution ideal for vehicles, utility crews, emergency response, and outdoor job sites.

- 4800 lumens of ultra-bright illumination, with optional flashing strobe
- Remote-controlled 360° rotation and 120° tilt for flexible positioning
- On-Demand Power Technology enables simultaneous use and charging with included vehicle and home power adapters.
- Versatile installation options with an integrated magnetic base for temporary placement, bolt-on slots for permanent mounting, and a foldable handle for easy carrying and setup

SOL-T1

Solis™ Rechargeable 360° Pivoting Worklight - SOL-W1

The **SOL-W1** is built to withstand the toughest job in the worst conditions, as well as the daily wear and tear of demanding tasks. With a multitude of features this work light's application spans construction sites, automotive repairs,or outdoor projects, and so much more.

- Powerful 400 lumens of brightness
- 180° adjustable base for flexible positioning and optimal lighting angles
- 360° rotating head for complete control and light coverage

SOL-W1

TOOL BAGS & POUCHES

Technician's Tool Bag Backpack - BP-100

Jonard Tools' Technician's Tool Bag Backpack features 36 organizer pockets and 12 pocket straps to hold all your tools in place, with a durable water-resistant base to protect it from the elements. It also includes a padded laptop pocket and a hard, molded front pocket for delicate items like safety glasses, plus a front zipper compartment for loose parts.

BP-100

- Hard, molded front pouch protects safety glasses or other delicate items
- 20" high bag provides ample room for long screwdrivers and tools
- Dimensions: 20" x 14.5" x 8"

Rugged 21 Pocket Tool Case - H-90

The **H-90** is a rugged and versatile 21-pocket tool case with a removable top, made from special heavy-duty material for greater durability and long life.

H-90

- Reinforced with a tough, thick backing material to maintain its shape – even when loaded with tools
- Sturdy metal handle with a cushion grip and ergonomic design for easy carrying. Handle also rotates for easy access to tools inside
- Dimensions: 11" x 8" x 10"

12 Pocket Tool Pouch w/ Tape Sling - H-120

The easiest way to hold everything you need within arm's reach, this rugged nylon tool pouch is designed to be the first thing you grab on your way to a job.

H-120

- 12 versatile pockets including 1 zippered, 1 side pocket and 9 tool organizers inside 1 large pocket
- Rugged metal rivet belt loop for long lasting use
- Steel measuring tape mount for easy access
- Zippered front pouch for storing connectors or small parts
- Dimensions: 10" x 6.5" x 3.8"

TOOL BAGS & POUCHES
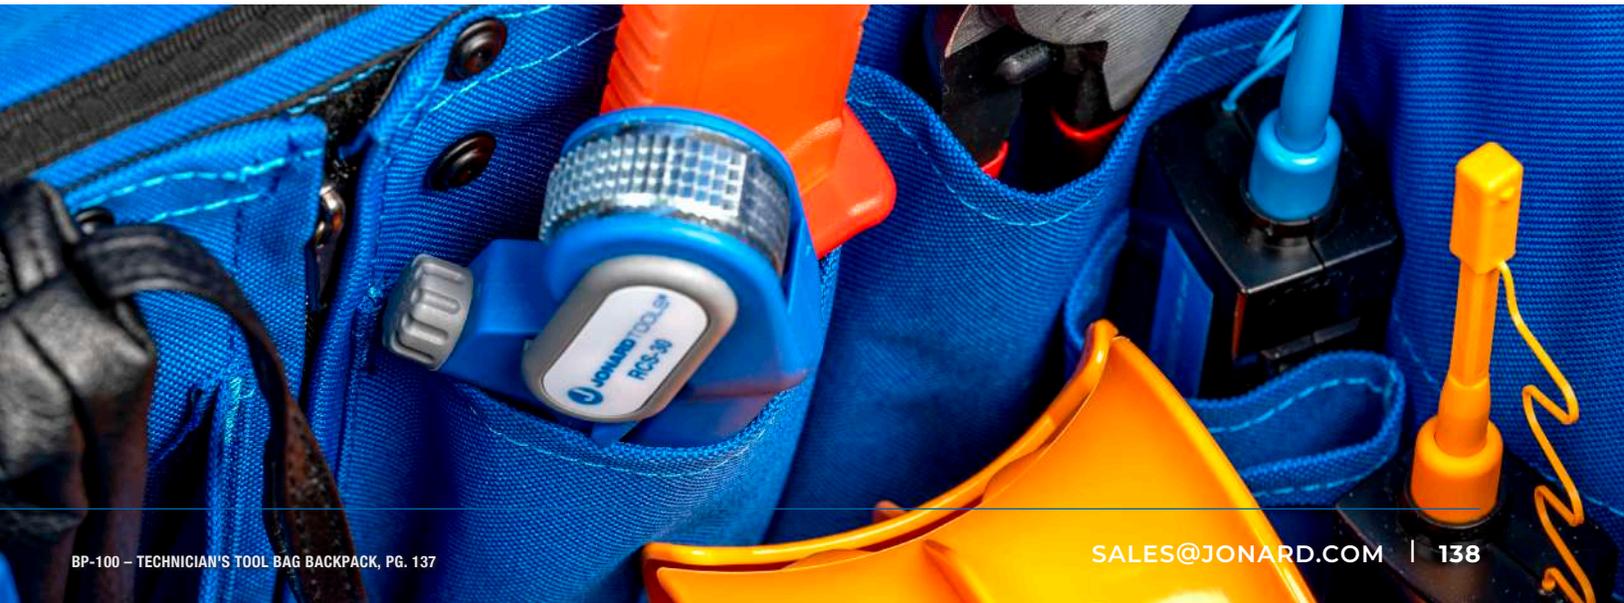

NETWORK & SECURITY TOOLS (LOW VOLTAGE)

Telecom is the transfer of data through electromagnetic signals while networking is connecting devices to one main system. In both methods of communication cabling tools are critical to ensure devices transmit signals properly and bring us television, radio telephone, internet, and more.

CONTENTS

UG-4569 – MODULAR CRIMPING TOOL, PG. 142

Pass-Through Connectors

The Jonard Tools RJ45 Pass-Through Connectors are used by network installers/ technicians in order to terminate network cables with a pass-through crimper. They are used in households and businesses and are ideal for terminating a round network cable or even replacing an existing connector. These connectors feature the following:

- 50 µin gold plating on contact surfaces provides greater signal quality than the competition
- Simplify twisted pair network cable termination by allowing the proper wire sequence to pass through the connector for easier viewing
- Advantage of the pass-through feature is that you do not have to measure and cut the wires before termination, which can lead to having poor connection and signal loss
- Clear housing allows the operator to see the wire pairs easily

RJ11 Pass-Through Connectors (Pack of 100) - RJ11-100

RJ11-100

The Jonard Tools RJ11 Pass-Through Connectors are used by network installers/technicians in order to terminate telephone cables with a pass-through crimper. They are used in households and businesses and are ideal for terminating flat or round telephone cable or even replacing an existing connector (CAT3 or other similar).

- 50 µin gold plating on contact surfaces provides greater signal quality than the competition
- Standard two point prongs allow you to use stranded or solid CAT3 cables
- Simplify twisted pair network cable termination by allowing the wires to pass through the connector

Shielded RJ45 Connector w/ Crimp Tail for CAT6A Cable (Pack of 100) - RJ456A-SC

RJ456A-SC

The Jonard Tools CAT6A RJ45 Pass-Through Connectors are used by network installers/technicians in order to terminate CAT6E, CAT6A, and CAT7A network cables with a pass-through crimper.

- 50 µin gold plating on contact surfaces provides greater signal quality

RJ45 & RJ11/12 Modular Pass-Through Crimper w/ Tail Crimping Slots - UC-4511

UC-4511

Designed to crimp RJ11/12 and RJ45 Pass-Through Connectors with additional crimping slots for shielded connector tails, this crimping tool is perfect for any network technician working with CAT3, CAT5, CAT5E, CAT6, or CAT6A cables.

Replacement Blade Set: **UC-4511RB**

NETWORK & SECURITY

FIND FAULTS FAST

UP TO 1,312 ft

TDR-100
Network Cable Tester and TDR
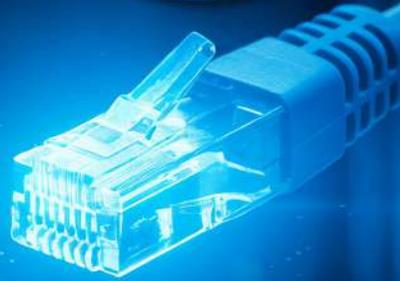

Quickly find faults, measure cable length, and verify wire mapping with TDR and built-in tracing

364.0 ft

Includes: Tester, TDR Probe, RJ45 Adapter, Carrying Case, (6) AAA Batteries

Nail Every Connection
Verifies wire mapping: opens, shorts, miswires & reverses

Locate With Precision
Built-in tone generator and probe for cable tracing

See Things Clearly
Bright 2.5" color LCD and probe flashlight for dark areas

6-in-1 Crimping Tool, RJ45 Pass-Through & RJ11/12 Modular - UC-4569

UC-4569

Designed to crimp RJ11/12 and RJ45 connectors onto CAT3, CAT5/5E, and CAT6 cables, this pass-through connector crimper is perfect for any network installer. This crimper features the following:

- Easily crimps pass-through RJ45 connectors without any measuring needed
- Crimps 4, 6, and 8 position modular connectors (RJ11/12 and RJ45)
- Cleanly trims the wires flush to the end face of pass-through RJ45 connectors
- Intended for use with 28-22 AWG flat/round, solid/stranded telephone and data cables
- Ratcheted, ultra-stable platform for consistent terminations

Replacement Blade Set (Pack of 6): **UC-4569RB**

Modular 6-in-1 Crimping Tool - UC-864

UC-864

Designed for cutting, stripping, and crimping RJ11, RJ12, RJ22, and RJ45 connectors onto CAT3, CAT5/5E, and CAT6 cables, this connector crimper is perfect for any network installer.

- Ratcheted, ultra-stable platform for consistent terminations with low hand force
- Tool includes built-in jacket strippers for round and flat cables 22-28 AWG (0.32-0.64 mm diameter)
- 2 crimping slots: one for 8 position modular connectors and one for 6 and 4 position modular connectors

Cable Parameters: 22-28 AWG (0.32 mm-0.64 mm diameter) flat or round, solid or stranded, telephone or data

CAT/TP Cable Stripper - CSR-56

CSR-56

The Jonard Tools **CSR-56** CAT/TP stripping tool is designed to strip CAT5/5E, CAT6, and other similar sized twisted pair cables jackets for quick and easy termination. This CAT/TP stripping tool features the following:

- Removes jacket from CAT5, CAT5E, and CAT6 network cables
- Compact design is great for on-the-go use
- Large finger loop provides smooth rotation during use
- Ergonomic handles make loading cable quick & easy

Solderless Ring/Lug Terminal Kit w/ Crimper - TCK-178X

TCK-178X

The Jonard Tools Solderless Ring/Lug Terminal Kit with Crimper is perfect for any technician or DIYer who needs to terminate electrical wires. This kit features the following:

- Includes a variety of insulated ring, fork, and spade terminals as well as butt splices for 10-22 AWG electrical wires.

Kit includes:
- **TCC-1416** Electric Lug and Terminal Crimper
- **TCK-178** Solderless Ring and Lug Terminal Kit, 178 Pcs.

NETWORK & SECURITY

Solderless Ring and Lug Terminal Kit, 178 Pcs. - TCK-178

The Jonard Tools Terminal Ring and Lug Kit is perfect for any technician or DIYer who needs to terminate electrical wires. These connectors feature the following:

- Includes a variety of insulated ring, fork, and spade terminals as well as butt splices for 10 - 22 AWG electrical wires

TCK-178

Connector-Crimper Pliers - JIC-891

Jonard's pliers are made of heat treated carbon steel with induction-hardened cutting edges for maximum strength and durability.

- Designed to press UR/UY/UG, 709 series connectors, crimping "B" type connectors, and AMP Tel-Splice connectors

JIC-891

Combo Crimper, Long Nose Pliers - JIC-22148

Jonard's long nose pliers are made of heat treated chrome vanadium steel with induction-hardened cutting edges for maximum strength and durability.

- 5-in-1 Tool: crimper for UR/UY/UG, AMP Tel-Splice connectors, 709 series connectors, crimping "B" type connectors, and long nose pliers

JIC-22148

Telephone Splice Connector Kit - TK-U3

Designed for stripping, splicing, and crimping telephone connectors, the **TK-U3** Telephone Splice Connector Kit is the ideal compact tool kit for telephone installers and technicians.

Kit includes:
- **JIC-22148** Combo Crimper, Long Nose Pliers
- **UR-25** UR 3-Port Telephone Splice Connector (Pack of 25)
- **UY2-25** UY2 2-Port Telephone Splice Connector (Pack of 25)

TK-U3

UR 3-Port Telephone Splice Connector (Pack of 25) - UR-25

Designed to splice three wires together quickly and easily, these splice connectors are perfect for splicing 19-26 AWG (0.91 to 0.40 mm) telephone wires.

UR-25

UY2 2-Port Telephone Splice Connector (Pack of 25) - UY2-25

Designed to splice two wires together quickly and easily, these splice connectors are perfect for splicing 22-26 AWG (0.64 to 0.40 mm) telephone wires.

UY2-25

Picabond Crimping Tool - PIC-G

This VS-3 style hand tool is designed to crimp various AMP Picabond connectors onto 19-28 AWG wires.

- Compatible with AMP Picabond Connectors with the following stripe colors: Orange, Green, Purple, Green/Amber, Purple/Amber, Red, and Yellow

PIC-G

Picabond Crimping Tool, MR-1 - PIC-MR1

This vise-style MR1 hand tool is designed to crimp various AMP Picabond connectors onto 19-28 AWG wires.

Repair Kit: **MR1-RK**
Includes (2) Replacement Guides, (2) Replacement Wire Supports, (4) Screws, and (1) 3/32" hex key

PIC-MR1

Picabond Connector, Green, (Box of 1000) - PAB-CG

Designed for splicing multi-conductor telephone cable, these connectors provide a lightweight and compact solution for splicing solid core wire.

- Made from tin-plated bronze with bonded polymer insulation for superior splicing and connectivity
- Can be used with any solid core wire, 28-19 AWG (0.32 to 0.9 mm), with pulp, paper or plastic insulation
- Can be used to make straight, butt, tap and bridge splices

PAB-CG

Picabond Connector, Purple, (Box of 1000) - PAB-CP

Designed for splicing multi-conductor telephone cable, these connectors provide a lightweight and compact solution for splicing solid core wire.

- Made from tin-plated bronze with bonded polymer insulation for superior splicing and connectivity
- Can be used with Air Core PIC's, 26 to 22 AWG (0.40-0.64 mm), with pulp, paper or plastic insulation
- Can be used to make straight, butt, tap and bridge splices

PAB-CP

EPD Series Punchdown Tools & Kits

Sleek ergonomic design for easy effective wire termination. Use to properly set, seat and terminate wire. Compatible with all our EPB-series blades and other similar brands (sold separately).

- Hi/Lo impact settings
- Combination Hook/Spudger stored in the chassis
- Color coded body is half yellow and half blue for ease of use
- Enlarged blade storage compartment for easy storage
- Tested up to 100,000 cycles at high impact setting, ensuring long life during use
- Lifetime Warranty

BIX Punchdown Tool - EP-16A

Designed to terminate cables, pigtails, and jumper wires, this punchdown tool is perfect for use on all BIX, GigaBIX, and UMOXS cross-connect system connectors. This punchdown tool features the following:

EP-16A

- Single action and spring activated for ease of use
- Terminates 22-26 AWG plastic insulated solid copper conductor wires

Multi-Pair Punchdown Tool for 4 Pair Wire Seating - MPD-4

Designed to terminate 4 pairs of wires simultaneously, this punchdown tool is perfect for terminating multiple wires on 110-terminal blocks quickly and easily.

MPD-4

Replacement Blade: **MPD-4RB**

Non Impact Punchdown Tool, 110 Blade w/ Cutter - PD-110

Designed as an economical option for seating and trimming wire in 110 type punchdown blocks, the **PD-110** is perfect for small do-it-yourself jobs on 110-terminal blocks.

PD-110

- 110 blade with cutter trims excess wire when punching down
- Small and lightweight for on-the-go use

Punchdown Tool Kit for Data & Telecom - TK-17

Designed to prepare and connect wire onto 66-type and 110-type punchdown terminal blocks, this punchdown tool kit has the tools needed for maintaining telecom and data communications networks.

TK-17

Kit includes:
- **CST-1i** Cyclops Wire Stripper, can use on UTP/STP Cable
- **EPD-91461** Punchdown Tool with 2 Blades (66 & 110)
- **ES-1964ERG** Ergonomic Electrician's Scissors
- **FL-2000** LED Flashlight with Zoom Lens
- **H-75** Molded 7 Pocket Pouch with Belt Clip
- **JIC-22035** Probe Pick
- **JIC-22148** Combo Crimper, Long Nose Pliers
- **SD-61** Screwdriver Multi-Bit 6-in-1 w/Phillips and Slotted Bits

Impact Insertion Tool for 3M MS2 Cross-Connect Modules - JIC-4055

This impact insertion tool is designed to terminate wires on 3M MS2 cross-connect panels quickly and easily.

- Automatically terminates wires onto cross-connect panels without disturbing other connections
- Slim design allows you to use the tool in compact or hard-to-reach places
- Ergonomically designed handle is comfortable and easy to use
- Holes in the bottom of the handle so tool can be tethered

JIC-4055

Quick Clip Insertion Tool - JIC-950C

Designed to cut and insert 22 and 24-gauge wire into terminal blocks, this multipurpose wire insertion tool is the perfect tool for performing several critical functions for wire insertion.

- Hook on back of unit is used for jumper and back-tap removal

Replacement Blade: **JIC-955**

JIC-950C

Termination & Removal Tool - EP-QTH38B

The **EP-QTH38B** tool is used for terminating, bridging, and removing wires from 2-beam or 3-beam, insulation-slicing, quick-clip terminals found on QCM486 (MPC) and 391Q connectors, and on Versa blocks with quick-clip pins.

- Used for seating and cutting operations or seating wires only
- Built-in wire pick for removing previously terminated cables

EP-QTH38B
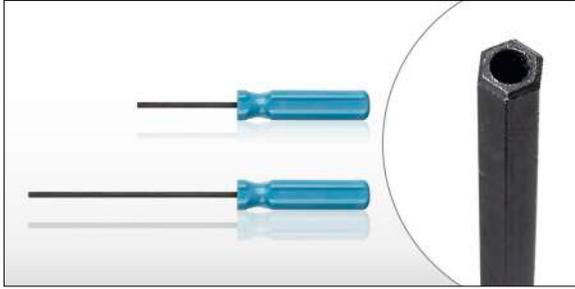

Booth Wrenches

Designed for use on communication and pedestal boxes, this booth wrench is perfect for opening 5/32" hex tamper-proof fasteners. These wrenches are heat treated carbon steel for maximum durability.

- **BW-532** Booth Wrench 6" Long Shaft - Extra long 6" shaft and 9" overall length for greater reach
- **BW-532-3** Booth Wrench 3" Long Shaft - 6" overall length for easy portability and storage

BW-532

BW-532-3

Lineman's B Wrench - JIC-650

Designed with two open-ended wrench heads and an oval hole for turning pole steps, this Bell System Type wrench is perfect for telecom and datacom work applications and features the following:

JIC-650

- Large end of the wrench accommodates 5/8" and 3/4" bolts
- Small end of the wrench accommodates 3/8" bolts, 1/2" bolts, and 1/2" drive screw heads
- Faces of the wrench openings are offset to provide handle clearance

Can Wrenches & Security Key Inserts

These double ended can socket wrenches are designed to fit over long binding posts and open telephone box fasteners. They can tighten nuts on binding-post terminals and access tight spaces such as locking devices on terminals and cabinets.

Stainless Steel Communication Scissors - JIC-195

JIC-195

Designed for telecom and electrical applications, these heavy duty scissors are the perfect tool for cutting cables up to 1/4" diameter and for other objects as well.

- One blade is serrated for a tight and secure grip while cutting
- High carbon stainless steel blades for maximum strength and durability
- Adjustable screw underneath hinge cap to configure blades to your needs
- Cuts Kevlar® and other materials with ease

Fiber Optic Kevlar® Cutting Shears - KCS-4

KCS-4

The Jonard Tools **KCS-4** Kevlar® Cutting Shears are designed to cut Kevlar®, cabling insulation, tape, cable ties, and other materials with ease.

- High carbon steel blades are heat-treated to HRC 46-48 for longer life
- Handles made of fiberglass infused polypropylene material are ergonomically designed for superior comfort and longterm durability
- Serrated blade for gripping as well as sharp and durable cutting

Heavy Duty Scissors w/ Wire Stripper - JIC-183

JIC-183

Designed to cut copper, aluminum, leather, plastic, and other materials, these heavy duty scissors are the perfect tool for cutting cables up to 1/4" in diameter. These scissors feature the following:

- One blade is serrated for a tight and secure grip while cutting
- Wire stripper accommodates 12 AWG, 14 AWG and 18 AWG (2.0, 1.5 and 1.0 mm^2 cross sectional area) wire
- Dual component polypropylene (PP) and thermoplastic rubber (TPR) grip for greater comfort and ergonomics
- Includes a safety locking mechanism and adjustment screw for convenience
- Not for use on stainless steel or other hardened/heat treated metals

PRECISION TESTING FOR EVERY FEED

PTZ Control, Focus, & Network Setup

Tests 8K IP, 4K HDMI, and Analog

On-Screen Video Display and Diagnostics

Connects Via RJ45, Wi-Fi, or BNC

Powers With PoE or 12V

THE CTV-8K

CTV-8K
MULTIFUNCTIONAL 8K CCTV TESTER

Handles camera testing from basic analog to high-resolution 8K IP. Includes power options and test tools for fast configuration in the field.

Ergonomic Cable Splicing Knife - KN-7

Designed with an extremely sharp cutlery steel blade, this cable splicing knife is perfect for cutting through some of the strongest types of cables including many types of insulation.

- Short 1-3/4" blade with 6-1/4" handle for better control and reduced hand fatigue
- Coping blade is made from high strength cutlery steel and is tempered to maintain its edge with repeated use

KN-7

Insulated Cable & Duct Sheathing Knife - KN-200INS

Designed with a curved blade and insulated handle, this cable sheathing knife is the perfect tool for slitting or cutting the sheathing off cables without damaging the conductor insulation inside.

- Ultra sharp, dual-sided blade can cut cable or duct jacket sheath from either side by pushing or pulling the tool through the cable

KN-200INS

Heavy-Duty Utility Knife - UKN-3

Designed for heavy duty use, this utility knife is the perfect addition to any tradesman or technician's tool kit. This utility knife features the following:

- Blade locks in four different positions for maximum cutting efficiency

Replacement Blades: **UKN-50RB**

UKN-3

Knife and Scissor Sharpener - KSS-1

Designed to restore the edges of knives and scissors in one tool, this knife and scissor sharpener is made of diamond-polished high grade tungsten-carbide steel. This knife and scissors sharpener features the following:

- Diamond-polished high grade tungsten-carbide steel blades will restore the edges of scissors or knives with only 3-4 strokes

KSS-1

Splicer's Kit - TK-400

Featuring an ergonomic cable splicing knife and electrician's scissors in a comfortable leather pouch, the **TK-400** Splicer's Kit is the perfect compact tool kit for cable splicing needs.

TK-400

Kit includes:
- **ES-1964** Electrician's Scissors
  Scissor-run design is perfect for cutting Kevlar® and wire
- **H-40** Leather 2 Pocket Tool Pouch
  Leather 2 Pocket Tool Pouch
- **KN-7** Ergonomic Cable Splicing Knife
  Short 1 3/4" blade with 6 1/4" handle for better control

Telephone Installer's Splicer's Kit - TK-22148

Designed for stripping, splicing, and crimping telephone or electrical cables, the **TK-22148** Telephone Installer's Splicer Kit is the ideal compact tool kit for telephone installers and technicians.

Kit includes:
- **ES-1964** Electrician's Scissors
- **H-36** Molded 2 Pocket Tool Pouch
- **JIC-22148** Combo Crimper, Long Nose Pliers

TK-22148

5 Piece Telecom Installer's Kit - TK-50

The Jonard Tools **TK-50** 5 Piece Telecom Installer Kit is the perfect kit for simple installations and includes the basic necessary tools for telecom installers.

Kit includes:
- **ES-1964** Electrician's Scissors
- **H-50** Molded Five Tool Pouch
- **JIC-22035** Probe Pick
- **KN-7** Ergonomic Cable Splicing Knife
- **M-216CS22** Ergonomic Can Wrench with Wire Stripper

TK-50

Network Tool Kit - TK-RJ45

This kit provides all the necessary tools for cutting, crimping, punching, and terminating network and telephone cables.

Kit includes:
- **CSR-56** CAT/TP Cable Stripper
- **PDK-110** Non Impact Punch Down Tool, 110 Blade with Cutter
- **RJ45** Connectors (Pack of 10)
- **RJ12** Connectors (Pack of 10)
- **UC-468** Modular 6-in-1 Crimping Tool

TK-RJ45

VDV Installation Took Kit - TK-RJ550

This kit provides all the necessary tools for cutting, crimping and terminating CAT5 and CAT5E network cables.

Kit includes:
- **CST-1i** Cyclops Wire Stripper
- **EPD-914** Punchdown Tool without Blade
- **EPB-110** Punchdown Blade, 110 with & without Cutter
- **ES-1964ERG** Ergonomic Electrician's Scissors
- **H-20** Rugged Carrying Case
- **RJ45-550** RJ45 CAT5E Pass-Through Connectors (Pack of 50)
- **UC-4569** 6-in-1 Crimping Tool, RJ45 Pass-through & RJ11/12 Modular

TK-RJ550

NETWORK & SECURITY

Telecom RJ45 Belt Pouch Tool Kit - TK-145

This tool kit includes everything you need for efficient cable install and maintenance. Featuring a 12-pocket tool pouch, this kit is perfect for professional electricians, technicians, and network installers.

TK-145

Kit includes:
- **CST-92** Coaxial Cable Stripper
- **ES-1964ERG** Ergonomic Electrician's Scissors
- **H-120** 12 Pocket Tool Pouch with Tape Sling
- **JIC-22148** Combo Crimper, Long Nose Pliers
- **RJ45-625** RJ45 CAT6 Pass-Through Connectors (Pack of 25)
- **SD-61** 6-in-1 Multi-Bit Screwdriver with Phillips & Slotted Bits
- **UC-4569** 6-in-1 Crimping Tool, RJ45 Pass-through & RJ11/12 Modular

5/32" Hex Security Socket 3/8" Drive (Pack of 10) - TWS-532/10

Designed to be used on 5/32" security screws with an appropriate driver, these hex security sockets are perfect for Network Interface Device (NID) mounting. These drive sockets include the following:

TWS-532/10

TWSW-10

- Provides a snug fit when used on 5/32" security screws
- Can be used with any 3/8" torque wrenches or drivers

Ubiquiti® Wi-Fi Access Point Unlock & Reset Tool - UUT-425

Designed for unlocking or resetting Ubiquiti® Wi-Fi Access Points, the **UUT-425** is the perfect tool for releasing the tedious tabs that lock Ubiquiti® access points or pressing hard-to-reach reset buttons.

UUT-425

- Easily press and hold down hard-to-reach reset buttons with ease
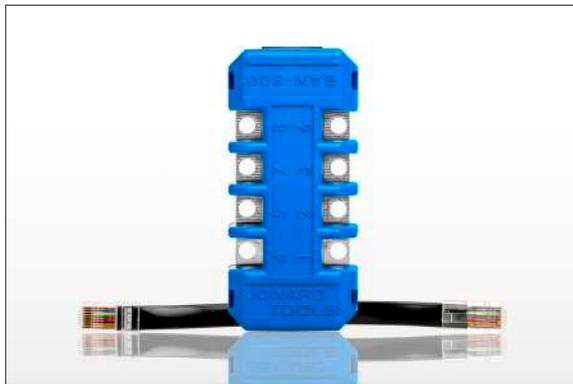

RJ45 8-Position Modular Adapter - BAN-800

The Jonard Tools **BAN-800** 8P Modular Adapter, also known as an 8P Banjo, is perfect for connecting butt sets, telephone test sets, tone generators and network test equipment to data and telephone lines using modular plug connections in order to test the data and signals being carried.

BAN-800

- Holed copper contacts keep alligator clips secured while testing
- Easy-to-read wire layout with clear markings indicating the different wire positions
- Reinforced ABS plastic body with belt clip for convenience
- Includes an easily removeable patch cord with rugged jack clips
- Can be used to test RJ11, RJ12, and RJ45 plugs

JIC-183 – HEAVY DUTY SCISSORS WITH WIRE STRIPPER, PG. 149

Telephone Butt Set w/ ABN, Analog - TBS-100

TBS-100

Designed to facilitate the installation, service, and maintenance of analog telephone lines, this telephone butt set has all the essential functions for testing telephone lines such as detecting dial tone, making and receiving calls, and tone and pulse modes.

- Dial, ring, talk, mute, or redial using this telephone line tester
- Sends signals via dial tone (DTMF) or dial pulse
- Angled Bed-of-Nails (ABN) Clips clamp connections securely
- Includes telephone line tester, RJ11 test cord, and an extra fuse
- Waterproof housing protects the unit from inclement weather
- RJ11 switchbox can test telephone lines directly by plugging them in
- Battery free! No need for batteries as the unit operates using the ABN hook up or is powered by the telephone line

Telephone Butt Set w/ High Impedance Monitoring, Analog - TBS-200

TBS-200

Designed to facilitate the installation, service, and maintenance of analog telephone lines, this telephone butt set has all the essential functions for testing telephone lines such as detecting dial tone, making and receiving calls, high impedance monitoring, and tone and pulse modes.

- Talk, ring, and monitor test functions, which can be switched inside of the handgrip
- Sends signals via dial tone (DTMF) or dial pulse
- High impedance monitoring will not disturb data, conversations, or signals
- Bright LED indicates reversed polarity clearly
- Voltage protection against excessive voltage, transient ringer signals, and direct connection to most batteries and power supplies

Network Cable Tester & TDR - TDR-100

TDR-100

An essential tool for network engineers, IT professionals, or anyone troubleshooting or maintaining network infrustructure.

- TDR function allows you to find the length of network cables or identify breakpoints in cables from 6.6 ft - 1312 ft (2 m - 400 m) long
- Wire Pair Mapping function allows you to test network cable for its line sequence, opens, shorts, wrong pairs, and reverse connections
- Cable Tracing function allows you to trace cables using the tester as a tone generator and the probe for tracing

Kit includes: Cable Tester and TDR, Probe, RJ45 Adapter Cable, Alligator Clips, Carrying Case, and (6) AAA Batteries

Cable Tester Tone & Probe Kit - TETP-800

TETP-800

Designed to quickly trace and identify cables, wires, and wire pairs, the Jonard Tools **TETP-800** tone and probe kit is the perfect kit for any Voice Data Video (VDV) professional.

Kit includes:

TEP-100 Tone Tracing Probe
- Plastic probe tip prevents accidental shorts
- Adjustable volume knob to work silently or to hear tone more easily

TET-600 Cable Tester & Toner
- Provides tone via RJ11 connector or alligator clips
- Works with our **TEP-100** tracing probe or others to identify cables

NETWORK & SECURITY

Cable Tester Tone & Probe Kit+ w/ ABN - TETP-901

TETP-901

Designed to identify, trace, and test the continuity of BNC & F connectorized COAX cables, network cables using RJ45 connectors, and telephone lines using 6P2C/4P2C plugs. This multi-function cable tester tone and probe kit is the perfect kit for any Voice Data Video (VDV) professional.

Kit includes:

TET-700BC Cable Tester & Toner+ w/ ABN
- Plastic probe tip prevents accidental shorts
- LED light provides a visual indication of signal strength

TEP-200 Tone Tracing Probe+
- Remote terminator can be used to test network cables with ease
- Provides tone via RJ45 and BNC connectors or test clips
- **TET-6** Accessory Kit for Cable Testers & Toners+

Digital Tone and Probe Set w/ Rechargeable Battery - TETP-1000D

TETP-1000D

The **TETP-1000D** is the fastest and easiest way to locate, test, and verify hard to find network cables in busy patch panels, wire bundles, and network closets. Featuring an easy-to-identify isolated digital signal perfect for testing on live networks, eliminating the need for downtime to diagnose any issues. With a long-lasting rechargeable Li-ion battery for nonstop service.

- Live Network and noisy signal testing with isolated digital tone generator
- Rechargeable Li-ion battery with USB-C
- Built in Continuity and Polarity testing displayed on easy to read LEDs plus POE verification
- Rugged alligator clip for testing bare wires
- RJ45 and RJ11 Ports for easy testing of RJ45 RJ11 and RJ12 Cables

Multi-Functional 8k CCTV Tester - CTV-8K

CTV-8K

Introducing the **CTV-8K**, the ultimate multi-functional CCTV tester that supports a wide array of camera types, making setup and testing of your network a breeze. With its built-in POE and HDMI tester, along with the RJ45 TDR tester, this all-in-one solution allows you to effortlessly verify and troubleshoot your entire system. Empower yourself with enhanced productivity from start to finish with the **CTV-8K** installation and trouble-shooting tester for digital/IP, HD coax, and analog CCTV camera systems.

- 8k IP Camera Test and 4K 60fps HDMI Test
- Connect to various cameras using RJ45, Wi-Fi or BNC ports

POE & Cable Testing Tool - POE-1

POE-1

Engineered to tackle the dual challenges of POE testing and network cable continuity verification, our all-in-one POE tester is a game-changer for network technicians and professionals.

- Instantly verify the presence of POE and determine the Voltage, Amperage, and standards of Ethernet cables, supporting Passive, 802.3af, 802.3at, and 802.3bt standards

Kit includes: POE Tester, Cable Remote, Female-Female RJ45 Adapter, Instruction Manual, and AA Battery

QR CODE		

Round Cable Strip & Ring Tool, 8-28 mm - CST-900

Designed for the fast and precise removal of round cable jackets 8-28 mm in diameter. This round cable stripper also features:

CST-900

- Blades are coated with Titanium-Nitride (TIN) for longer life, faster cutting, and less wear
- Large adjustment screw allows for precise blade depth adjustments
- Specially designed blade automatically adjusts from ringing to slitting

Replacement Blades (Pack of 3): **CST-900RB**

Round Cable Strip & Ring Tool for Cables 4.5-29 mm in Diameter - CST-1140

The **CST-1140** Round Cable Strip & Ring Tool is designed for fast and precise removal of cable jackets from round cables that are 3/16" to 1-1/8" (4.5 mm to 29 mm) in diameter.

CST-1140

Replacement Blades (Pack of 3): **CST-1140RB**

CableSaber™ Armored Strip & Ring - AST-200

The award winning **CableSaber**™ is the ultimate tool for gaining mid-span access to armored or thick jacketed cables 4 mm to 28.6 mm (0.157" to 1.125") in diameter.

Replacement Blades (Pack of 2): **AST-200RB**

AST-200

CableSaber+™ Armored Cable & Fiber Duct Slitter - AST-210

The Jonard Tools **CableSaber+**™ is the ultimate tool for gaining mid-span access to armored or thick jacketed cables 4 mm to 30.0 mm (0.157" to 1.181") in diameter.

Replacement Blades (Pack of 2): **AST-210RB**

AST-210

Cable Ring Tool - JIC-2060

Designed to ring and remove the sheathing off plastic, fabric, and rubber-covered cables from 3/16" to 1/2" (4.7 mm to 12.7 mm) in diameter.

JIC-2060

- Made of durable carbon steel construction for high durability and long life

Replacement Blades (Pack of 6): **RB-2060/6**

Precision Cable Strippers

Ratcheting Duct and Cable Slitters

These ratcheting cable slitters are designed to dismantle heavy-duty cables. The **RCS-25** and **RCS-30** both slit and ring round cables greater than 1" (25 mm) in diameter, and the **RCS-30** can also be used to make window cuts in ducts up to 5 mm thick.

SPECS	RCS-25	RCS-30
CUT TYPE	Slit & Ring	Window, Slit & Ring
APPLICATION	Cables	Cables & Ducts
REPLACEMENT BLADES	RCS-25RB	RCS-30RB
QR CODE		

Ratcheting Slitter Comparison

RCS-25 Blade Close-Up — Large guide shoe helps prevent damage to internal cables while slitting and ringing.

RCS-30 Blade Close-Up — Narrow blade shape makes it easy to penetrate thick duct walls.

RCS-25   RCS-30

CABLE & WIRE

Submariner Cable & Large Duct Slitter - RCS-50

Designed to open the toughest heavy-duty cable jackets, the **RCS-50** is perfect for performing lateral and longitudinal cuts on submariner cables, large fiber ducts, or large count telephone cables at least 1-1/2" (3.81 cm) in diameter. Includes the **H-20** rugged carrying case.

Replacement Blade: **RCS-50RB**

RCS-50

Adjustable Wire Stripper & Cutter - WS-5

Designed with a precision-ground "V" notch blade and adjustable blade stop for superior stripping, this adjustable wire stripper and cutter is perfect for stripping and cutting 10-30 AWG (2.6 - 0.25 mm) solid and stranded wire.

WS-5

Wire Stripper & Cutter, 8-22 AWG - WS-822

Easily strips 8-20 AWG solid wire and 8-22 AWG stranded wire, can remove up to 1" of insulation in a one-step operation. Built-in cutting blades make it easy and convenient to cut and prep wire. Gripping and stripping jaws grab, hold, and strip wire with one squeeze of the handle.

WS-822

Precision Wire Stripper Pro, 8-30 AWG - WSA-830

The Precision Wire Stripper Pro is designed to easily and accurately strip a wide range of wire sizes from 8 to 30 AWG.

- Consistent and efficient self-adjusting stripping every time
- Additional fine adjustment slide for precise knick-free stripping for insulation thickness up to 1"

WSA-830

Wire Stripper & Crimper, 8-26 AWG - WSC-826

The Jonard Tools **WSC-826** is a multi-function wire stripper designed to cut and strip wire from 8-26 AWG (3.26 mm to 0.40 mm) without any adjustments needed.

- Tool has a wire stripper, cutter, and crimper for non-insulated terminals
- Built-in handy adjustable wire stop ensures precise and consistent results

WSC-826

Heavy-Duty Wire Stripping Pliers, 10-16 AWG - WSC-1016

Designed to strip the most commonly-used stranded and single conductor wires, this wire stripper is the perfect tool for cutting, stripping, and crimping 10-16 AWG (2.6 mm to 1.3 mm) wire.

WSC-1016

CABLE & WIRE

Cable Stripper for 14/2 & 12/2 NM Cable - WSC-1412

Designed to strip the jacket and insulated conductors from 12/2 and 14/2 NM cables. Includes stripping holes for removing insulation on 12 and 14 AWG wire, wire looping / bending holes to aid in wire prep, and shears 6-32, 8-32, 10-32 screws.

WSC-1412

Electric Lug and Terminal Crimper - TCC-1416

Designed to prep electrical cables, this electrical lug and terminal crimper is perfect for cutting and stripping wires, and crimping insulated and non-insulated lugs and terminals. This crimper features the following:

TCC-1416

- Strips 22-16 AWG (1.3 mm-0.6 mm) electrical wires
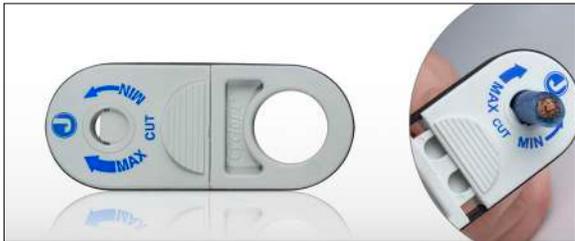

Cyclops Wire Stripper - CST-1i

Fast easy removal of outer insulation from all unshielded twisted pair, shielded twisted pair and multicore cables. The **PATENTED** Cyclops features a self adjusting blade and is perfect for PVC and plenum type insulation, plus other materials without damaging the inner braids, foils or conductors. Cable performance is not impacted using this cable stripper.

CST-1i

Adjustable Wire Strippers

These precision wire strippers feature an adjustment dial that allows the operator to select one of the six different settings. These adjustable wire strippers are the perfect tool for stripping wires quickly and easily.

SPECS	ST-450	ST-500	ST-500ESD	ST-550

Stainless Steel Curved Wire Stripper, 6-12 AWG - WSS-612

WSS-612

Designed to cut and strip the most commonly used stranded and single conductors, this wire stripper is the perfect tool for cutting and stripping wires from 6 to 12 AWG (4.11 mm to 2.05 mm).

- 50 HRC stainless steel construction for precision stripping and durability
- Coil spring reduces hand fatigue when using for extended periods of time
- Conveniently located bending holes makes wire looping quick and easy
- Includes cutting holes for 8-32 and 10-32 threaded screws
- Ergonomic curved handle design is naturally comfortable to hold and reduces hand fatigue

Stainless Steel Curved Wire Stripper, 10-20 AWG - WSS-1020

WSS-1020

Designed to cut and strip the most commonly used stranded and single conductors, this wire stripper is the perfect tool for cutting and stripping solid wires from 10-20 AWG (2.60 to 0.81 mm) and stranded wires from 12-22 AWG (2.05 to 0.65 mm).

- 50 HRC stainless steel construction for precision stripping and durability
- Coil spring reduces hand fatigue when using for extended periods of time
- Conveniently located bending holes makes wire looping quick and easy
- Includes cutting holes for 8-32 and 10-32 threaded screws
- Ergonomic curved handle design is naturally comfortable to hold and reduces hand fatigue

INSERTION & EXTRACTION TOOLS

INSERTION & EXTRACTION

Insertion & Extraction Tool Kits

These tools service virtually all connectors with front release contacts.
They contain strong, durable, stainless steel probes & color coded handles.
Items sold individually as well as in kits.

Insertion Tool Kit - KA-260

Inserts front release contacts made by: Amp, Amphenol, Bendix, Burndy, Cannon, Cinch, Continental, Elco, Flight, Pyle National, and Deutsch

SPECS	KA-260	A-4598	A-4599	A-4600
DESCRIPTION	Insertion Tool Kit (Includes: **A-4598**, **A-4599**, **A-4600**)	Insertion Tool Contact Size 20	Insertion Tool Contact Size 16	Insertion Tool Contact Size 12

Both kits are supplied in a Jonard Tools leather tool case.

Insertion & Extraction Tool, Contact Size 20 - AR-910672

This tool is perfect for inserting and extracting size 20 front release contacts made by most manufacturers.

AR-910672

- Probes constructed from brass to prevent damage to contacts
- Housing made from color-coded ABS: Red side is for insertion and white side is for extraction

Pin Removal Tool, Contact Size 16-20 - R-5926

Compatible with nearly all AMP-style pin connectors between contact sizes 16-20, this tool is perfect for extracting AMP CPC pins from the back of connector blocks. This insertion tool features the following:

R-5926

- Smooth built-in plunger makes removal of pins quick and easy
- Pushes pins out from behind the connector blocks for contact sizes 16-20

Wedgelock Removal Tool, DT and AT Series Connectors - DTR-1

This double-ended removal tool is expertly designed for fast and efficient disassembly of DT and AT Series connectors.

DTR-1

- **Screwdriver Tip:** Ideal for lifting and removing receptable wedgelock cap, as well as releasing the pin contact
- **Hook Tip:** Designed to grap and pull internal plug wedgelock from the connector

Wire Extractor - M-724A

Designed for removing wire from quick-connect clips and 66 & 110 terminal blocks, this wire extractor is simple. This wire extractor features the following:

M-724A

- Easy to use on quick-connect clips and 66 & 110 terminal blocks
- Solid metal construction with insulated handle for high durability and safety

Precision Crimper - CMP-1226

Designed for use with our **CMP-3** turret head and most other turret heads, this precision crimping tool is perfect for crimping front release connector contact pins onto 12-26 AWG wire.

CMP-1226

- This tool is compatible with most other turret heads, including our **CMP-3** turret head
- Creates 4-indent 8-impression crimps, which assure maximum tensile strength
- 8 position selector knob allows you to control the crimp depth with ease
- Smooth precision ratchet ensures the same accurate crimps every time
- Rugged steel frame construction with rubber cushion grips for comfort

INSERTION & EXTRACTION

IC Insertion/Extraction Kit - WK-7

This tool kit is designed to facilitate the installation and extraction of DIP IC and PLCC chips on circuit boards. All included tools are CMOS safe and include grounding lugs where appropriate.

WK-7

Kit includes:

- **EX-1** DIP IC Extractor (8-24 pins)
- **EX-2** DIP IC Extractor (24-40 Pins)
- **EX-5** PLCC Extractor, ESD Safe
- **MOS-1416** Insertion Tool (14-16 Pins)
- **MOS-2428** Insertion Tool (24-28 Pins)

IC Insertion & Extraction Tools and Kits

SOLDERING & DESOLDERING TOOLS

Benchtop Fume Absorbers

Features:
- Aerodynamic hood design effectively draws irritating soldering fumes away from the work area
- Carbon-impregnated filters trap a limited portion of the flux fumes
- Compact size, low profile and adjustable stand allows convenient placement 6" to 8" (152 mm to 203 mm) from work area
- Dimensions: 8-1/2" H x 8-1/4" W x 4" D
- Articulating arm allows optimized positioning and saves bench space
- Bench mounting clamp and 3 filters come complete with unit
- Noise level 45-50dBA
- **SA-9-E-115** features static-dissipative housing

KSW Wire Wrapping Wire Rolls for Cut/Strip/Wrap Applications

Low strip force Kynar® insulated silver plated copper conductor wire is further processed to provide a low strip force for use with CSW bits and sleeves. Ideally suited for wire wrapping and many other applications. The Kynar® insulation provides a flexible yet abrasion resistant wire and the conductor is made from silver plated OFHC (Oxygen Free High Conductivity) copper.

KYNAR WIRE

WIRE WRAP TOOLS

In February 2003 Jonard Industries acquired OK Industries and merged their operation into the "Jonard Family of Companies". Established in 1946, OK Industries blossomed as a major force in the telecommunications and electronic industries with a special proficiency in the manufacture of Wire Wrapping Tools. These same tools have continuously been supplied by Jonard Tools.

CONTENTS

WIRE WRAP TOOLS

G100/R32Z8IINS – INSULATED ALUMINUM WIRE WRAPPING TOOL, PG. 174; PTX – BATTERY POWERED WRAP/UNWRAP TOOL, PG. 173

Wire wrapping is a method of making a wire connection by coiling the bare wire around the sharp corners of a terminal under mechanical tension. The technology was developed as an alternative to soldering, which presents various safety and reliability problems in many applications. A principal advantage of wire wrapping is that it provides a high-reliability connection that is also easily removed to correct or modify a wiring layout. Wire wrapping subjects the wire to tremendous tension and compression forces, causing the oxide layer on both wire and terminal to be crushed or sheared, resulting in a clean, oxide-free metal-to-metal contact. A standard wrap is generally used for 18 AWG and larger diameter wires; a modified wrap is typically used for 26 AWG and smaller wires, and is used almost exclusively for 28-30 AWG wires. In either case, the wrap style affects only the connection's mechanical stability; both styles provide suitable electrical connections.
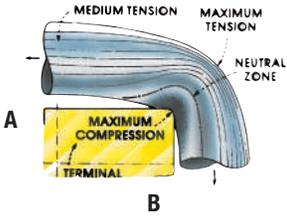

Metal-to-Metal Contact

By bending the wire around the sharp corner of the terminal, the oxide layer on both wire and terminal is crushed or sheared, and a clean, oxide-free metal-to-metal contact is obtained.

Types of Wrap

A "Regular" bit wraps the bare wire around the terminal. A "Modified" bit wraps a portion of insulation around the terminal in addition to the bare wire. This greatly increases the ability to withstand vibration.

Regular   **Modified**

Strip Force Chart*

WIRE SIZE			MIN NUMBER OF TURNS (BARE WIRE)	MIN. STRIP FORCE	
AWG	DIA. INCHES	DIA. MM		LBS.	GMS

30	.0100	0.25	7	3.3	1500

*Conforms to MIL-STD-1130B
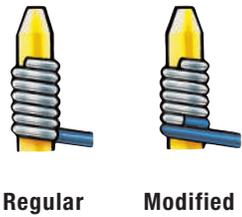

How to Make Wire Wrapped Connections

Step 1: Bit, Sleeve & Pre-Stripped Wire

Step 2: Wire Insertion

Step 3: Wire Anchoring

Step 4: Terminal Insertion

Step 5: Finished Connection

Some Hints on Making Wrapped Connections

OVERWRAP
Do not press too hard. Let the OK tools do the work. Excessive pressure can lead to overwrapping. Backforce "BF" to prevent over-wrapping is available on most power tools and is recommended for use with 26-30 AWG wire.

OPEN WRAP & SPIRAL WRAP
Just keep the OK tool on the terminal until the wrap is complete. Early removal can result in spiral and open wraps.

INSUFFICIENT TURNS
It's easy to feed wire into the slot in the OK bit correctly. Be sure the stripped end of the wire is "pushed-in" all the way.

PIGTAIL
Wire wrapping is a precision technique and the wrong bit and sleeve just cannot do the job. Improper selection can cause problems ranging from "Pigtails" to loose wraps.

WIRE WRAP TOOLS

Battery & Electric Wire Wrap Tools

The ergonomic and patented PTX Series Wire Wrap Tools are the telecom industry standard for wire wrapping needs on main distribution frames as well as local and remote installations. Its rugged construction and high speed motor make the tool suitable for electronic assembly work and many other wire wrapping applications.

BATTERY & ELECTRIC WIRE WRAP TOOLS

Battery Wire Wrap Tools & Kits

JONARD P/N	DESCRIPTION	WEIGHT	RPM
PTX	Battery Powered Wrap/Unwrap Tool	1.13 lbs (0.51 g)	3700
PTX-KIT1	PTX Tool, 115V Battery Charger, 2 Batteries	3.15 lbs (1.42 kg)	3700
PTX-KIT1DH	PTX Tool, DFB224, 115V Battery Charger, 2 Batteries, H-1000	3.44 lbs (1.56 kg)	3700
PTX-KIT2	PTX Tool, 230V Battery Charger, 2 Batteries	3.18 lbs (1.44 kg)	4200
PTX-KIT2DH	PTX Tool, DFB224, 230V Battery Charger, 2 Batteries, H-1000	3.60 lbs (1.63 kg)	4200

All battery wire wrap tools above operate with a 3.6 Volt NiMH battery.

Electric Wire Wrap Tools

JONARD P/N	DESCRIPTION	WEIGHT	VOLTAGE	RPM
PTX-1BF	Electric Wrap/Unwrap Tool w/ Backforce, 115V	2.00 lbs (0.90 kg)	115V	3700
PTX-2	Electric Wrap/Unwrap Tool, 230V	2.20 lbs (0.99 kg)	230V	4200
PTX-2BF	Electric Wrap/Unwrap Tool w/ Backforce, 230V	2.17 lbs (0.98 kg)	230V	4200

All tools with "BF" in the part number include backforce protection to prevent overwrapping.

Accessories

JONARD P/N	DESCRIPTION	WEIGHT
PTX-B	PTX Battery for Wrap/Unwrap Tool	0.39 lbs (0.18 kg)
PTX-BC1	PTX Battery Charger, 115V	0.77 lbs (0.35 kg)
PTX-BC2	PTX Battery Charger, 230V	0.86 lbs (0.39 kg)
PTX-FLA	Universal Flashlight Kit for PTX	0.08 lbs (0.04 kg)

WIRE WRAP TOOLS

Manual Wire Wrap Tools

Manual Wire Wrap Tools from Jonard OK Industries are ideal for between 50 and 200 wire wrap jobs per day. The nose piece should be tightened when the trigger is squeezed to minimize drag and ensure the wire wrapping bit and sleeve (sold separately) are properly oriented.

MANUAL WIRE WRAP TOOLS

G100/R3278	G100/R3278FL	G100/R3278INS	G200/R3278

G100/R3278	Aluminum Wire Wrapping Tool
G100/R3278FL	Insulated Aluminum Wire Wrapping Tool with Flashlight
G100/R3278INS	Insulated Aluminum Wire Wrapping Tool
G200/R3278	Wire Wrapping Tool with Lexan® Housing

LED Flashlight Kit for G100 Tools - G100-FL

Compatible with **G100/R3278** & **G100/R3278INS** wire wrapping tools, this flashlight is perfect for providing task lighting in dimly lit areas.

G100-FL

LED Flashlight Kit for WW Gun - G100-FLA

Compatible with our **G100**, **G200**, and most other wire wrapping guns, this flashlight is perfect for providing task lighting in dimly lit areas.

G100-FLA

Manual Wire Unwrapping Tool - G100/R3394CT

Designed for unwrapping 20-26 AWG (0.80 - 0.40 mm) wire using unwrap set **PUW2226**, this tool is perfect for unwrapping wire quickly and easily.

G100/ R3394CT

The **PUW2226** includes the **2026UB** unwrap bit and the **SOK2230** unwrap sleeve.

Wire Wrapping Extension Attachment - EXT-400

Precision device which attaches easily to your manual or powered wire wrapping tool for applications requiring extra "reach".

EXT-400
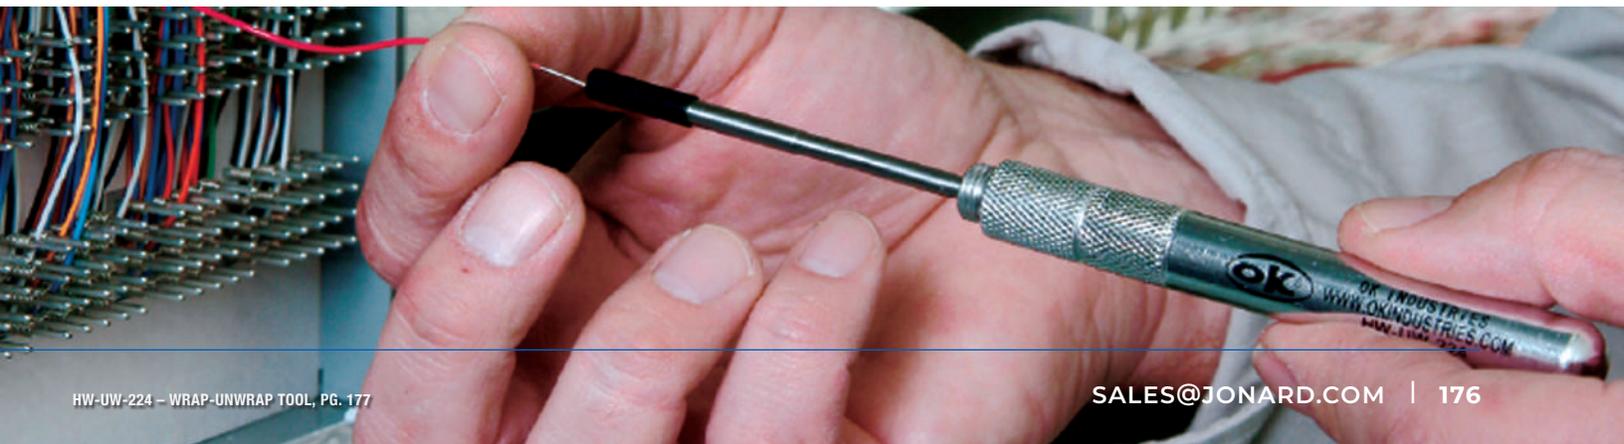

WIRE WRAP TOOLS

Hand Wire Wrap & Unwrap Tools / Insulated Hand Wire Wrap & Unwrap Tools

Designed to wrap or unwrap wire on binding posts, these hand wrap tools are perfect for use on 18-30 AWG wire. These hand wrap tools also features the following:

HAND WIRE
WRAP &
UNWRAP
TOOLS

- Compact and convenient for making precise wire wraps where power wire wrapping tools are impractical
- Switch from wrapping to unwrapping quickly by changing the cap from one end to the other

LIGHTING

Solis™ Rechargeable Tactical Flashlight - SOL-F1

SOL-F1

Jonard's answer to darkness comes in this sleek, versatile, and compact powerhouse! Delivering a piercing beam of light from its ruggedly engineered housing, this is the tactical flashlight that will have you bidding farewell to traditional flashlights forever!
The **SOL- F1** also features the following:

- Housing constructed with anodized aircraft-grade aluminum material for ultimate durability and strength
- Zoomable head design allows for adjustable beam intensity, for various lighting needs
- At full zoom a crosshair indicator appears for perfect sighting
- Side work light provides wide area of illumination and doubles as emergency flare when switched to red light setting

Solis™ Rechargeable LED Flex Headlight - SOL-H1

SOL-H1

Crafted with top-grade silicone, the **SOL-H1** is the epitome of flexibility. With the ability to be operated completely hands free, this multi-functional headlamp illuminates a new path in personal lighting. Ths headlight also features the following:

- Dual functionality with wide beam and spotlight features
- The wide beam of the **SOL-H1** illuminates in a wide, 230° beam angle for extreme visibility and coverage

LED Flashlight w/ Zoom Lens - SOL-H2

SOL-H2

Setting the standard for jobsite hands-free lighting, Jonard Tools' **SOL-H2** redefines versatility and comfort. It does its job reliably so you can do yours better. This flashlight features the following:

- Once activated, a motion sensor can turn the light on or off by simply waving your hand in front of it
- Ultra-bright LEDs provide up to 300 lm of brightness, illuminating even the darkest locations

Solis™ Utility Truck Light - SOL-T1

This remote-controlled LED truck light with built-in rechargeable Li-ion battery is a rugged and versatile lighting solution ideal for vehicles, utility crews, emergency response, and outdoor job sites.

SOL-T1

- 4 high-powered LEDs and 1 laser bulb provide up to 4800 lumens of ultra-bright illumination, with optional flashing strobe
- Remote-controlled 360° rotation and 120° tilt for flexible positioning
- Versatile installation options with an integrated magnetic base for temporary placement, bolt-on slots for permanent mounting, and a foldable handle for easy carrying and setup

Solis™ Rechargeable 360° Pivoting Worklight - SOL-W1

The rugged aluminum housed **SOL-W1** is built to withstand the toughest job in the worst conditions, as well as the daily wear and tear of demanding tasks. With a multitude of features this work light's application seamlessly spans construction sites, automotive repairs, or outdoor projects, and so much more.

SOL-W1

- Powerful 400 lumens of brightness
- Front light doubles as red warning light indicator with flashing flare function
- 180° adjustable base for flexible positioning and optimal lighting angles
- 360° rotating head for complete control and light coverage

LED Flashlight w/ Zoom Lens - FL-2000

Powered by a single AA alkaline battery, this high strength LED flashlight is perfect for illuminating dark places and features the following:

FL-2000

- Ultra-bright 120 lumen LED can be easily adjusted by simple in-and-out movement and the zoom lens can focus the light to hone in on a specific area, or zoom out to flood the area with light
- Rugged aluminum housing with clip-on lanyard keeps this flashlight secure
- Simple push-button operation
- Beam is adjustable to meet the working environment
- Zoom in for a narrow beam and zoom out for a wide light
- High quality flashlight powered by a single AA battery (included)

Solis™ LED Baseball Hat - SOL-C1

Jonard Tools designed adjustable baseball hat with our customized Crossed Wrench logo. Battery operated LED light attached to brim.

SOL-C1

- Built-in LED light for hands-free visibility
- Easy to reach, simple on/off switch in visor for quick use
- Comfortable fit for all-day wear
- Replacement Battery: CR2032 (sold separately)

Short Sleeve T-Shirt - Black w/ Graffiti Design - MKT-SHIRTS6

Founded in 1958 in the Bronx, Jonard Tools was born in a city of ambition, expression, and edge. We grew from local streets to global reach, never limited by where we started.

Born in the boroughs, graffiti shattered limits, rewrote norms, and left a mark that couldn't be ignored – just like our tools. Our graffiti-inspired logo honors those roots and stands as a symbol of our commitment to break convention, raise the bar, and deliver unmatched precision and performance.

FORCE GAUGES

Dynamometer and Push-Pull Forge Gauges

Jonard's force gauges are all ergonomically designed and have become the industry standard for measuring force. Our 3 different lines of force gauges are used by a multitude of industries and these gauges are being used in over 1000 different applications for measuring, calibrating, standardizing, testing and evaluating. Measurement is extremely simple. Just place point of gauge arm perpendicular to the force to be measured. Reading can be taken in both directions - clockwise and counter clockwise. Gauges offer extreme precision and durability. The measuring springs are made of hard tempered annealed beryllium copper. All gauges equipped with maximum reading pointer.
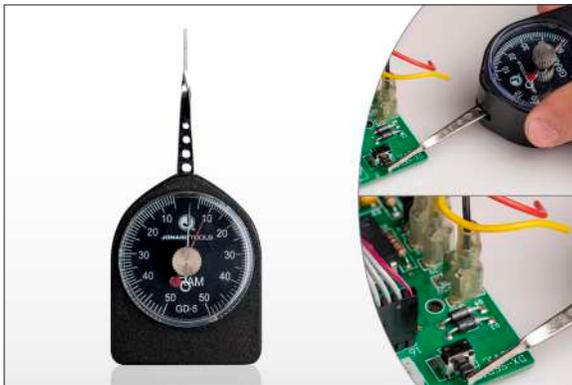

Small Force Gauges (Flat Tip, Dial Diameter 1-1/2")
